

# Rose Hill Personals

Daniel Reid of Atlanta, who has been critically ill in a Greenville, N. C. hospital, is now recuperating at the home of his mother, Mrs. Sarah Reid.

A birthday celebration was given for Mr. Reid on the occasion of his fiftieth birthday on Friday of last week. The party included Carl Reid of Greenville, Mr. and Mrs. P. S. Newton, Paul Newton, Jr., Miss Lillian Newton, Mr. and Mrs. T. R. Rouse, Mr. and Mrs. Charlie Teachey, Jr., Dr. and Mrs. R. L. Carr of Rose Hill.

Misses Suddie and Rachel Herring who are students at Flora MacDonald College spent the week-end at their home.

Recent guests of Mrs. Sarah Reid were Mr. and Mrs. William Reid of Savannah.

Misses Alice Rouse and Elva Herring left this week for Four Oaks, where they have accepted positions as teachers for the coming year.

Lewis Smith, Jr., of Savannah was a recent guest in the home of Mr. and Mrs. P. S. Newton.

Mrs. Charlie Brice is recovering at her home from a recent operation in a Wilmington hospital.

Miss Maggie Pearl Scott of Wilmington visited her parents during the week-end.

Miss Sallie Henderson has gone to resume her work as a teacher in the Nahunta School in Wayne County.

Alva Hawes, a young ministerial student, has resumed his work in the Baptist Theological Seminary at Louisville.

A number of local people attended the Eastern Association in Magnolia this week.

Mr. and Mrs. Jasper Hare of Durham were recent guests in the home of Mr. and Mrs. J. H. Barnes.

Mrs. P. O. Lee is receiving treatment in Duke Hospital.

Mrs. Lizzie Rogers of Turkey was the guest of Mrs. J. H. Fussell on Tuesday night.

# WATHA NEWS

Miss Mary Daniels of Wilmington spent Sunday with her brother Mr. Moses Daniels.

Mrs. Buster Rivenbark of Wilmington visited her parents, Mr. and Mrs. W. Y. Thompson last week.

Mr. and Mrs. Clyde Moore and children and Miss Grace Shephard of Goldsboro spent the week-end with relatives and friends.

Mr. and Mrs. Ray Padgett of Smith Creek visited their parents Sunday.

Miss Lovesline Padgett left for Danville Friday to spend a while with her brother Mr. Walter Padgett.

Miss Thelma Marshburn left last week for Rockfish, near Fayetteville for an extended visit.

Mr. and Mrs. M. B. Daniels are the proud parents of a son John Hall.

Mr. T. A. Rivenbark recently returned from a trip to New York by auto. He stopped all along the line at the largest cities, reports a most delightful trip.

Early Sunday morning the town was awakened by the screams of distress from inmates of the Rivenbark house which was burned at some time near four o'clock. It is one of the oldest houses in Watha and a passing caused a pang of regret to the writer, who spent many a pleasant hour in it during the life of its owners, Mr. and Mrs. R. W. Rivenbark who have long since crossed the great divide. The old folks and old landmarks and landscapes are rapidly giving way to the younger generation and more modern and up-to-date surroundings, but I seriously doubt that the genuine good will and happiness that prevailed in the old times will be among the assets. Then it was a pleasure to help a neighbor in dis-

# Employment Service Places Large Number

Asheville, October 6.—Sixteen and two-thirds percent of the total population of the State of North Carolina has been registered with the N. C. State Employment Service as being unemployed since the beginning of the Employment Service in 1933, Mrs. May Thompson Evans, State Director, announced here today, in making the annual report of the Service. Over forty-five per cent of these registrants have been given employment during this period. The complete report for the period shows 526,662 registrations, and 212,123 placements. The records of the Employment Service for the fiscal year July 1, 1934 to June 30, 1935, show that a total of 75,744 placements were made as against a total of 79,505 registrations. The greater majority of these placements covering practically every walk in life were made in fifty and sixty per cent of all registrations. This report is very encouraging as indicative of the unemployment situation in North Carolina, and especially so in view of the fact that the greater portion of all placements are in private industry. Placements in this State are increasing each week, according to the reports of the various District Offices, due to the general expansion in private business.

