

CHAMBERS OF COMMERCE

The Christian spirit with its reforming power must be breathed into the business life of the country by Christian men. Jesus Christ must be given a place in the chambers of commerce. Men in business must be made conscious of His sovereign right to enter and inspect the business life of the country. He is not indifferent to our business woes, our personal problems or our social sorrows. He is not so far away that He has neither interest nor influence. He is living. He is the aggressive power working for righteousness in the life of every Christian business man. He demands personal righteousness—the righteousness of personality of character and of conduct.

It is impossible to build a commercial organization on a permanent foundation without Jesus Christ. The time has come for business men to recognize the fact that they must glorify God in the making of money. Business, the making of money and the transaction of the common affairs of life must be acts of worship, performed with an eye single to the glory of God.

The chamber of commerce is not the temple of mammon. It should be the seat of operations of Christian men, who fear God, and whose acts will square with His standard of righteousness. Under these conditions trade will become holy commerce, receiving the benedictions of God.

Men have been trying to run business under the dictation of politics, by the rule of Congress, rather than by the dictation of the Holy Ghost and by the rule of conscience enlightened by Jesus Christ. We need more conscience and less Congress; we need more Christ and less mammon in business.

The spiritual powers have developed America, not the material forces.

Mammon worship leads to death. Christ gives life, and progress and happiness.

The school at Sunny View closed last Tuesday. The children certainly told the people what the teachers were at our school. A bright crowd of children with a real school teachers is what we had this past six months at Sunny View. We wish to thank all the people for the nice behavior. Hurrah for Sunny View and Prof. Cobb, too.

We are the people, and he is the man We're going to have a better school if we can—and we can.

Just a few more days 'til we'll all sing praise.

New wealth is being created in Tryon

The Development of Lake Lanier is bringing into this community thousands of dollars daily. Soon there will be more than 100 Tryon sales ambassadors at work, each a man of integrity, each a man of opportunity, each energetically engaged in the task of selling Tryon and Lake Lanier to the outside world. These men of sales will produce results. Indeed, the sales to date are surprising to persons who have not heretofore kept their eyes on developments of this character. It is not too much to say that Lake Lanier will be the most popular real estate project of Carolina's mountains fostered in the past 10 years. Last Sunday, for example, more than 500 automobiles filled with people visited the property. The pouring of concrete on the dam began this week. This work will be hurried, night shifts having been arranged for. Everything is progressing most satisfactory. New offices have been opened, one at Hendersonville, one at Union and one at Greenville.
