Watch Your Kidneys!

Be Sure They Properly Cleanse the Blood
YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained. Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes, feel nervous, miserable—all upset.
Don't delay! Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

Wallace Building Boom Is Concrete Development Proof

(Continued from Page One) move his department store into the present drug store site.

Into the building currently occupied by Hurwitz will be another five and ten, one of the Ben Franklin chain, according to E. R. Ackerman, the operator. Occupancy of the site is expected not later than March 15, by which time Dees and Hurwitz should both be moved.

Other improvements and changes are contemplated, it being indicated that the Sloan building will be remodeled. J. Aubrey Harrell and Captain C. J. Snyder are understood to be planning to exchange the Friendly Grill site for that occupied by D. B. Townsend.

Heading the building boom, which none can doubt has spread to proportions far exceeding expectations, was that of Z. J. Carter and Sons, who built a large two-story brick structure for the Collins Department Store system. Following this in proportion was the more recent construction undertaken by Finley Carr, in which stores for himself and Stedman Carr were erected.

Residential building has already seen the erection of four new houses and much remodeling. New homes completed in comparatively recent weeks included that of R. E. L. Dees, Hugh Morrison, Dr. A. B. Bland, and G. L. Brown.

SCHOLARSHIP OPEN TO ESSAY WRITER

(Continued from Page One) than 30,000 boys and girls have participated. The essay contest stimulates boys and girls to study the value of cooperation and to suggest ideas to further develop and improve the cooperative movement, and it is upon the boys and girls of today that the ultimate success of the cooperative program depends.

The three questions which go to make up the subject are:
1. Why should cotton farmers market their cotton through the "Re-Purchase Pool" of the Cotton Co-Operative Association?

2. How can more farmers in North Carolina be made to realize the advantages of purchasing farm supplies co-operatively through the FCX?

3. What can we do to make the Carolina Co-Operator more readable and of more value North Carolina agriculture? Teachers and students interested in entering the contest are invited to write M. G. Mann, Raleigh, for complete details.
