

Celebrating Our 1st Anniversary

Our Appreciation

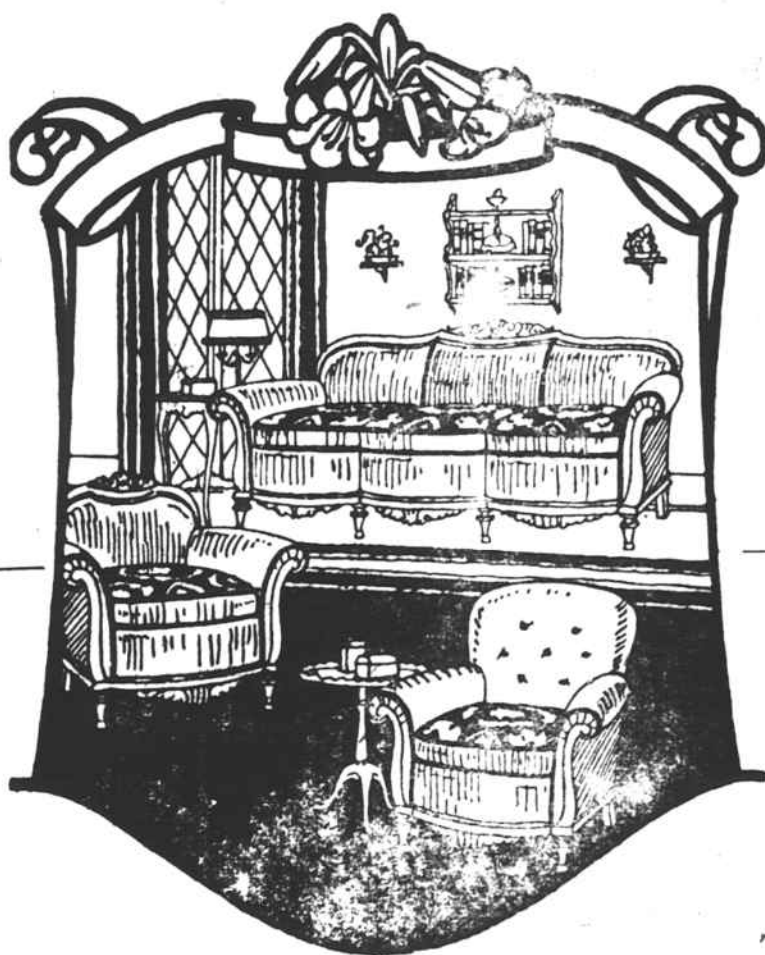

On the threshold of our first anniversary in Tryon, we feel deeply grateful for the generous response that has been received by us since we opened our new furniture store to the people of this section. It is with great feeling of pride and profound gratitude that we are able to announce that our business has grown steadily for the first year, yes far beyond our expectations. If service and fair prices will win, we can rest assured for what the future will have in store for us.

Our Achievements Have Been Great

We are fully conscious of the achievements that have been made in this section, we stand ready to predict even greater prosperity for "The Mountain Paradise" which has been so bountifully blessed by Mother Nature. Great things are in store for Polk County and we feel that we will be a help to accomplish even greater achievements for this all year round resort center, through our efforts to render a REAL FURNITURE SERVICE.
