## SUNNY VIEW GREEN'S CREEK

The farmers of this section are about done in their crops which are looking fine as we have had some nice showers lately.

We had a nice sermon preached at Sunny View school house by Rev. C. C. Cogins of Rutherfordton. He will be with us again the second Sunday in August at 2 p. m.

Mr. Posy Brown, Ivey Corn, and Terrell Taylor of Chimney Rock was in this section Sunday.

W. L. Whiteside and Miss Lola Gibbs was the dinner guest of Geo. Taylor Sunday.

Shafter Brown and Mrs. Lillie Taylor made a business trip to Asheville and Sky Land Saturday.

We are glad to see the school house going up and hope to see it complete at an early date and trust it will be filled with bright girls and boys this winter.

The man that waste his time fighting against a school is like the old woman who was shouting and saying she was going when the preacher asked her where she was going the answer was, she didn't know but was on the way. They say it is dangerous to get out in Sunnyview, there is small pox, mad dogs and special school tax dodging around. The Dr. says small pox is worse before it break out; mad dogs and school tax is worse after it breaks out, the two disease are very much alike; they slobber at mouth and if bothered some times have fits, but I am not much afraid of small pox and mad dogs, while I am not a bit afraid of school tax.

School tax is only a little bit of extra money and money the bible says is the image of the old beast. Money and selfishness is about the same thing and is a curse of the old beast. Money and selfishness is about the same thing and is a curse of the world. We can't get along with out a little bit of money but people lets do try to get along without selfishness. Leave it at home and everybody come to Cooper Gaps Saturday the 17th and Sunday, to our Sunday school convention. Lets all come along and forget selfishness bringing a big basket of dinner. Come along one and all.

Miss Annie Mae Miller has as her guest this week her cousin, a Miss Wilson, of Tryon, N. C.

Miss Ruby Shields, who is attending Summer School at Culloway, N. C. Mr. and Mrs. Beaufort Thompson and family, of near Chesnee, S. C., spent Sunday with Mrs. Thompson's parents, Mr. and Mrs. Miller Hines.

Rev. and Mrs. William Davidson and little daughter of Greenville, S. C., spent the week-end with relatives and friends near Green River Church, Mr. Davidson preaching to an appreciative audience both Saturday and Sunday.

Mr. W. Y. Miller, who has been ill for some time, continues on the sick list though, some slight improvement in his condition has been noted.

Mr. and Mrs. L. B. Hines of near Chesnee, S. C., and Miss Mabel Lancaster of New Hope, called at the home of Mr. and Mrs. Miller Hines Sunday afternoon.

Several from this place attended preaching services at Green River Baptist Church last Sunday.

Mr. and Mrs. Bridge Greene and little daughter Mildred, went to Spindale Sunday, visiting Mr. Greene's sister, Mrs. Bob Giles and her family.

Tom Tarheel says the \$25 his wife brought home from the curb market last Saturday was certainly welcome at his house.

The hog outlook continues good. Many North Carolina farmers are cashing in on this farm crop this year.

### Carefully Keep Cattle Yards Free of Rubbish

Cattle commonly show a tendency to pick up and swallow objects other than food which they may happen to find in yards or in their feed.

This habit is not always harmless and especially not when the objects are more or less pointed and of metal. Such foreign bodies may consist of pieces of wire, nails, hatpins, hairpins and so on.

After being swallowed they are detained in the second division of the stomach and by the combined motions of the latter and the diaphragm, they are likely to become pushed forward through the wall of the stomach and through the diaphragm finally to become arrested by the structures of the heart.

On their way and when lodged in the heart or its surrounding sac, they give rise to serious septic processes which eventually cause the death of the animal concerned. Prior to death the animal shows fever, grunts and groans when moving, the veins of the neck stand out prominently and a soft doughy swelling of the throat and dewlap is likely to form.

