Entered as Second Class Matter January 19, 1923, at the Postoffice at Wallace, North Carolina, under the Act of March 3, 1879.

Thursday, June 25, 1936

Many a child gets a whipping because he took after his father.

With the stock market beginning to revive the land will shortly provide a new school of fishes.

This is the time of the year that the boys and girls go around the country selling magazines so they can get back to college. Anyway, that's their story!

SHOULD BE COMMENDED

The efficient way in which the forest fire situation has been handled in this county during the recent drought speaks well for the fire wardens whose duty it is to reduce the enormous loss incurred annually by promiscuous burning of our wooded lands. Before this County began cooperating with the State and Federal governments in the fire control program it was not an unusual sight to see a number of forest fires burning at one time with no effort being made to curb them. Especially was this true during the Spring months. This year, however, thanks to the Wardens, the number of fires has been materially reduced and large areas which normally would have been scorched and charred by the red demon are now fresh in Nature's green.

A BROADCASTING SUGGESTION

The suggestion, frequently made, that the government establish a chain of radio broadcasting stations, to be operated in the interests of the people instead of the advertiser, is not bad. In fact, we see many advantages to the government and to the people.

So far as we know, no state has a broadcasting system, although one could be easily established and maintained by a small tax placed upon receiving sets. This tax, it seems to us, would be eminently fair if used for the benefit of the listeners, who pay for it, and who would receive a direct and exclusive return from it.

CHILDREN AND GROWTH

Health is an important asset in life, seldom appreciated by those of us who enjoy it. Hundreds of children in this county are growing up with the slightest instruction in matters relating to their growth and proper development. Hundreds of adults, serious minded in many things, look on without apparently realizing the importance of getting these youngsters off right. Athletics have had a marked influence on the physical development of American young people and the recent inauguration of competitive sports for our girls has been a wonderful step in the right direction.

THE BONUS DISTRIBUTED

With more than twenty-eight million \$50-bonds distributed to more than two and a half million veterans of the World War, and something like ten million additional bonds to be distributed to a half million veterans who have not sent in their adjusted service certificates, the bonus question may be considered settled so far as the national government is concerned.

To the veteran who received part of the vast sum of \$2,237,000,000 last week the question has arisen as to how to use the bonds and money received. That most of the bonds will be cashed is generally assumed and thus the question relates to the spending of cash money.

Each individual in this county who has received his bonus is entitled to use it as he thinks is best without unsolicited advice from professional counsellors of the general public.

Each veteran understands his own circumstances and knows what he wants to do with his cash and our advice to all veterans is to save or spend it as he sees fit.

That the vast sum thus scattered through the nation will have important bearing upon business is certain but that it means a new epoch in commercial affairs is nonsense. We advise all tradesmen to go after the bonus dollars and the best way to go after them is to demonstrate to the possessors that what you have to sell is not only worth while but a reasonable and wise expenditure.

ONE MILLION A YEAR

The population of Japan increased last year by 1,028,623 in a land that, even now, has about 70,000,000 people living on a few small islands, which have much mountainous country

With talk of the population of the United States becoming static and European countries worrying about the birth rate the advent of one million more Japanese a year might mean something, say about 1960!

Washington News For U. S. Farmers

REPUBLICAN FARM PLANK LONGEST IN PLATFORM POSITION SUMMARIZED WHEAT PRODUCTION FIGHTING EROSION

The longest and most carefully worded plank in the platform adopted by the Republican party at its Cleveland convention is on Agriculture. Undoubtedly the leaders recognized the necessity of presenting to the American farmers a program that would forecast improved conditions for agriculture and offset, as far as possible, the gains made by the administration in agricultural sections.

We are not concerned with political charges but present something of a summary of the positions taken by the Republicans in the preamble and thirteen statements included in their platform. Generally speaking, says the preamble, the New Deal has taken the Republican principles of soil conservation and land retirement, opening the way for a non-political and permanent solution, although this cannot be expected from the Democrats. There is added a sentence approving benefit payments "within the means of the Federal Government."

