Several Candidates Make Announcements This Week (Continued from Page One)

ing at a time when it appeared that one or two others were seriously entertaining thoughts of entering the race it has caused some political head scratching.

Interest in the Commissioners race pepped up considerably this week when two new candidates announced themselves. John R. Croom, Magnolia, and Stacy R. Chestnut, Glisson township, were brought into the limelight in this race when they formally announced themselves. Thus far they are the only ones opposing the old Board composed of John D. Robinson, Fred J. Baars, and J. Lawton Miller, all of whom have formally filed with the Board of Elections, although making no public announcement. Rumor has it that there are still others who may enter the race.

The position of Sheriff appealed to one other than Dave Williamson this week when Al-

bert T. Outlaw, who is now rounding out his second term as Register of Deeds, got the jump on any would-be candidates for his office when he gave formal notice of his intention to again seek the office. He was one of the few to post his filing fee this week. Others putting up the cash were Dave Williamson, Wm. E. Powell, John R. Croom, and the three members of the present Board of Commissioners.

Apparently the race for the position of Solicitor of General County Court will remain as a three-cornered affair with Geo. R. Ward, the incumbent, Wm. E. Powell, and Robert L. West all in. Robert M. Carr, who has announced his candidacy to succeed himself as a member of the Board of Education, has no opposition as yet and will probably get by without any. No one has as yet announced for the positions of Judge of the County Court, Coroner, and County Surveyor, the other elective offices to be filled this year.

With the deadline for filing only 15 days off (May 9) close observers of the political game will get much satisfaction out of sitting back and watching the maneuvering which will be going on as candidates get lined up for the final battle on June 6th. The registration books will also open for a three-week period on May 9th to receive names of any who have not previously registered and the activity of candidates in getting new voters registered will also be watched with interest.

NATIONAL BROADCAST ON PART NEWSPAPER PLAYS

The part that the modern newspaper plays in the life of the community will be the subject of a radio program to be broadcast through the courtesy of the National Broadcasting Company early in July.

Occasion for this wide tribute to the publishing industry is found in the fiftieth anniversary of the invention of the linotype. It was this key invention that freed printing from the limitations of hand work and made possible the development of the newspaper in the form we know it today.

A prize of \$500 and a trip to New York has been offered by the Mergenthaler Linotype Co. for the 30 minute radio script which best dramatizes newspaper development over the last fifty years.

This paper will be glad to furnish the rules of the contest

and to demonstrate the production of a modern newspaper to any of its readers who wish to compete for this award.

McDonald Speaks In Jacksonville

Tells Onslow Audience Sales Tax Can Be Abolished Without Taxing Land

A large crowd heard Dr. Ralph McDonald, candidate for the Governor's seat in North Carolina, speak in the courthouse, Jacksonville, at noon today, and they proved particularly pleased with his proposal to abolish the sales tax altogether and put a fairer share of the tax burden on wealth, without restoring the State tax on land.

As substitute sources of revenue, Dr. McDonald proposed that the income tax be raised to 10 percent on incomes in the higher brackets, suggesting that the higher rate be levied upon incomes of \$25,000 a year and upwards. He also propos-

ed a tax on income from stock dividends, surprising many of his hearers with the fact that some North Carolinians enjoy an income of a million dollars annually from dividends but pay the State nothing in income taxes.

Blaming machine politicians and lobbyists for conniving to relieve wealth by imposing the sales tax upon consumption, Dr. McDonald charged that "from 1928—the year that the present regime got control of the government of North Carolina—corporation taxes in this state have been reduced ten and one-half millions of dollars."

"There is at least one billion dollars worth of corporate and individual wealth in North Carolina which is not being reached for taxation by the State, the county or the municipality. That amount is more than the assessed valuation of all the farmlands in North Carolina put together," he said.

"This great amount of wealth should bear its just portion of the tax burden, and by reaching it for taxation we can do away with the sales tax altogether without putting a

State tax on land". Dr. McDonald's itinerary for the remainder of this week follows: Friday night, New Bern; Friday Bayboro; Friday night, Saturday noon, Southport; Saturday night, Whiteville.
