**SORE EYES** Dr. Salter's Eye Lotion

relieves and cures sore and inflamed eyes in 30 to 60 hours. Helps the weak eye, cures without pain. Ask your druggist or dealer for SALTER'S. Only from Jefferson Dispensary, P. O. Box 121, Atlanta, Ga.

**IMPORTANT NEWS THE WORLD OVER**

IMPORTANT HAPPENINGS OF THIS AND OTHER NATIONS FOR SEVEN DAYS GIVEN

**THE NEWS OF THE SOUTH**

What is Taking Place in The Southland Will Be Found in Brief Paragraphs

**Foreign—**

Twenty-five thousand holy year pilgrims will see Pope Pius celebrate mass in St. Peter's cathedral in the near future. Afterward the holy father will bless the assembled throng. It has been found impossible for his holiness to receive all the holy year pilgrims in the papal chambers, so that pontifical high mass has been arranged.

Joseph Caillaux has won the preliminary skirmish to force France to accept him as a minister of the government. The chamber of deputies voted confidence in the financial policies of the Painleve cabinet after many hours of debate, much of which had to do with Caillaux's fitness to be minister of finance.

Miss Luella Parker of Birmingham, Ala., secretary to the American high commissioner, Admiral Bristol, was married to Franklin W. Bell of Raleigh, N. C., a director of the Gary Tobacco company, recently in the American embassy at Constantinople.

Captain Yankoff, who is alleged to have been the head of the conspiracy for the bombing of the Sveti Kral cathedral, Sofia, Bulgaria, was later killed by the police. When the officers discovered his hiding place and called upon him to surrender he replied by opening fire upon them and throwing several bombs at them. He was dropped by their return fusillade.

Three labor members of the British parliament who arrived recently in Belgrade, Jugoslavia, from Sofia, Bulgaria, asserted that they were convinced that several hundred people were killed without trial and on the merest presumption after the recent bomb explosion in the cathedral at Sofia.

Edouard Herriot, former prime minister of France, was elected to the coveted presidency of the chamber of deputies in one of the stormiest sessions ever staged by that body. Finally his election was made unanimous, however.

The Soviet Russian government recently made a further concession to the farmers by agreeing to allow them to employ salaried laborers on their farms.

A coroner's jury has returned a verdict of willful murder in the death of Grace Blakaller, the 16-year-old dancing teacher who was found with her throat cut huddled on the steps of her mother's home in London, England, April 11. Ernest Rhodes, 18-year-old German valet, told the police he slashed the girl with a razor during a fit of jealousy.

**Washington—**

By tendering an appointment as minister to Roumania to Vice Chairman W. S. Culbertson of the tariff commission, President Coolidge has taken another step in a series looking toward elimination of inside friction in the various boards and commissions.

Comparison of cost of producing butter in this country and Denmark was recently made by the tariff commission's investigators. The report was attacked as unfair to Denmark in testimony given to the commission by Soren Sorensen, adviser to the Danish legation. The hearings were called to consider the application of American producers for an increase of 50 per cent in the butter tariff.

War on obscene and historically inaccurate movies was urged before the Daughters of the American Revolution in a report from Mrs. Mary E. Newton Baldwin, chairman of the committee on better films.

The cruise of a section of the United States fleet to Australia this summer will be conducted, Secretary Wilbur says, notwithstanding a few scattering protests received from American citizens and organizations.

Representative William A. Oldfield is in a fair way for listing in Washington's super-fan club. Recovering at a local hospital from an illness which necessitated a serious operation, he filed a request that he be kept advised of the score by innings of the "Washington-New York game." The progress of the game was delayed to the hospital ward as fast as it became available.

A dispatch from Manila says that Private William J. Johnson of the 75th ordnance company, was found guilty recently by court-martial and sentenced to be hanged for the murder of Private William Willoughby of the same company on March 16.

The landing detachment of 165 officers and men from the light cruiser Denver has been withdrawn from Cebu, Honduras. Withdrawal was effected and was made possible by the arrival of Honduran government soldiers to reinforce the units at the port.

A renewal of attempts to get a reduction in Fullman surcharges recently was begun before the interstate commerce commission by the International Federation of Commercial Travelers' organizations.