1. Control of farm production, included in the Republican platform of 1932, is omitted this year in favor of "abundance instead of scarcity."
2. Approves "acquisition of abandoned and non-productive" land for public use, such as "watershed protection and flood prevention, reforestation, recreation and conservation of wild life."
3. Approves "reasonable benefits to cooperating farmers on family-type farms who plan toward a balance between soilbuilding and soil-depleting crops."
4. Advocates experimental aid to farmers in developing new crops.
5. Would promote industrial use of farm products.
6. Against importation of all livestock, dairy and agricultural products, or substitutes and derivatives, that depress farm prices.
7. For effective quarantine against imported livestock, dairy and farm products from countries without proper health and sanitary regulations.
8. For "ample farm credit at rates as low as those enjoyed by other industries, including commodity and livestock loans," with preference in land loans to the "farm as a home."
9. For decentralized, non-partisan control of the Farm Credit Administration and National Farm Loan associations.
10. For reasonable benefits upon the domestically consumed portion of crops with exportable surpluses, with payments limited to "the family-type farm."
11. Would encourage cooperative marketing.
12. Would assist in disposing of surpluses in foreign trade through bargains "selectively by countries both as to exports and imports" and opposes "reciprocal treaties which trade off the American farmer."
13. For "reasonable assistance" to producers in areas suffering from temporary disasters. While it would be possible, from the position already taken by administration leaders, to make something of a comparison between the attitudes of the two parties we will not attempt such a parallel until the Democrats have written their plank on agriculture this week in Philadelphia.

The 1936 winter wheat crop is estimated at 482,000,000 bushels in June, an increase over the May figures, and with other gains in prospect. A spring yield of around 150,000,000 bushels is probable even in the face of none too good weather lately.

Rose Hill News

Guests of Mrs. Sarah Reid Carr, of Wallace, Horace Stewart, Jr., and Edward Hawes. Billie Herring recently accompanied Earl Fussell to New York.

Dr. P. Y. Green of Apex recently visited Dr. C. F. Hawes. Dr. Green was a roommate of Dr. Hawes at Wake Forest College and at Northwestern University.

Mr. and Mrs. William Fussell of Lake Wales, Florida, are visiting relatives here.

Mrs. Bettie Powell of Wallace is the guest of her niece, Mrs. Paul Fussell.

Bride Entertained

Mrs. A. B. Wells and Mrs. Horace Fussell entertained at a tea and miscellaneous shower in the home of Mrs. Wells Thursday afternoon, June 18, honoring Mrs. James Fussell, a recent bride. The rooms of Mrs. Wells' new bungalow, en suite for the occasion, were attractive in their decoration of summer flowers.

Guests were met by Mrs. Joel Barden and Miss Sallie Wilkins and were introduced by Mrs. Stokes Wells to the receiving line, which was composed of Mrs. A. B. Wells, Mrs. Horace Fussell, Mrs. James Fussell; Mrs. A. H. Davis of Burgaw; Mrs. Clifton Davis of Wilmington; Mrs. J. B. Fussell, Misses Margaret, Ida, and Dorothy Davis, and Mrs. J. B. Davis, of Burgaw and Mrs. W. P. Farrior of Willard.

Misses Mary Lou Wilkins and Annie Louise Herring ushered the guests into the gift room. Musical numbers were contributed by Mesdames L. K. Alderman, W. H. Hall, and Oscar Fussell, and readings were given by Misses Mary Lou Wilkins and Sallie Wilkins. Guests registered in the Bride's Book, which was presided over by Miss Ruth Murray.

Little Misses Juliette Davis and Ellen Fussell assisted accompanied his father, W. B. Herring on a business trip to Norfolk.

Recent dinner guests of Mrs. C. F. Hawes were Misses Leila Stewart and Mary Williams

enjoyed vanilla ice-cream and cake. The cake was iced in white and held one tiny pink candle in the center. Suckers were given for favors.

Misses Kate Newton and Bruce Wilcox spent several days last week in Chapel Hill.

Misses Annie Ingram visited relatives near Summerlin's Cross Roads during the past week-end.

Misses Edna Mae Newton, who has been in training for a nurse in a Richmond hospital, is spending her vacation here with her parents, Mr. and Mrs. Sam Newton.

Supt. O. P. Johnson was quite sick several days last week and had to go to a specialist in Wil-

lington for treatment. Miss Betty Jenkins spent Friday in Wilmington shopping.

