WHEN you allow Headache, Neuritis, Muscular, Rheumatic, Sciatic or Periodic Pains to keep you from work or pleasure. You can't go places and do things when you are suffering—and the work or good times won't wait for you.

Why allow Pain to rob you of Health, Friends, Happiness, Money?

DR. MILES ANTI-PAIN PILLS have been used for the relief of pain for more than forty years. They taste good, act quickly, do not upset the stomach, nor cause constipation, leave no dull, depressed feeling.

Thousands have used them for twenty, thirty, forty years, and still find that nothing else relieves pain so promptly and effectively.

Why don't you try them? Once you know how pleasant they are to take, how quickly and effectively they relieve, you won't want to go back to disagreeable, slow acting medicines.

You too may find quick relief. Why wait forty minutes for relief when Dr. Miles Anti-Pain Pills will relieve you in ten to twenty minutes?

As a household remedy I have never found anything that equalled Dr. Miles Anti-Pain Pills. Mrs. Silas D. Keller, Fenfield, Pa.

are vitally interested in all of the perplexing problems of an economic nature which are now pressing for solution. The program committee, appreciating this fact, is arranging to give due consideration to all of these problems and to have them discussed by recognized authorities.

Is any oil any different?

**Change to the different oil... alloyed**

and be kind to your wallet

We'd rather see you change to any fresh oil, before we'd have you risk watery Winter dregs in your crankcase any longer. Any fresh oil is better for you than that.

But when you change to Germ Processed, don't do it just to change your brand of oil; do it to change your whole brand of lubrication!

That's how different this alloyed oil is. And here's why: the patented Germ Process of alloying oil gives it an "affinity" for metals... not only for steels and iron, but for every type of bearing metal now in use, no matter how carefully it must be lubricated.

With alloyed oil actually merging into every inner engine surface, and with the high-durability Germ Processed oil-film also in between the moving parts, your engine is doubly summer-safe. You can streak along on days that shimmy with heat. But your heat indicator needn't jump, and your oil level needn't slump. Not with this different, alloyed oil... High time for you to say "Drain," but be selfish—say "Conoco Germ Processed, Continental Oil Company."
