**THE ELECTRIC POWER AGE.
AN OLD MAID'S MONEY.
WHO IS RESPONSIBLE?
THE HORSE WITH CLAWS.**

The State of Washington plans gigantic water power development, banks in Seattle reflect general prosperity in the Northwest. These Seattle banks will need bigger vaults and capitalization increased by a billion, when the power begins its work.

Maine will harness 700,000 horse-power in the Bay of Fundy. The plan approved by voters and scientific experts calls for one hundred millions. Power enough will be produced to supply the whole of New England, and ten times one hundred million would not equal the value of such power.

In waterpower and the electric force generated lies not the hope, but the CERTAINTY of prosperity beyond imagination.

London is agitated because the great art collection of Lord Leverhulme, successful soap maker, is to be sold in New York City, not in London.

This is said to mean that the art centre of the world has moved from London to New York, but that isn't so.

The MONEY centre has moved, and in 1925, as in the days of the Medici, art goes where money is.

"How can I succeed?" is answered by Judge Gary thus:

"LISTEN. Let the other man do at least half the talking."
Judge Gary, of course, puts honesty ahead of all other qualities. And honesty is important, although Judge Gary knows more enterprisers have been wrecked by honest fools than by dishonest knaves.

"The average man likes to let himself talk too much," says Judge Gary. Salesmen should remember that. Thousands of them talk themselves INTO a sale, then talk themselves OUT again. When you meet a customer remember the advice of Aristotle, who was the Judge Gary of his day. "Not too much, NOT TOO LITTLE."

A poor old maid of Massachusetts, called "poor," not because she was an old maid, but because she spent fifty-six years in the insane asylum, has just died. While she was in the asylum her small fortune increased to \$2,000,000, to be divided now among seven nieces. "Money runs into money" rapidly in this country, if you give it any sort of an opportunity.

Evidence at the Shenandoah investigation shows that Commander Lansdowne, who understood flying, protested against taking his ship through the storm belt of the Middle West, and asked for a postponement.

Those knowing nothing about flying, but unfortunately controlling aviation in the United States, ordered him to go, in order to "impress certain State fairs on the way." Because his advice was not taken, Lansdowne was killed.

Who is RESPONSIBLE for his death? And how good a suit for damages have his widow and the other Shenandoah widows against those that sent their husbands to death?

Lyceum Course will be given at the High School auditorium in Landrum. It will consist of musical numbers by the celebrated Grosjean Marimba-Xylophone Trio, aided by saxophone, banjo, piano and clarinet. A cordial invitation to attend is extended to Tryon music lovers.

Mr. and Mrs. Burton arrived this week from Columbus Ga., and will make their home in Tryon where Mr. Burton has taken the position of superintendent of the Southern Mercantile Company. They are for the present located at Livingston Hotel, but will make other arrangements later on.

Mrs. J. B. Hester was hostess last Monday afternoon at a pleasant afternoon session of the Ladies' Aid of the Baptist church.

Miss Bessie Winton has returned to her home in Chattanooga after an extended visit in Tryon with Mrs. W. C. Ward.

C. A. Byles of Chattanooga spent several days this week in Tryon a guest in the W. C. Ward home.

M. D. Durbin arrived in Tryon last Friday night from Adamsville, Tenn. and will have charge of the local telephone exchange. The Durbin family will make their home in the residence where the switch board is located.

C. A. Lightner and family arrived the latter part of last week to spend the winter.

LYNN NOW HAS A
NEW ENTERPRISE

Near Knitting Company Operating in Manufacture of Fine Hose for Men, Women, and Children. S. M. Robinson, of Lowell, Pres.

While the Wear Knitting Company has been in operation for the past thirty days, it will be news to the greater part of the population of Tryon and Polk County, for it has been conducted very quietly pending incorporation. While the incorporation papers have not been fully completed, the personnel of the new concern is assured. Mr. S. M. Robinson, of Lowell, who was formerly connected with the Tryon Hosiery Company will be president, and Mr. J. B. Carpenter of Landrum, formerly with the Blue Ridge Mills of that place, will be general manager, secretary and treasurer.

The products manufactured by the Wear Knitting Company will consist principally of men's half-hose, cotton, silk, and full mercurized. There will also be a limited number of ladies and children's hose manufactured, in similar grades. Other developments of a much larger scope are planned for the future, and with such an experienced operator as Mr. Carpenter in charge, the future of this new enterprise for Polk county and for Lynn, seems assured.
