BOY SCOUTS COMING FROM ALL OVER STATE

Camp Located At Lake Lanier Hundreds Will Camp Here This Summer

Lake Lanier will soon be alive with the shouts and laughter of Boy Scouts from all over Western North Carolina. The first group will reach here July 5th from Cliffs, to be followed by a second group from Spindale, and another from Bostic. There will also be groups from Cherryville, Gastonia, Cramerton, Lincolnton, Forest City, as well as our own boys from Tryon. And others are expected from King's Mountain and Shelly.

Already eight patrol cabins have been built and are ready for occupancy, and another patrol cabin will probably be erected to care for the boys.

This will bring to Tryon not only an exceptionally fine lot of boys, but the parents and friends of the boys will visit them while they are here.

Mr. R. M. Schiele and his wife, who will have charge of the camp, are already at Lake Lanier.

The camp will occupy the same location as last year, but the area has been considerably enlarged.

The program at the camp will consist of drills and hikes, also swimming, life saving, rifle marksmanship, archery, for which purpose the boys make their own bows and arrows. The program also includes forestry and nature study. There is also being equipped a craftsmanships lodge with forges for metal work, also benches for wood carving and leather work.

The camp fire program will include games, songs and stunts, and for recreation baseball, tennis and other games.

The camp will also be equipped with three 25-foot Indian war canoes. The camp will continue until September 1, and will bring to Tryon many visitors, friends of the boys, besides their parents.

The beneficial results of these camps upon the boys of the state cannot be overestimated. The moral influence, the discipline, the training and habits to which they must conform, as well as the healthy recreation and wholesome outdoor amusement under proper direction, will help to mould character and give the boys a respect for law and obedience. The Boy Scout camp should have the support and encouragement of all citizens.

NEW SUB-DIVISION BE STARTED AT ONCE

Thermal Views is the name of a new sub-division to begin operations at once. The new development is owned by Messrs. Blanton & Greene of Columbus, N. C. The work of dividing the tract into residential lots will be started at once, and an announcement in this paper of future plans will appear shortly.

The tract contains about 24 acres and two good dwellings are located on the property. Lights, streets and water will be available. This lovely property is located only one mile from Tryon and will appeal to both people of Tryon and Columbus. The development overlooks the Thermal Hills development facing Hog Back, Warrior an Tryon peaks, nestled in the picturesque Blue Ridge Mountains. One hundred and fifty lots will be offered for sale at a later date, and the owners predict great things for this new residential colony.

THE VOICE OF THE LIBERTY BELL

This is one of the two new official posters of the Sesqui-Centennial International Exposition, opening in Philadelphia June 1 to celebrate 150 years of American Independence. The Exposition will continue to December 1. Dan Smith, the artist, has symbolized the epoch in history which the tolling of the Liberty Bell in Independence Hall, July 4, 1776, marked and has depicted the growth of the United States from the original thirteen states, represented by the thirteen stars which emerge from the mouth of the Liberty Bell.

LAKE LANIER STOCKED WITH FISH COUNTY COMMISSIONERS LEAVE TODAY FOR HEN'VILLE

Clear Waters of Lake Lanier Will Be Great for Bass Fishing.

Sportsmen whose particular pleasure it is to lure the wily bass from its natural element will be elated to know that 25,000 game fish of that species have found a home in the waters of Lake Lanier. The fish, both fingerlings and fry, came from the government hatcheries at Rawlin, Tenn., and were liberated from their traveling tanks with much ceremony by J. A. Beswarick, superintendent of the property, and a group of interested persons who had gathered at the mouth of the many mountain streams that feed the lake. "Here's where you begin your sporting life, young fellows," announced Mr. Beswarick as he tilted one of the big containers and slowly poured several thousand young bass into the clear waters of the lake.

Angling experts of local fame declare that the deep channels connecting the three basins that form Lake Lanier are just what this king of fresh water game fish likes for a home, and that the shallows and gravelly shores at many points about the lake are ideal spawning grounds.

Vaughn's Creek, which runs its twelve mile course from its source between Hog Back and Rocky Spur mountains and is the main course of supply for the chain of lakes, has already furnished its quota of piscatorial life. Many rainbow trout and horny heads have been taken from the first basin within the last few weeks by local fishermen.

Work on the new dam is progressing so rapidly that the engineers last week closed the flood gates under the original concrete structure so as to permit the waters to rise as the dam is built up.

