Already several farmers in this immediate section have complained of damage done by the roving animals, in one instance a farmer, Alexander Southerland, having suffered the loss of almost an entire flock of geese as well as having several hogs badly mutilated. But if the grower were in a county where difficulties in administering the program increased the administration cost to \$6.00, say, this amount would be deducted from the \$105 payment and he would receive \$99.

On the other hand, if the five percent increase had not been made, the grower would have had to deduct the administration costs from his \$100 payment instead of from the \$105 payment.

In the county where the administration costs were six percent, he would have gotten \$94 instead of \$99.

# Crosby, Gun Men, Dancer On Next Wanoca Program

Rhythm of Louis Armstrong and His Famous Band Featured in "Pennies From Heaven", Monday Only.

Bing Crosby heads the Wanoca Theatre program next week when he brings four new song hits in a grand musical, "Pennies From Heaven", playing Monday only. Madge Evans plays the role as heroine while Louis Armstrong and his orchestra offers red hot rhythm.

That master mystery director, Alfred Hitchcock, turned to W. Somerset Maugham's thrilling spy story, "Ashenden", for "Secret Agent", his new GB thriller, starring Madeleine Carroll, Peter Lorre, John Gielgud and Robert Young at the Wanoca Wednesday only.

Somerset Maugham, novelist, playwright and traveler, uses personal experience as the basis of many of his stories, and in the case of "Secret Agent" he put into the story the realism of his own experience as an operative in the British Secret Service during the World War.

"Born To Dance", which shows Thursday and Friday, is hailed as the season's most lavished pot-pourri of music and dancing. Produced by Metro-Goldwyn-Mayer, the vehicle presents the dynamic Eleanor Powell as its star and just about runs the entire gamut of rhythm.

In all there are more than 250 dancers and more than 200 instrumentalists and singers in this new production with a nautical background with music and lyrics by Cole Porter, for several seasons Broadway's number one tuner and lyricist.

The defendant has retained counsel and the case is expected to be hard fought, especially if the State asks the supreme penalty.

## MRS. ROOSEVELT SIGNI-FIES INTENTION ATTEND

(Continued from Page One) lace, those in position to know are of the opinion that this will play a big part in drawing her to this section.

Mayor Harrell also received a letter this week from Governor Hoey in which he stated he and Mrs. Hoey would attend

in the sack to permit the solution to wet every seed thoroughly.

After dipping the seed, wash it in water until all odor of formaldehyde is gone. It should be rinsed in several changes of water. Then spread the seed out to dry on a paper in a warm room.

This treatment will kill the germs in the seed, but it won't always prevent the infection of young seedlings in the plant beds, Dr. Shaw warned. Select only disease-free plants from the bed for transplanting.

## DAMPNESS UNFAVORABLE FOR GOOD GERMINATION

Crop seeds protected from dampness in storage will have a better chance of germinating and producing strong plants even when handicapped by unfavorable weather.

Dampness in storage has a tendency to start the germinating process, and this weakens the seed, explained Dr. R. F. Poole, plant pathologist with the N. C. Agricultural Experiment Station.

Capping the sweet potato banks so they will shed water will help protect the potatoes against excessive dampness.

Sweet potato storage houses should be watched during the cold weather months to prevent injury from cold and to provide enough ventilation to keep excess moisture from accumulating.

Irish potatoes stored in banks should be aired frequently to prevent decay.

Corn, small grain, and other seed should be kept in leak-proof buildings with adequate ventilation to prevent the accumulation of too much moisture.
