SERVICE!

We realized sometime ago for the need of greater service to the people of this section, and in order to provide for better achievements we installed a larger more modern switch-board, and increased our force of operators in order that Tryon would have real telephone service.

STILL BETTER SERVICE

Still better service from time to time is the aim of this Company. We will do our share to keep pace with Polk County's "March of Progress" which has attracted the attention of the universe, as Tryon and Polk County forges ahead, so shall we.

MILLIONS SPENT

No other public utility has achieved more in the way of advancement than the telephone, research work along these lines has mounted into millions of dollars in order that the American populace should have quick service at a nominal cost.
