#### Says Good Home-Making Involves the High Arts

Chicago, in keeping with the rest of the United States, is turning its attention to the national movement for better homes. Various women's clubs and other social agencies, in programs and other forms of service, are teaching the lessons of "better homes, better citizens."

Attractive homes that add to the comfort of adults and provide interesting surroundings for adolescent and juvenile members of the household are fundamental requisites for happy familles, according to the originators of the

Hendrik Van Loon in his history of mankind, after reviewing all the phases of statecraft, industry and religion that have influenced the making of our race and civilization what it is today, and after recording the influence of various leaders in military, scientific and literary achievements, says Rembrandt, Beethoven and Rodin are the prophets and leaders of the race.

"A world without art and happiness is like a nursery without laughter." In other words, art in its various forms has been the liberator of the race. No civilization can exist without art. But of all the various phases of art, that of the small house and its contents and surroundings is most difficult to achieve, yet most vital to a happy life and a satisfactory community or na-

A beautiful home has the power to attract attention, improve conduct, compel respect, bind families and friends together, form communities, found states and create nations. Men and women reared in and among beautiful homes acquire good taste from them and seldom if ever do a very ugly thing. Good home-making involves all the high arts and produces the most happiness for us all.

The small homes are just as important or more important than large homes from a moral, economic and patriotic point of view. The building of homes is a matter of most vital concern to the welfare of a nation. Homeless citizens and families, whether rich or poor, are not potentially the best cltizens.

#### Cost of Home

The value of the house and lot purchased for a home by the typical American family lies between one and two-thirds and two and a half times the family's annual income at the time of purchase, realtors throughout the National Association of Real Estate Boards and their clients, the army of home buyers nationally, will learn with equal interest. The kind of home any given family expects to own will be found to have a value just about double the amount of the family's income for a year. Statement of what investigation finds to be the prevailing proportion of home purchase price to annual family income for the United States is given by the division of building and housing of the United States Department of Commerce in a recent pamphlet entitled "How to Own Your Home, in the compilation of which the National Association of Real Estate Boards assisted.

"If a certain family pays a sixth of its income for rent, it may be able to devote one-fourth or more to buying and maintaining a house, for the amount thus used may include both rent and savings," the government housing authorities advise the wouldbe home buyer. "Rent or payments on a home may require anywhere from one-eighth to one-third of the family income, depending on the special circumstances in each case."

#### \*\*\*\*\*\*\*\* My Little Town

## \*\*\*\*\*\*\*

My Little Town in summer Dons a soft, leaf-shadowed air, And every street grows blossom-sweet, And every garden fair.

And all the little houses, Their windows open wide, Are talking to their neighbors Of the loveliness outside.

My Little Town in winter Wears a plain, unbending mien, And gaunt and bare its houses start With drifted lawns between.

But when the winter evenings In cold gray settle down, And home-bound feet in every street Pass through My Little Town,

Then from each lighted window The little homes begin To whisper to their neighbors Of the warmth and joy within. -Eleanore Myers Jewett, in St.

Nicholas Magazine. Make City Attractive

How long before it will be realized that acres of rubbish, miles of ugliness, junk heaps, dilapidated buildings are not only eyesores but a constant menace to property values? Why is carefully restricted property always high-class property, sure of a ready

market at substantial prices? Why then restrict only in spots? Why not restrict the whole city, not for residence purposes or a particular kind of business, but for all purposes as the development of the city makes desirable?

THE PERIOD OF THE JUDGES

LESSON TEXT-Judg. 2:6-19; 7:1-23. GOLDEN TEXT-I will heal their backsliding, I will love them freely .-Hos. 14:4.

PRIMARY TOPIC-The Story of a Brave Leader. JUNIOR TOPIC - Gideon and His Three Hundred.

INTERMEDIATE AND SENIOR TOP-IC—Israel Falling and Rising Again.
TOUNG PEOPLE AND ADULT TOP-IC-The Long Struggle With Idolatry.

