OF course every bride looks forward to a lovely home of her own. To have a comfortable and attractive one is her utmost desire. A happy home is man's dearest possession, too. The thought of home comfort follows him all through the day time working hours, cheering and encouraging.

The new home needn't be luxurious or expensive to be comfortable, artistic and hospitable, if one plans and selects correctly. Ample time given to the choosing of good furniture is well repaid, because furniture is a life-time possession. There is permanent value in sound quality, and permanent beauty in good design--both are to be found in all the furniture we sell.

MILLIONS WILL BE SPENT BY MOTOR-TOURISTS DURING SUMMER MONTHS

Tourist Camps Necessity In Polk County Towns If We Get Our Share of Vast Expenditure of Cash.

Tourist will be out in full force this summer and every town in Polk County could well afford to maintain a tourist camp for the accommodation of motor-tourists.

The installation of water lines, electric lights, and clearing of suitable space for the erection of tents is a prime requisite.

Asheville has one of the finest camps in this section and it has paid interest on the investment. Hendersonville recently opened such a camp. Towns all over the country are doing this and Tryon, Saluda and Columbus should follow suit.

The magnitude of the sun spent annually by motorists is staggering. Thomas P. Henry, President of the American Automobile Association says:

"A nation wide survey of the touring possibilities of the 1925 season indicates that the swelling tide of long distance automobile touring will reach unprecedented proportions this year, according to a forecast issued by the American Automobile Association. The 1925 crop of motor tourists will be worth \$2,500,000,000 to the thousand and one communities located along the playgrounds of the nation, and along the highways and trails leading to the centers of motor tourist traffic.

The figures used in the forecast are conservative, and are based on data supplied by pivotal sections of the country where the business of catering to motor tourist traffic has been placed on a dependable basis. The demand for touring information and facilities and the preparation already made for the season all go to indicate that previous records will be broken. Florida's harvest of tourist gold is estimated at \$500,000,000; California is making preparation for a million motor tourist this season,

with also a half million dollars as its goal; the northwest, with Colorado as the gateway of the region, will run a close second to them.

The above statement from the president of the American Automobile Association, indicates the amount of money the automobile tourist will spend along The Trail Highways during the present year. There are 17 1/2 million automobiles in the United States and the majority of the owners of these cars plan a tour sometime during the year.

Will Polk County do anything to get its share of this money?

Poem by Uncle John

If our folks moved to Paradise with nothin' much to do, they'd wiggle, waggle, fuss an' squirm to start up somethin' new; It seems that satisfaction has about forsook our race, — we try to act new-fangled, every time we wash our face. We've got to have "progressiveness" in church as well as state — I know a fool that's tryin' to fetch the Bible up to date!

Bill Jiggers bought himself a watch, in town the other day, she must-a been a good one for the price he had to pay—but Bill kept foolin' with it — he was sure she needed grease — her carburetor flooded,—at last she rests in peace! There's many a good thing ruined by an over-zealous botch, and put clean out of business, same as Billy Jiggers watch.

The shortest route to misery, experience proves to me—is to monkey with conditions that's as good as they can be.

JAMES VERNOR, Sr. HONORED BY CITY HE HAS HELPED BUILD

Detroit Names Highway in Honor of Pioneer Druggist. Father of Well Known Tryonite.

James Vernor, Jr. of Detroit has long been a part-time resident of Tryon, Mrs. Vernor spending the larger portion of the year at their handsome country place in the Pacolet Valley.

A recent editorial in the Detroit Free-Press regarding the naming of the Vernor Highway in honor of Mr. Vernor's father will doubtless prove of interest to the friends of the family in Polk County.

A gracious tribute to a man who deserves well of Detroit was paid by the Common Council when it voted to rechristen the Dix-High-Waterloo thoroughfare. Vernor Highway, in honor of James Vernor.

Mr. Vernor is an integral part of Detroit. He helped the city grow. After three years service in the Civil War he returned to Detroit and pioneered in the City's development. He established a drug store at Woodward avenue and Clifford street, a daring venture in those days, and for four years, he says the business hardly paid expenses.

When he was 46 years old he was elected alderman from the Second ward, running "because sewage facilities in Woodward avenue were in-

adequate." As alderman he succeeded in having them made adequate. That was characteristic of his public career.

To Detroiters of this generation, Mr. Vernor is probably best known for his devotion to the cause of public ownership of the street railways. He opposed every move of the Board of R. which then owned Detroit's railway system, to gain new franchises.

It is a good thing for a municipal ty sometimes to honor its faithful sons during their lives.