The arrival of the U. S. S. Seattle, flagship of Admiral Robert E. C. Coontz, commander-in-chief of the United States fleet, Honolulu news dispatches recite, has spurred the "black" force commanders to final efforts to make the Island of Oahu impregnable against the attack of the "blue" fleet now approaching Hawaii.

Users of motor vehicle fuel upon which state taxes are levied may deduct these taxes in their federal income returns provided the vehicle is employed for business purposes.

President Coolidge recently continued his exploration into the lighter side of the theater by attending a performance of the Greenwich Village Folies at Poll's theater in Washington the other night.

What is believed to have been a world's record for two-way radio telegraph communication was established the other day between the naval research and experimental laboratory in Washington and Sydney, Australia.

**Domestic—**

New Orleans.—Mortimer M. Elkan of Macon, Ga., nationally known civil engineer, died at the home of his father here recently after an illness of several weeks. He was noted as an authority on bridge construction.

Marcus J. Parrott, member of the New York cotton exchange for forty years, and one of the best known men in the cotton trade in New York, died of pneumonia the other day at his apartment in the Touraine.

Bank robbery insurance has been raised from 50 to 150 per cent in Missouri, Kansas, Oklahoma, Illinois and Michigan. It is announced at Kansas City, Mo., insurance offices.

The defense of Senator Burton K. Wheeler was begun at Great Falls, Mont., with the introduction of testimony intended to clear him of a charge of appearing illegally before the department of the interior.

Admission to hall of D. C. Stephenson, Earl Klinek and Earl Gentry, the trio held on a charge of first degree murder in connection with the death one week ago of Miss Madge Oberholzer, of Indianapolis, Ind., was asked in a petition filed by their attorney. Judge Collins said he would hear the petition later.

Police Captain Charles Hemard, a principal in the "frame-up" row which has shaken New Orleans' police department for several weeks, and who was to have gone to trial with Chief of Detectives Healy and other officers, was found in the bathroom of his home by his wife with a bullet in his temple, believed to have been self-inflicted.

The Rt. Rev. William Montgomery Brown, of Gallion, Ohio, former bishop of Dallas of the Protestant Episcopal church, recently convicted of heresy by two ecclesiastical trial courts, recently delivered the address which Bishop William T. Manning of the Diocese of New York forbade him to give at St. Marks-on-the-Bouwerie. He spoke at the non-denominational Community church in New York City, and admitted that he was undoubtedly a heretic when judged by theological standards.

Henry Ford and the Dearborn Publishing company, of which he is the owner, were named defendants in a million dollar libel suit the other day at Detroit by Aaron Sapiro, of cooperative marketing fame.

The body of Floyd Collins, cave explorer, who died from hunger and exposure when trapped in San Cave late in January, has been freed from its natural underground prison and moved from beneath the rock that plucked it to the bottom of the 70-foot shaft, W. H. Hunt, Central City, Ky., engineer informs the press.

Five persons, including Marjorie Rameau, the actress, were overcome by fumes and 200 more were marooned in a large Times square office building, New York City, when an ammonia pipe burst in the basement.

In four years the bureau of the budget has pruned from executive estimates a total of \$1,203,771,929, Brig. Gen. H. M. Lord, director of the national budget, announced in a recent address to the Chicago Association of Commerce.

Putting the entire story of his connection with Gordon Campbell, Montana oil operator, in the hands of the jury that will decide whether or not he wrongfully used his influence before a government department, Senator Burton K. Wheeler, on his own behalf, admitted that he had discussed one oil land permit with the department of the interior officials.

The nationally-famous Salt Air resort on the shore of the Great Salt Lake, 20 miles west of Salt Lake City, was recently gutted by fire and the damage is estimated at a million dollars. The resort was famous because in its waters it was impossible for bathers to sink.

Frank Brittain of Kansas City, Mo., was recently nominated as governor of the fifteenth district of the Rotary International.

An organized effort, it is announced, is already under way to have the federal government take over the Bankhead National highway as a military necessity. This highway traverses thirteen Southern states.