The pouring of concrete for the new spillway at the western end of the dam began last week, and the great hill of earth that will enclose the original structure is being built up on both sides of it at the rate of six hundred cubic yards a day. This rate will be doubled when next week a night and day shift of workmen will be put on so that the 55,000 cubic yards of earth composing the new dam will all be in by the middle of August. The engineers plan by this method to have the water back in all three basins by that time.

REPUBLICANS ORGANIZING TO ELECT CONGRESSMAN

The organization of the Republican party for the election of a congressman from this district has been perfected by the announcement of Captain Kenneth Smathers, the Republican nominee, in which he named Hon. Geo. M. Prichard as campaign manager and chairman of the Congressional Executive Committee. Mr. Prichard is widely known throughout the district, as he has been a leader in the party for a number of years. He is an Asheville attorney, and at one time was solicitor. He is the son of the late Senator and Judge Jeter C. Prichard, who for many years was a dominating factor in politics in this state.

Along with the announcement that Mr. Prichard would be general campaign manager, Captain Smathers announced that McKinley Edwards of Bryson City, J. Ed. Kanipe of Asheville and former State Senator, and Judge Walter Chambers of Marion would be assistant campaign managers. It is understood that central headquarters will be established in Asheville with Mr. Kanipe in charge. Headquarters for territory west of the Balsam Mountain will be managed by Mr. McKinley Edwards with headquarters at Bryson City. Mr. Chambers with headquarters at Marion will have charge of counties east of the Blue Ridge.

BLANTON AND GREENE STAGE SUCCESSFUL SALE OF DENTON SPRING LOTS

Blanton & Greene of Columbus, N. C., were very successful in the sale of the lots in Denton Spring Park last Thursday. A total of eighty lots were sold, and nearly every sale was to one of town buyers, showing the faith of outsiders in this section of the country.

The sale was a success from every point of view and, in spite of the threatening weather, a record crowd was on hand. The Pinnix Land Company of Brevard and Gastonia, N. C., had charge of the sale and conducted it in a most satisfactory manner to the owners of the property.

NEWS EDITOR FOR THE POLK COUNTY NEWS

Miss Marguerite Dawson of Due West, S. C., has accepted a position with the Polk County News. Miss Dawson will have charge of the office and also become associate editor. Miss Dawson comes to this position very highly recommended, having held several important positions in South Carolina before coming to Tryon. This new addition to the present staff of the News will enable us to present our readers with more news so as to keep you thoroughly posted with the happenings of this section.

CHEVROLET AGENCY IN TRYON CHANGES HANDS

The Chevrolet Agency in Tryon has been taken over by F. A. Brock of Spartanburg, S. C. The new concern purchased the entire business, including the building. The new firm will take charge immediately, keeping a full line of supplies and maintaining a general service department to serve the customers.

Prominent Green's Creek Wedding.

Miss Shirley Branscombe and Mr. Joe McDowell were married at Hendersonville Thursday afternoon, Rev. J. J. Slattery performing the wedding ceremony. They then spent a few days at Asheville and Mt. Mitchell, returning Sunday afternoon. Mr. and Mrs. McDowell are well known here, being "our own" young people, reared in this community, and we extend to them our best wishes and congratulations. They will make their home in Hendersonville.

Tom Tarheel says the time lost in attending a farmers' meeting has been worth over a thousand dollars to him in new ideas.

Mr. Roy Nichols, who has been engaged in the real estate business in Asheville, is now connected with the Thermal Belt Development Company in the sales department.

Inspection of Motor Buses At Raleigh

Raleigh, N. C., June 21.—The semi-annual inspection of motor busses engaged in passenger traffic on the state highways is being conducted by the motor vehicle department of the corporation commission. This includes an inspection of brakes, motors, steering gear, tires, axles; in fact, a thorough inspection of all pertaining to the comfort of the passengers as well as the interior equipment. Licenses of all drivers are also being inspected.

"Not a thing is overlooked that pertains to the safety or comfort of the traveling public," said Rotis Self, secretary of the commission and head of the motor vehicle department.

It was pointed out that at present there are 522 licensed motor carriers doing business over the highways of the state, probably as large, if not a larger number, than in any other state. Of this number, 210 are large passenger busses, carrying anywhere from 16 to 30 passengers each; 299 are Sedans or touring cars in regular bus service, on roads where the business does not warrant a large bus, and 83 are trucks, doing passenger and freight service. Attention was called to the fact that six years ago there were not more than six large passenger busses in the entire state.

The combined mileage of these busses is estimated at 95,000 miles a day, and the combined equipment represents an investment of \$3,000,000. The operators of these bus lines spend \$53,190 annually for the maintenance of union bus stations, which are required by the state.