There is no help for such cases, but care that cattle yards are kept free of rubbish, pieces of wire and the debris of old buildings and such is an effective measure to prevent the deplorable accident. As the condition is a rather common one it always pays to give the matter attention.

### Sows Should Be Dehorned

When the sows are confined in pens to farrowing, they ought to be dehorned. The same operation kills the lice which are a pest and will not draw in worms from the first milk. The reason for this is

and their eggs are thickest at the corners behind the head, in the wrinkles near the hocks and in the region just back of the forelegs. They are thickest here because the pig cannot rub here and hence the enjoys being scratched in these spots.

### Small Orchards Best

The chief reason why farm orchards are so seldom neglected and become such a useless eye sore, is that they are too large, he says Prof. W. A. Brock of the Illinois College of Agriculture. Mr. Brock thinks that 25 trees are enough for the average farm. This number, he says, can be made to produce a nice lot of fruit economically without interfering with the other farm work, if proper equipment is used and the necessary attention is given.

### Way to Feed Chickens

Professors at the college of agriculture, University of Illinois, have found that method of feeding chickens they say, provides the ration meets certain essential requirements. Flocks may be fed on various rations, on all kinds and so on, but on a combination of grain and mash with good results, provided the minimum requirements with respect to each nutrient are furnished.

One community in Alamance County is now shipping 9,000 gallons of milk per month from which an in-

## 149 Acres Near Mill Springs On Highway No. Nineteen

Out Mill Springs way is a farm that will make some good farmer one of the well-to-do citizens of Polk county, North Carolina, as it has its present owner.

To go out and look at this valuable farm, and notice its excellent condition, and then learn the price and liberal terms of purchase, will make any prospective buyer a purchaser, if his funds are sufficient for a purchase of this size. It will not take much money.

The main dwelling is quite modern. It has its own electric lighting system which is quite an asset. It is also equipped with other modern conveniences. The knob on which this beautiful home is located is enough to cause any one to wonder why a man would want to sell this valuable property to anyone.

But as to the farm: a 49 acre pasture will feed 30 or 40 head of cattle; 80 acres under cultivation will make a bale of cotton an acre with little fertilizer in an ordinary year; an orchard said to be one of the finest in this part of the country affords plenty of fruit.

We cannot tell you all about it here. Better let us take you out to see it.

## A DODGE BROTHERS SEDAN

# \$895

People are surprised to learn that this beautiful and sturdy car now sells for \$895.

They have heard so much about its exceptional value that they are under the impression it sells for a higher price.

Moreover, the Sedan possesses all the roominess and character of closed cars that calls for a much greater investment.

It is substantial in appearance because it is substantial in fact. And serves its owners far beyond the period usually expected of a car at any price.

The body is all steel—safe, sturdy, fireproof, and smartly finished below the belt line in coolie blue lacquer, with cartouche yellow stripe—upper body in black, lacquer—shields and fenders in black, oven-baked enamel.

Blue Spanish genuine leather upholstery, removable rear seat-back, and optional wood or steel wheels are included among many other features that commend themselves forcefully to the buyer.

Many who expect to buy a cheaper car, now find that Dodge Brothers product is well within their means. Many who had expected to buy something more expensive, now find everything they could possibly desire in these smart and dependable vehicles. See the cars for yourself—and investigate our attractive time-payment plan.

### What Are You Going To Do About It?

Sunday will soon be here. It comes every week just as it came in your childhood.

The bells will ring, the organ will make music, people will gather for devotions. Thus it will be in Tryon, and thus it will be throughout Christendom—not merely this week, but on every Sabbath to the end of your life.

Why?

Here is a force that persists—that surrounds you. The point is that it is here, present, living.

You cannot possibly ignore it.

What are you going to do about it?

Let's go! When? Next Sunday. Where? To Church.

Which Church? The Church of your preference.

#### BAPTIST

Regular services each Sunday 11 a. m. and 8 p. m.  
 Special music evening services.