Mr. and Mrs. E. O. Littleton and Mrs. Fanny Cooper went to Goldsboro last Sunday afternoon to see Mr. and Mrs. Mose Farmer and small son.

Fred Sutton of Kinston was here a couple of days last week on legal business.

J. O. Bowman, Jr., has been sick recently and is being treated for malarial fever.

Larry McLendon of Washington, D. C. is spending his vacation here with his parents, Mr. and Mrs. L. L. McLendon.

Mrs. Walter Stroud and small son, James Wayne, have returned to their home here from Parrott Memorial Hospital in Kinston.

The members of the Jr. B. Y. P. U. of the local Church enjoyed a hike and picnic on last Friday afternoon at Stroud's overflow on the Beulaville highway. They were chaperoned by their leader, Mrs. C. B. Guthrie.

Misses Erma Williams and Kathryn Sitterson accompanied Miss Margaret Fuller to Morehead City Sunday, where they enjoyed bathing as well as the ocean breeze. Miss Sitterson stopped in New Bern on their way back to resume her work.

T. C. Moore of Chapel Hill was here last week on business.

Mrs. F. L. Goodman and baby, Caroline Virginia, are spending this week at Jacksonville while Rev. Goodman is attending the P. Y. P. L. conference as one of the chancellors at Peace College in Raleigh. He was accompanied to Raleigh by Misses Eleanor and Ellen Southerland, also Eric Long, who will represent Grove Church.

E. S. Gruver of Hyattsville, Md., but more recently of Duke University, Durham, is here for the next two weeks, conducting a union daily vacation Bible school, in the local M. E. Church. He is being assisted by local pastors, also Misses Erma Williams, Louise Wells, Sue Lee and Mrs. F. F. Thompson and Mrs. N. B. Boney.

Why be NERVOUS

There's a time-tested, harmless, preparation, compounded by a specialist in nervous disorders, for the relief of Sleeplessness, Irritability, Nervous Indigestion, Nervous Headache, Restlessness, the Blues and Hysterical Conditions.

During the more than fifty years since this preparation was first used, numberless other nerve sedatives have come—and gone. But the old reliable has always been in constantly increasing demand.

Only one medicine fits this description.

DR. MILES NERVINE

If you are nervous, don't wait to get better. You may get worse. Take Dr. Miles Nerve. You can get Dr. Miles Nerve—Liquid and Effervescent Tablets—at your drug store.

HELPED 98 PERCENT Interviews with 800 people who had used or were using Dr. Miles Nerve showed that 784 had been definitely benefited. Isn't anything that offers a 49 to 1 chance of helping you worth trying?

Get a package of Dr. Miles Nerve today. If it fails to help you—take the empty bottle or carton back to your druggist, and he will refund your money.

Kenansville News

Mrs. J. B. Wallace was hostess to the Kenansville Kontract Klub Wednesday afternoon from 3:00 to 6:00 o'clock.

There was only one member absent and the place was filled by Miss Lula Hinson. At the conclusion of the games, Mrs. P. D. May was awarded an attractive tea-pot for high score and Mrs. R. C. Wells was given a fruit bowl for consolation. The hostess was assisted by Mrs. I. C. Burch in serving delicious frozen fruit salad with accessories.

Mrs. P. J. Dobson was hostess to her bridge club and several visitors Thursday afternoon at 3:30. After several interesting games of contract, scores were tallied and it was found that Mrs. L. A. Beasley held high score among the club members present and Miss Lottie Williams held high score for visitors. They were each presented attractive gifts. The hostess was assisted by her daughters, Misses Mary Edna and Doris Dobson, in serving a salal course.

Master William Jennings Bryan, small son of Mr. and Mrs. Kedar Bryan, was entertained Friday afternoon when his mother gave him a party celebrating his first birthday. There were about a dozen little folks invited to play games on the lawn, after which they

NOTICE TO CREDITORS

USES MUCH LESS CURRENT
... even in the hottest weather!

Come in, meet the "Meter-Miser" and see the PROOF!

© We actually use an electric meter to prove that Frigidaire's new cold-making unit, the Meter-Miser, cuts current cost to the bone! A miserly amount of current is all it uses, even in hottest weather—because of its outstanding design with only three moving parts, completely sealed against moisture and dirt. Quiet, unseen, trouble-free.