# Forestry Projects Aid Landowners

Raleigh, Sept. 30.—One of the chief aims of the federal government in developing forestry projects under the Resettlement Administration is to demonstrate to private land owners in North Carolina the value of the farm forest as a permanent investment, according to James M. Gray, of Raleigh, Regional Director of Resettlement's Land Utilization Division.

"We expect to be able to make definite announcements regarding plans for forestry projects in North Carolina within a short time," Gray said "and I sincerely hope that private land owners in this state will watch closely the development of these projects."

"The Forest Service of the United States Department of Agriculture, the state forestry departments and the forestry divisions of the state agricultural colleges have made great strides in emphasizing the value of farm forestry. The Resettlement Administration will carry out all of its forestry projects in close cooperation with these important agencies. Many of us have had an opportunity to observe the work they have done and the Resettlement projects will be so located that it will be possible for an even larger number of private land owners to watch development of these projects from the very beginning."

"By following the forestry methods mapped out by government methods mapped out by government experts, private land owners will be able to develop their own lands along similar lines. Properly handled, small forest tracts will make any farm more prosperous and will enhance its value as an investment."

In the development of its forestry projects, Gray said, the Resettlement Administration will utilize land which is classified as unsuited for agricultural purposes. The land to be devoted to forestry is only a portion of the acreage of farm land which the government plans to acquire and put into uses for which it is better adapted. In addition to forestry, other projects for which this land will be utilized are recreational areas, grazing lands and wild life sanctuaries.

When the approximate location of a proposed project has been decided upon, land owners within the project area will be notified of the possibility of selling their land to the government, Gray explained. The price paid for land will depend upon the expert appraisal with the prisoners. They left their autographs with the bona fide inmates.

"Not such a bad place at that," remarked Miss Francis.

"No," said Brent, "not if you get out when you want to."

al of each separate tract. Land owners will be able to deal directly with representatives of the Land Utilization Division, and need employ no intermediaries or agents.

# FHA JOINS FORCES FOR FIRE PREVENTION WEEK

Greensboro, October 3.—Following proclamations by President Roosevelt and Governor Ehringhaus, the state headquarters of the Federal Housing Administration here through Acting Director Joseph L. Suiter has thrown all its forces into a safety drive during National Fire Prevention week, October 6-12.

Acting Director Suiter explained that the State offices of the FHA will make every effort possible to cooperate in the fullest extent with civic officials and organizations in fighting the menace of fire. He pointed out that pamphlets are being distributed all over the State for the purpose of explaining the best means of fighting the fire hazard. These contain a simple check of stairs, basement, plumbing, heating, ventilation, attic, chimneys, fireplaces, lighting, power, garage, equipment and miscellaneous items. They also explain how homes can be modernized through the aid of F. H. A. loans, repaired for the purpose of fighting the fire hazards.

Speaking of fire prevention week, Mr. Suiter stated, "Many of the homes of today which were built a generation ago are not equipped with the safeguards against flames that are available in modern construction. The builders were as anxious as we are to do everything that might stay the ravages of the fire god, but their knowledge of what to do and how to do it and what measures should be taken were not comprehensive as we now possess. Old homes are often fire hazards and the way to reduce the menace that thus hangs over them, if not to eliminate it almost entirely, is to modernize the property. You can diminish fire hazards in your home by making repairs and improvements under the convenient terms of the modernization credit plan, fullest details of which can be obtained from an approved lending institution in your community or from the state FHA headquarters here."

**CONFESSIONS OF A DRUG ADDICT**

A revealing story of the trials and sorrows of a drug victim will be found in the October 20 issue of the American Weekly, the big magazine which comes regularly with the Baltimore Sunday American. Your news-stand boy or newsdealer has your copy.—Adv.