The bus owners at first were opposed to the union terminal idea, but now have been completely satisfied with the idea. North Carolina is the only state that requires these union terminals.

The estimated income from the bus lines in North Carolina is \$295,000 a month, and the business is growing every month.

CHINESE BAN ON FREE THOUGHT IS MOST STRINGENT

Peking, June 22.—A "persecution of education" in China has progressed to such a point where any student or teacher displaying independence of thought is likely to be arrested as if he were a criminal, charges the Nationalist organ, "People's Tribune," which is published in English in Peking.

According to the Tribune, a regular hunt is being conducted in educational institutions for the alleged purpose of eradicating bolshevik influence, but the term bolshevik is subject to such wide interpretation that the ban on free thought has spread beyond all reason.

"The systematic searches made in educational institutions and the fear of arrest has caused actual panic to spread among educators, and many have fled in order to escape the danger that they believe awaits them," declares the paper. "This persecution of educationalists is going on in spite of the fact that Marshal Chang Tso-lin has made it known that he bears no animosity to the educational world and has no desire to harm the students or teachers in any way. It must be supposed that this declaration was not made sincerely or that his wishes are not being obeyed in Peking.

Entering into discussion of the underlying causes of this unreason, the Tribune finds that their opponents feel students should not engage in politics, but should stick to their studies. If Chinese students engaged in "rags" as in England, there would be only indulgence, but their elders object to the fact that the students and teachers "keenly take to heart the condition of their country and are urged on by a strong desire to improve it," the paper believes.

The Ballenger Company have recently installed new fixtures for their men's clothing department.

Large forces are busily engaged in the construction work now going on at Lake Lanier. Miles of hard-surface roads are being built, and the building of the new dam is also in process.

Car Leaps Over Railroad Embankment And Struck By Train

Mrs. Turner Killed, Miss Fife Died at 7:45 This A. M.

HUNDREDS AT SCENE

Mrs. S. Turner, 49, 144 West Broad street, Savannah, Ga., is dead; Miss Mollie Fife, 16, Richmond, Ky., was in a critical condition midnight last night, and S. A. Turner, 45, is injured as the result of an automobile leaving the highway between Landrum and Tryon, yesterday afternoon, falling a distance of 25 feet to the Southern Railway tracks and being struck by a westbound freight train.

Miss Fife, who is a niece of Mr. Turner, a Savannah druggist, suffered such injuries as to make the amputation of her right leg and possibly her right arm necessary, but her condition was so serious last night the performance of an operation was postponed.

Mrs. Turner died as the result of a fractured skull and other injuries, death occurring before she could be removed from the wreckage of the automobile.

Mr. Turner sustained a deep cut on the side of the head and possible internal injuries. According to accounts given to the surgeons, Dr. Hugh Black of this city and Dr. Grady, also Dr. Marion Palmer, Mr. Turner's automobile, coming toward this city, skidded on the wet road about 200 yards west of the Bird Mountain filling station and just above a section of railroad known as the Rock Cut. It plunged into the cut and fell to the tracks, trapping Mrs. Turner and Miss Fife.

It is expected that an investigation will be conducted in Tryon immediately, or when the train crew returns to Asheville. Coroner John S. Turner said that he was informed the accident occurred in Spartanburg county, but inasmuch as the body of Mrs. Turner had been carried to Tryon and he did not wish to make the family bring it back into South Carolina where he could hold an inquest, he had given permission for a North Carolina trial justice to conduct the investigation.

Mr. and Mrs. Turner had been a short vacation in the North Carolina mountains, and had met Miss Fife on her arrival in Asheville aboard the Carolina Special from her home in Richmond, Kentucky, with the intention of carrying her to Savannah to pay them a visit. This is the first trip that Miss Fife, a school girl ever made from home. The body of Mrs. Turner will be carried to Shelbyville, Indiana, for funeral services and burial.

MISS FIFE DIES FROM INJURES AT 7:45 A. M.

After the above story was ready for press, news came to this office of the death of Miss Fife as a result of her injuries sustained in the accident, death occurring at 7:45 this morning. Funera larrangements for Miss Fife had not been announced up to the time of going to press. The body will be turned over to a local undertaking establishment.

MANY VISITORS COME TO SEE TRYON PROPERTY

The various developments continue to bring many people to Tryon to view the great sub-divisions here, and most of the bus loads are from South Carolina. Many sales are being reported daily from these trips. It is estimated that hundreds will be in Tryon before the present summer season is over.
