THE SOUTHERN SERVES THE SOUTH

Railroad service that profits all of us

On the Southern Railway System last year we hauled seven million tons of farm products. We carried back to the farms a great volume of things that the farmer gets in exchange for his products.

This is a big part of the day's work of our 8,000 miles of lines, stretching across the South from the Potomacto the Mississippi.

Farm prosperity means prosperity for us. To give the best service, at rates which will enable our shippers to sell their products in the markets at a good profit, and which will enable us to make a fair profit, too, is a fundamental policy of the Southern Railway System.

Did you ever stop to think how much better service the Southern has given you in recent years since it was relieved from financial starvation? That is part of your share in our prosperity.