In recognition of his twenty-five years' service as president of the Associated Press or since the organization was founded in its present form, Frank B. Noyes of the Washington Star was honored signally at the annual meeting and luncheon in New York City.

W. T. Evans of Jonesboro, Ga., after a telephone conversation with Norfolk, Va., said he was convinced the young suicide victim whose body was found on the sand dunes at Virginia Beach was his son, Alfred Roger Evans.

Elizabeth M. King, 19, was sentenced to ten years in state prison following conviction in circuit court at Rockville, Md., on charges of manslaughter in connection with the death of her two children.

Properties of the Norfolk and Western and the Virginian railway properties, representing combined assets of about five hundred and fifty million dollars, will be united for future operation and development, under a lease agreement approved by directors of the two roads at a meeting in New York City.

**The Kitchen Cabinet**

If life were all fair weather As the fleeting days go by, We should never know the beauty Of the rainbow in the sky.

**THE PICNIC SEASON**

As the lovely spring days call us into the open, we return to our cook books to refresh our memory on good things to take on an outing. For many of us a few good sandwiches and fresh fruit, with a cool or hot drink, comprise a meal most satisfying and little trouble to get ready. The following are a few to add to the cherished list:

**Cream of Chicken Sandwiches.**—Take sufficient white meat of chicken to make half a cupful, chop and pound to a paste. Put a teaspoonful of gelatin to soak in two tablespoonfuls of water and stand over heat until dissolved. Whip one cupful of cream until stiff, add a teaspoonful of grated horseradish and half a teaspoonful of salt to the chicken and gelatin. Stir until it begins to thicken, then add the cream and let stand until cold. Butter bread, cutting the slices a little thicker than usual. Trim off the crusts and cut into triangles. Cover each piece with the cream mixture, garnish the top with slices of stuffed olives, minced parsley, pipings of cream, mounds of chopped capers and olives and celery finely minced. A platter of these open sandwiches cut into various shapes decorated with minced green and red peppers, may be most attractive and decorative.

**Deviled Sandwiches.**—Chop a quarter of a pound of cold boiled tongue very fine; add to it two tablespoonfuls of olive oil, a dash of red pepper, a teaspoonful of Worcestershire sauce, a few dashes of paprika and salt to season. Mix and add the hard-cooked yolks of three eggs which have been put through a ricer. Spread on buttered bread, cover with another buttered slice and garnish with water cress.

**Cucumber Sandwiches.**—Spread bread with butter and cut the slices one-half inch thick. Cover each slice with seasoned sliced cucumbers, then cover with finely shredded lettuce; on this place a slice of thin white meat of chicken, cover with lettuce and a slice of buttered bread. Trim into shape and serve at once.

**Clubhouse Sandwiches.**—These are usually made of freshly-toasted bread. Put on a well-buttered slice of toast a thin layer of hulled ham; on that a thin slice of pickle; on top of that a thin slice of turkey or chicken, then a leaf of lettuce with a spoonful of mayonnaise. Cover with another slice of buttered toast and cut into triangles to serve.

**Summer Desserts.**

There is no dessert more popular than some form of frozen dish.

**Strawberry Sherbet.**—Take two cupfuls of strawberry pulp, made by mashing the fresh berries. Boil one and one-half cupfuls of sugar and two cupfuls of water for ten minutes. Soften a half teaspoonful of gelatin in two tablespoonfuls of cold water and add to the hot sirup. Add the juice of half a lemon and one-half cupful of orange juice to the strawberry mixture; add the sirup when cool and freeze. When the mixture is partly frozen add a well-beaten egg white with two tablespoonfuls of sugar; continue freezing. Raspberry juice strained from the seeds is especially delicious for this sherbet.

**Raspberry Bombe Glace.**—Line a three-pint melon mold with raspberry ice. Fill the center with sweetened, flavored whipped cream. Pack in ice and salt and let stand for three to four hours.

**Apricot Cream Sherbet.**—Measure two cupfuls of canned apricots, put through a potato ricer, add three-fourths of a cupful of sugar, and let stand three hours. Fold in one cupful of whipped cream and freeze.

**Raspberry Ice.**—Take four cupfuls of water, two cupfuls of sugar and boil six minutes. Cool; add one and one-fourth cupfuls of raspberry juice and the juice of half a lemon. Freeze as usual.

