

## Upward Trend In Industry Continues Employment Aid

### Heat Damages Kentucky Weed Crop, Department of Commerce Reports

The break in the heat wave and widely scattered rains resulted in noticeable business improvement over the previous week and a better margin of gain over last year, although there were some isolated exceptions, according to reports to the Department of Commerce from all parts of the country. Final Summer promotions stimulated the retail volume in many sections and added to this, was the growing interest in Fall merchandise that was expressed more liberally with the prevalence of cooler weather. Wholesale lines were also generally better.

Rains, followed by cooler weather, improved the crop situation in the mid-west, although moisture was still far below normal. The first showers since May 25 fell in the Kansas City area and the St. Louis report said farmers who had been hauling water for two months were relieved. The Kentucky tobacco crop was damaged by the intense heat,

according to the Louisville report and other crops were curtailed. The improved outlook was reflected in the record-breaking attendance at the Wisconsin State Fair where exhibitors reported heavy sales of farm machinery. In Portland, the export of pears started with one exporter loading 57 cars in one consignment, while the Idaho prune crop was estimated at 1,000 carloads. The Jacksonville report said Florida's 1936-37 citrus and vegetable crops were estimated at \$84,284,000. July cash income from the sale of farm products was estimated at \$711,000,000, compared with \$582,000,000 in June and \$451,000,000 in July of last year. Marketing income was highest for that month since 1929. United States exports for the first 7 months totaled \$1,332,471,000, compared with \$1,197,340,000 in the 1935 period, while imports gained to \$1,356,562,000 from \$1,171,097,000 last year.

The upward trend in industry continued. In St. Louis, there was a \$750,000 brewery expansion. August cigar production in Tampa was 2,500,000

units larger than last year. A foundry at Anniston, Ala., resumed after a 7-year shutdown and another at Vincennes, Ind., resumed after 10 years' idleness. The largest bus order on record was reported by Detroit where the street railways ordered 500 Ford V-8 metropolitan busses. This report also said work had started on the \$3,000,000 international bridge over the St. Clair River between Port Huron and Sarnia. Minnesota flour mills, hampered by labor troubles, operated at 68 percent of capacity and grain shipments were withheld or diverted. The rising tide of industrial activity continued in New England, according to the Boston report. Montgomery Ward opened a \$1,000,000 addition to their retail store in Portland and announced construction of a \$100,000 building at Salem, Ore.

## "The Universal Car"

ONE NAME comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service.

That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists.

Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile.

The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. It depreciates slowly because it is made to last. There is no other car like it.

### Only the Ford V-8 Gives You These Fine-car Features

- |   |  |
|---|--|
| 1. V-8 ENGINE PERFORMANCE WITH ECONOMY        | 4. CENTER-POISE RIDING COMFORT                                   |
| 2. SAFETY GLASS ALL AROUND AT NO EXTRA CHARGE | 5. WELDED STEEL BODY... STEEL STRUCTURE AS WELL AS STEEL SURFACE |
| 3. SUPER-SAFETY MECHANICAL BRAKES             | 6. NEW INTERIOR APPOINTMENTS                                     |
