#### **COLUMBUS CANNERY** TO OPEN SOON SAYS F. W. BLANTON

According to Fred W. Blanton. President of the Blue Ridge Canning Company of Columbus, the packing plant will be ready for operation in time to handle the fruit and vegetable pack for the county.

Delayed in starting last year the canning plant handled a large volume of business, and this season it is expected to be in opperation as soon as fruit and vegetables are obtainable in sufficient quantity to justify operation.

The plant is particularly adapted to the economical packing of string beans and tomatoes and farmers of Polk County are requested to make arrangements with the management for handling their crops this year as it is believed that the packing will save the grower money and keep the plant running.

r a friend gave you a letter of introduction already sealed, you would think her either rude or ill-bred. Such a letter is always sealed by the recip-

ient, in the writer's presence. But if you wrote such a letter on cheap, shoddy paper, or used a misfit envelope, wouldn't your friend think the same of you? Undoubtedly-and rightly.

The letter paper you use for all occasions should reflect your good taste. You can be sure that it does if you use

## Robinson Crusoe Advertised!

Robinson Crusoe was stranded-and sick of it! Only his man Friday and a goat and a parrot for companionship! He wanted to get off the island, and to do this, he knew he must communicate with people who might pass, afar off, in ships. So he did what any man does who want to reach people-He advertised!

True, he had only a ragged shirt with which to do his advertising, but he stuck it on a pole, secured the pole in the ground and waited-for days! Didn't get discouraged at the first days of failure, you see. No good advertiser does!

And finally-he got results!

If Robinson Crusoe, with one old shirt, could accomplish his purpose, could reach the folks he sought, what do you think you could do with the infinite advertising possibilities offered you?

Artistic type at your disposal-skillful printers to set it into whatever message you choose—and the folks you want to reach all near at hand?

Doesn't it stand to reason you'd get results, too?