**Pineapple Cream Sherbet.**—Take two cupfuls of grated fresh pineapple, cover with sugar, using a cupful; let stand three hours, fold in one cupful of cream, whipped stiff, and freeze.

**Panama Sherbet.**—To one and one-half cupfuls of sugar add one cupful of water, boil five minutes and cool. Put six medium-sized bananas through a ricer; add two cupfuls of orange juice and two tablespoonfuls of lemon juice; add to the sugar sirup and pour into the freezer. When partly frozen add the beaten white of an egg and two tablespoonfuls of sugar; mix well and finish freezing.

Oranges served in some form when quick, goose, turkey or pork form the main dish, as well as rich puddings and nuts, will be found very desirable.

**Nellie Maxwell**

**Tide Machine**

An instrument has been installed at Bidston observatory, Birkenhead, England, which predicts tides in any part of the world up to 50 years ahead, and within a margin of half an hour can state what tides prevailed at particular places 500 years ago.

**Sensitive Instrument**

The noise of atoms moving about in a piece of iron, stirred up with a magnet, has been detected by sensitive amplifiers.

**ROAD BUILDING**

BETTER ROADS NOW FOLLOW MOTOR CAR

Automobiles led to construction of the network of good roads which weave their way through all parts of the country, but "bad" roads aided materially in development of the American type of motor car to its present supremacy over European cars.

The natural assumption would be that ownership of motor cars in any given section would follow the construction of good highways, but experience proves that the car comes first and good roads follow, inevitably. In other words, the motor car proves its need and desirability even on the worst roads. The owner comes to realize the advantages of good roads, and he soon stirs himself to see that they are built.

Illinois is a good example of this. Its roads were among the worst in the country until the advent of the automobile changed sentiment which fought improved highways. Farmers were at first unalterably opposed to spending money for better roads. But they began to use automobiles. Then they changed their minds. Today Illinois is a leader in the good roads movement.

Meanwhile, bad roads were serving a good purpose. Had it not been for them in the early days of the motor industry it is probable that American designers would have copied European manufacturers, who built their cars at prohibitive cost for use only on European boulevards.

With our "bad" roads, we had to build our cars for rough going. We had to allow enough clearance to get over rocks, stumps and hummocks. We were compelled to devise springs that would carry passengers in comfort even on rough avenues of traffic.

Our cars had to have more power so that they could negotiate hills and mountain grades on "high." European cars carry four or five shifts, and in order to get up even a low grade, it is necessary to use nearly all of them. If we had had our present splendid system of highways, it is very probable that we would still be building the European type of car. This would mean they would have to be built at a much heavier cost than now. And instead of being for universal use, as they are, cars would be limited to the use of a small class of wealthy citizens.

**Canadian Highway From Coast to Coast Planned**

A new and vast playground, called more beautiful by many than the most beautiful sections of the Swiss Alps, may be opened to American motorists as a result of the hazardous path-finding trip which Austin F. Bement, secretary of the Lincoln Highway association, made across Canada.

Bement's trip, the first ever made across the Dominion in an automobile, was widely heralded. For 63 miles of the distance he drove his official car over the ties of the Canadian National railroad. This was through the Fraser River canyon between Lytton and Hope, B. C., a section of the proposed transcontinental route which no automobile ever before had been able to negotiate. Seventeen tunnels and 150 trestles, some of them hundreds of feet above the roaring Fraser river, had to be negotiated. It was the most severe test for man and car through which any motorist ever passed successfully.

Bement proved that a way could be won by motor car through the passes of the Sierras which previously had been considered impassable to motorists. Following his record-breaking trip, the Canadian Northwest has awakened to the possibilities for development of the country through roads that will invite American tourists.

**Blooming Sweetness on Highways Now Planned**

Practical enough appears the St. Louis resident's objection to planting trees all along the state highways. He says, "It's had enough to run into the ditch, let alone hitting a tree." The trees will not be planted; and experienced motorists will breathe easier.

