**SOUTHERN RAILWAY SYSTEM**

**Paying Our Share**

North Carolina is spending large sums for schools, highways and other public improvements.

When taxes are fairly levied, and the public moneys are wisely expended for things that raise the general standards of living, good citizens must cheerfully shoulder their share of the burden of taxes.

Southern Railway Company takes pride in being a good citizen of North Carolina and giving a full measure of citizenship. Its properties along 1,200 miles of lines in 47 counties of the State are now assessed for taxation at \$94,000,000, compared with \$44,000,000 ten years ago, and \$24,000,000 twenty years ago.

In the State of North Carolina our tax payments last year amounted to \$1,600,000, an average of \$4,400 a day.

We take satisfaction in thus contributing our share to the general welfare of a State whose prosperity is inseparably linked with our own.

**CROSS DUTY TO AID VETERANS**

Nearly Four Millions in aid to Lessen Burdens of Disabled Soldiers.

63,700 IN HOSPITALS

Case is Given Individual Service—Assists Families of These Men Everywhere.

The need of individual assistance by ex-service men and families from the Red Cross is pressing today as it was immediately after the end of the World War. For six years this work has been the foremost of all Red Cross service, and in emphasizing the steady support of this work the Red Cross National Headquarters urges largest enrollment this year during membership campaign opening Armistice Day, November 11.

Nearly four million dollars of Red Cross funds spent for disabled veterans and their dependents during the year ended June 30 last presents some idea of the magnitude of this work. For the current year, it is estimated, will be still further disbursements of \$1,000,000 for the reason that the Red Cross has through more than 3,500 Chapters in as many communities in the United States, has been called upon to assist the ex-service men in making their applications for the adjusted compensation granted in the so-called "GI Bill."

Red Cross Soldier Cases a Month

The Red Cross work for the disabled soldier is designated "home service" for it gives individual attention to the man and his family approximating the interest and loving care of a home. Such service in the hospital, camps, soldiers' homes and barracks averaged 33,951 cases a month during the year. Assistance to ex-service men and their dependents averaged 58,767 cases a month. In the last six months of the year the Red Cross provided 33,000 recreation and entertainment events in the camps and camps.

The Red Cross, symbolized as "Greatest Mother," still watches over these many thousands of men, helps them, helps to lighten the burden of their physical reconstruction, and their homes lifts some of the burden from their "own people."

Work in Communities Increases

The home service of the Red Cross is the most pressing duty of 2,609 chapters, an increase of 182 communities were problems affected by the veteran's condition required solution through immediate and intelligent assistance. The Chapters alone expended some \$2,000,000 in this service.

The transient disabled soldier, usually suffering from disability or tuberculosis, is almost everywhere a grave burden. From national funds the year 1923-24 \$172,076.36 was expended in helping the Chapters to care for these burdening men.

According to government report there are 4,800 veterans in civilian institutions, and in the national homes of soldiers the complications are increasing. The large groups of patients whose claims have been disallowed, of veterans of foreign wars, and the great number of men permanently resident in these institutions for Red Cross work which cannot be avoided nor denied.

Definite Service to 73,700

Of a total of 84,500 ex-service men in hospitals and other institutions 73,700 were rendered a definite and specialized service by the Red Cross. In a single month 4,185 new cases were presented and a total of 20,125 cases acted upon—figures which serve to illustrate the magnitude of the information and claims service engaged in by the Red Cross workers.

New veteran legislation amended the War Risk Act which extends many additional rights to disabled ex-service men will reopen thousands of cases and require still greater Red Cross service.

When Congress granted a charter to the American Red Cross it charged the organization with the duty to act as the medium of communication between the American people and their Army and Navy. This responsibility to the enlisted men and their families is renewed every year without restriction.

Serves Men on Active Service

The extent of this Red Cross activity during the last year embraced a total of 195,216 cases. There were 14,535 separate soldiers' and sailors' cases; 20,216 investigations of home conditions; 11,421 cases related to discharges, furloughs, etc. Assistance was given in 39,688 instances for personal, business or family problems; 14,150 visits were made to the sick and disabled, and nearly 40,000 letters and telegrams dispatched to the homes of enlisted men.

From June to September at the military training camps the Red Cross provided information and service to the trainees, also in