# The Man Who Knows

Whether the Remedy You are taking for Headaches, Neuralgia or Rheumatism Pains is SAFE is Your Doctor's Ask Him

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

BEFORE you take any preparation you don't know all about, for the relief of headaches, or the pains of rheumatism, neuralgia or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

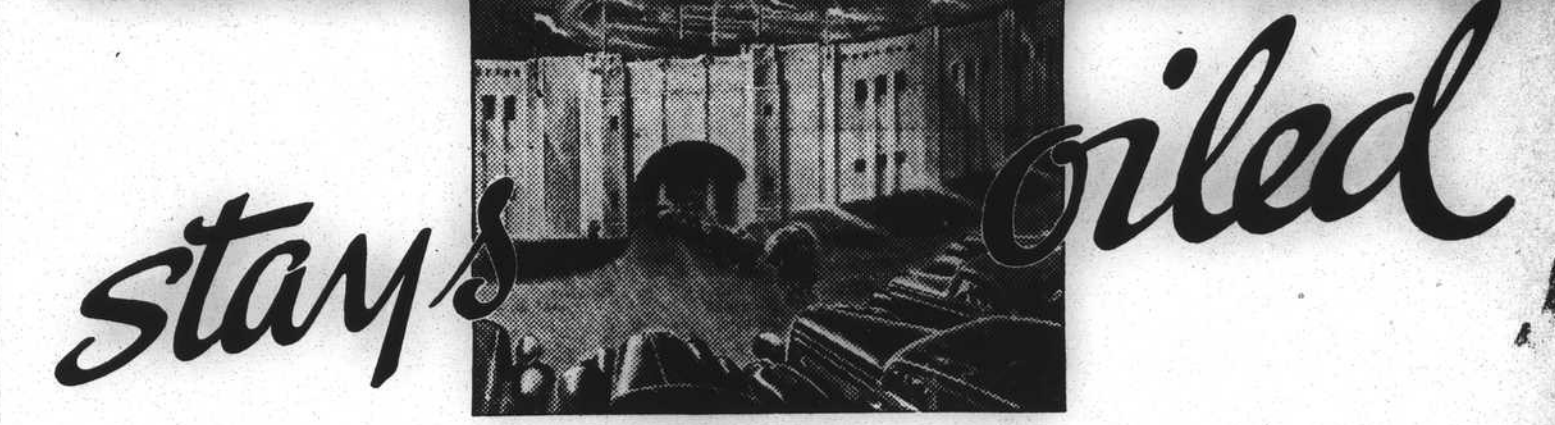

Remember this: Genuine Bayer Aspirin is rated among the safest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by asking for it by the name "Bayer Aspirin," but always saying BAYER ASPIRIN when you buy.

**Bayer Aspirin**

YOUR CAR'S COLD TOO... SO MAKE SURE YOUR ENGINE

And please don't think you are going to read this same sort of thing about a "whole raft" of winter oils.

The clean-cut difference in favor of Conoco Germ Processed Oil is this: when the thermometer goes down there is a Hidden Quart of Conoco that doesn't. It can't. It stays and stays—becomes a lasting part of every surface in your engine.

The Germ Process... fully patented... makes this alloyed oil blend with metal remarkably, forming your Hidden Quart. Then no matter how long your car is parked or garaged in the coldest cold, you come out to a well-oiled start... not merely because fine paraffin-base Conoco Germ Processed Oil is free-flowing, but because the Hidden Quart is up on guard

before any oil could even begin to flow.

Gone are the warm-ups that chew up your engine. Nor need you fear highest speeds, or hardest winter pulls. That's when Germ Processed Oil puts its high-durability film between you and repair men. It's not only light-bodied enough for winter, but tougher, too.

AND... road tests of cars with conventional rabbit bearings, and with the new copper-lead, high-lead, and cadmium-alloy bearings, prove Germ Processed Oil far better than plain mineral oils for all bearings!

Whether you're driving a '35 model or a "veteran" drive it in today for your Conoco man's winter help. Continental Oil Company, Established 1875.

CONOCO GERM PROCESSED MOTOR OIL
