

Rescue Crews at Work at Scene of Utah Mine Horror

At the main portal of Mine No. 2 at Castle Gate, Utah, where a throng of rescuers were bringing out the bodies of the 173 men who were killed by an explosion.

DEMOCRATIC LEADER

Emily Newell Blair of Joplin, Mo., and Washington, is vice chairwoman of the Democratic national committee.

IDENT HONORS HERO

President Coolidge decorating Henry H. Johnson, a torpedoman second class, with the Congressional Medal of Honor for his heroic life of a mate when the submarine O-5 collided with another submarine on Oct. 28, 1923. Every man on board the submarine jumped to the rescue, except Breault, who was killed in the torpedo room for 31 minutes under 40 feet of water trying to save the life of his fellow mate. They were finally rescued by the submarine O-5.

STATE FLAG GIVEN HER

Mrs. Coollidge, national committeewoman for Vermont, wife of the mayor of Manchester, who was presented the Vermont state flag on behalf of the Women's National Republican Club by Mrs. Coollidge.

World's Biggest Office Building

The world's largest office building, 37 stories high, here illustrated from the architect's drawing, is to be erected in New York on the large block bounded by Thirty-second and Thirty-third streets and Fourth and Lexington avenues, at present occupied by ancient and unsightly car barns. The property has recently been acquired by Henry Mandel and his associates, and ground will be broken within a few weeks. The building, which is to contain more floor space than its two nearest competitors—the Equitable building of New York and the General Motors building in Detroit—is to be distinctly American in architectural treatment.

Capital's Rum Source Destroyed

agents. Ten floating distilleries like the one here shown were burned.

Plane for Flight Around World

This is one of the airplanes of the Douglas DT-2 type especially built for the proposed round-the-world flight of United States army air service aviators.

For Economical Transportation

Will Your Family Be Happy This Spring?

If yours is one of the few remaining families lacking an automobile, no doubt you have finally decided to get one within the next four months.

A low-priced modern automobile like the Chevrolet has become indispensable to the family of ordinary income. A million other families can easily prove to you that the better way is with Chevrolet. The beauties of nature, the interesting and educational features of other places and ways of living, remain things to read about or see dimly in cold photographs until you are free to get to them at your convenience and pleasure.

But, suppose you have definitely decided to buy a Chevrolet this spring. This does not necessarily mean you are going to get it. Anyone posted on conditions in the automobile business will tell you that thousands of families are going to be unable to get cars this spring. This has been true almost every spring for the last ten years. There are just two ways of making sure of getting your Chevrolet for use when the flowers and balmy breezes of spring lure you to the country roads—buy it now or order it now.

If you do not want to pay for it in full at this time, any Chevrolet dealer will arrange terms to suit your convenience. You will be surprised to learn how easy it is to pay for a Chevrolet and use it while you are paying for it.

Please realize these statements are made by us in good faith and we mean just what we say about the possible difficulties of getting a car delivered to you this spring if you wait until then to order it. The only way to be sure of a Chevrolet this Spring is to order it NOW.

One of the Things Mr. Royster Discovered About the Feeding of Crops

Cured Fertilizer Has Increased Farmers' Earnings

Haven't you heard about the more thorough and scientific feeding for plants—hastening maturity and helping to grow crops that bring higher prices? Everywhere you find farmers talking about the remarkable results through the use of Royster's Cured Fertilizer.

Why Cured Fertilizer Grows Better Crops

Mr. Royster discovered that by aging or curing fertilizer for four to six months he could increase its value as a plant-food. He found that this curing brought about a certain chemical action which prepared the fertilizer for the use of crops and made food elements available at the very time they are needed.

Why Mr. Royster can Cure his Fertilizer

Naturally it requires vast quantities of material in order to anticipate a season's supply, half a year before it is needed. (This half year representing the aging period). It also requires strong financial resources. Thus;—only a company like Royster's can offer this improved type of fertilizer.

Look for the Name on the Bag.

Don't guess about fertilizer. Look for the name "Royster's" and know that your crops will be well fed—for the sake of greater earnings.

ROYSTER
Field Tested Fertilizers

F. S. ROYSTER GUANO COMPANY
NORFOLK, COLUMBIA, ATLANTA, MONTGOMERY

What Farmers are saying:

"I have used other guano, but Royster's is the best for me."

"I have used no other brand of fertilizer for three years."

Royster's Fertilizers distribute better and retain their fertilizing power longer."

"I used your fertilizer for the past two years and have had the best crops I've had for many a year."

"I shall continue to use Royster's as long as I farm."

"I get better results than I have ever gotten before from use of fertilizer."
