Severe weather that gripped most of the country last week had a stimulating effect on some lines of business but retarded others, with a favorable net result, according to reports to the Department of Commerce from 83 cities.

Heavy inroads were made on stocks of fuel and seasonal merchandise while special sales continued to draw trade over the handicap of subzero temperatures. In some instances, the business volume was larger than the preceding and 1935 weeks. These factors, coupled with excellent business earlier in the month, made January considerably better than the

Only FORD OWNERS can look ahead to these Economies

NO Ford car ever built costs less for upkeep than the Ford V-8 for 1936. But when, after thousands of miles of trouble-free service, you may require a new part, the liberal Ford Exchange Service keeps the maintenance costs at rock bottom. Ford has made the costly, old-fashioned jobwork engine "overhaul" a thing of the past. When the time comes for an engine "overhaul," the modern Ford way allows you to exchange your Ford V-8 engine for one that has been reconditioned at the factory by the same men, machines and methods used to manufacture the original assembly—and there is no extra charge for labor. This exchange service applies not only to the engine but also to other parts—including 84 which are not listed here. Get the facts from your nearest Ford dealer and learn of this extra economy which only Ford owners enjoy.