Still, the highways can be beautified. Safety first, no trees; but rose bushes are not perilous. We believe it is North Carolina that has projected the plan to border its highways with blooming sweetness, says the St. Louis Globe-Deocrat. The sweetchrier once set out takes care of itself. It is a low grower and spreads its pink blossoms over the roadside for at least a month or two.

Along the Missouri valley it seems to be more plentiful than anywhere else, and grows in wild profusion by the railroad embankments.

But the blooming of highways needn't be confined to rose bushes. Wild flowers can be sown like wheat and the motorist be thus greeted for miles with gales of nature's perfume.

**Building "Throughways"**

Virginia has made progress in constructing "throughways" for the encouragement of automobile traffic, and now proposes to expand the through-way principle that places of historic interest may be accessible. The state is dotted with places in which all Americans are interested or would become interested were those places called to their attention and could they be reached by good roads. Farmers living along the highways would be benefited.

**Easiest Tax to Collect**

Tax authorities claim that the gasoline tax is one of the easiest taxes to collect. The state board of equalization of California, which administers the gasoline tax law in that state, estimates the cost of collection has been only a small fraction of one per cent of the amount collected. Indiana reports that the state collected a total tax of slightly more than \$4,500,000 at a cost of approximately one-tenth of one per cent.

**BAYER** Genuine **ASPIRIN**

SAY "BAYER ASPIRIN" and INSIST

Proved safe by millions and prescribed by physicians

Headache Neuralgia Colds  
Pain Toothache Neuritis

**Safe**

Accept only Bayer Aspirin which comes in Handy "Bayer" Tablets. Also bottles of 100.

**Pocket Screwdriver**

An inventor has designed a folding screwdriver that can be carried in the pocket with one's knife. Three blades of different sizes lock and open separately, giving the compact tool a wide range of usefulness. When the blades are not in use, they are locked tight in the handle.

**Fresh Strawberry Shortcake.**

Sift 4 cups of flour in large mixing bowl; add 4 teaspoons Calumet Baking Powder and 2 teaspoons butter, pinch salt, two eggs and enough milk to make a soft dough. Place the dough in layer cake pan and bake in hot oven for 20 minutes. Cool and split in 2 layers. Spread 3 tablespoons butter between the layers and let cool. Cut cake in desired size and pour fresh strawberries over cake. Serve with whipped cream.

**Record Beauty Parlor**

New York city claims to have the largest beauty parlor in the world. It occupies the entire floor of a half-block building and it cost about \$500,000 to fit it out. It is possible for a patron to spend \$114 at one sitting.

Granulated eyelids, sties, inflamed eyes relieved overnight by Roman Eye Balsam. One trial convinces. 372 Pearl St., N. Y. Adv.

**Riches Defined**

Riches do not consist in having more gold and silver, but in having more in proportion than our neighbors.—Locke.

**A Lady of Distinction**

Is recognized by the delicate, fascinating influence of the perfume she uses. A bath with Cuticura Soap and hot water to thoroughly cleanse the pores followed by a dusting with Cuticura Talcum powder usually means a clear, sweet, healthy skin.—Advertisement.

**Great Idea**

It is odd no one has ever thought to devise a lawn sprayer embodying the principle of the grape fruit.—Detroit News.

**Children Cry for Fletcher's CASTORIA**

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. J. C. Ayer*. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

**Break Your Chains of Misery**

Rheumatism, lumbago, kidney trouble and other ailments are like chains and shackles that hang you down. They destroy your wage-earning power, keep you feeble and act years' older than you really are. They keep you in misery. And these ailments grow worse. They finally become dangerous.

Yet you can break these chains of misery. Remember that these ills are caused by impure blood—blood that does not contain enough iron. Without iron, your blood cannot throw out of your body. Instead, it keeps on gathering and circulating these poisons through your system. This is why you should begin at once to take A-I-M Mineral. This amazing iron tonic is Nature's product. Physicians and scientists have been unable to duplicate it. Unlike any other mineral, it is quickly absorbed into your blood, and gives it strength to throw off impurities which cause your bad health. It is positively guaranteed.

Get a bottle from your druggist today. With it, ask for a box of A. I. M. pills.

**A-I-M Percolating Corp.**  
SALEM, VIRGINIA