I. A Synopsis of the Book of Judges. This book covers the period from the conquest of Canaan and the death of Joshua to the judgeship of Samuel. The teacher should master the content of the book in order to teach this lesson, especially chapters 2-16.

1. The Sin of the People (Judg. 2:6-13). While Joshua and the elders of his generation lived, the people in some measure remained faithful to God, in obedience to His Word, but the very next generation went into apostasy. Their degradation may be accounted for as follows:

(1) Failure to drive out the Canaanites from their midst. They had gained the victory over them, but failed to exterminate them. Their mistaken tolerance became their undoing.

(2) Their amalgamation with the Canaanites. They intermarried with the heathen. Tolerance of the enemy is closely followed by union therewith and quick disaster comes in the wake of such union.

(3) Idolatry. Intermarriage with people lose power over the world as Boy. soon as they make alliance with it.

2. God's Judgment for Their Sins (Judg. 2:14, 15). He delivered them into the hands of "the spoiler that spoiled them."

3. The Repentance of the People (Judg. 3:9). Under the yoke of their enemies they learned their folly and cried unto the Lord for deliverance.

4. God's Deliverance at the Hand of the Judges (Judg. 2:16-19). God heard their cries and by raising up military chieftains as Judges he saved them out enemy, repentance on the part of the people and God's deliverance, constitute the story of the book of Judges. It. The Victory of Gideon's Band

(Judg. 7:1-23). Gideon was the most outstanding of the Judges. He came from an cbscure and uninfluential family (6:15). Before going forward he wishes to be doubly sure (6:36-40). When once he was convinced of duty, he was courageous and enthusiastic. This is char-

acteristic of all truly great men. 1. The Opposing Army (v. 1). Gldeon and his army rose early on that eventful day and they came by the spring of Harod. Over against them was the host of the Midianites in bat-

2. The Sifting of Gideon's Army (Nv. 2-8). At Gideon's call 32,000 men responded, ready for the struggle. This seemed a small army to go against the Midianite army, 185,000 strong, but God said this was too many, lest they be led to boasting and self-confidence. The real danger was not in their small army but in their pride. All that were afraid were allowed to go back, leaving only 10,000. Still this was too many. When God was through sifting, only 300 remained.

.8. God Gives Encouragement to Gideon. He bade Gideon go down to the Midianite camp, where he would hear something that would cheer his heart and strengthen his hand. When he came near he heard a man telling a dream, which was that of a barley cake tumbling into the camp and smiting it. He also heard the interpretation given to the dream which made

Gideon to be that cake. 4. God Gives Victory to Gideon (vv. 16-23). His attack was unique. The whole matter was of faith (Heb. 11:32). Gideon with his 300 men formed into three companies, each man being provided with a trumpet and a lamp concealed within a pitcher. Thus armed they surrounded the camp of the Midianites. They were all instructed to keep their eyes upon their leader and imitate him. At the proper moment they blew their trumpets and broke their pitchers, giving opportunity for the lamps to shine out. This awful crash of broken pitchers, following the sound of trumpets, accompanied by the shout, "The sword of the Lord and of Gideon," threw the Midianites into a panic, causing them to fight among themselves. One hundred and twenty thousand were thus slain, leaving but 15.000 of that mighty army (Judg. 8:10).

The Test. When I see a man who does not think pretty well of himself I always suspect him of being in the right. Robert Louis Stevenson.

#### Scent in Gems

The perfume of precious stones was discussed in a lecture in Geneva recently, says the New York World, by the French jewel expert De Henselaer. Some stones, such as the emerald, he said, give a subtle, pleasant scent when reduced to powder, while others, among them diamonds, have a disagreeable odor.

# How to know "cured" fertilizer

HOW can you teli Royster's Fertilizer from fertilizer that has not been aged? greatest difference is seen in the more profitable crops grown by the cured fertilizer, but there is a difference

even to the untrained eye! After the first mixing, Royster's goods are placed in great bins where they age from four to six months. They are then re-milled and bagged.

The fine grinding of the ingredients and the close association of the

plant-food elements bring about a more complete chemical action during this aging, making a fertilizer which is readily available to the plant from seed time to harvest.
