NORTH STATE'S TOAST PUBLISHED WITH MUSIC

In thousands of North Carolina homes are copies of "Here's to the land of the Long-Leaf Pine", and practically all those copies are heightened by water colored pine cones and needles, but few of them carry more than one verse, and none the

music.

Mrs. Mary Burke Kerr, of Harrell's Store, wrote music in 1932 for that toast by Leonora Martin. Printed copies have been copyrighted and dedicated to the school children of North Carolina. Included are all four of the original verses.

TWO SENATORS COMING FOR COMMERCE DINNER

"Indications are that we will have the largest 'sit-down' dinner, on the occasion of the fifteenth annual dinner of the Eastern Carolina Chamber of Commerce in Kinston, Monday night, April 12th, ever held East of Raleigh", stated Secretary N. G. Bartlett of the Eastern Carolina Chamber of Commerce for this paper this week. The announcement that United States Senator Kenneth D. McKeller of Tennessee, an enthusiastic supporter of the President's Court proposal, would discuss this issue before this meeting has met with a wave of enthusiasm throughout all Eastern North Carolina.

The dinner will be held in the new Carolina Warehouse in order to take care of the crowd expected. Senator Robert R. Reynolds will be present and introduce Senator McKellar.

A feature of the occasion will be George Olsen and his orchestra, who will play for the dance

which follows.

Experience and judgment must be gained by the slow process of doing.

To the Tobacco Growers:

A BED OF GOOD TOBACCO PLANTS WILL GO A LONG WAY IN HELPING YOU MAKE A GOOD TOBACCO CROP, ESPECIALLY EARLY PLANTS WHY BE DELAYED IN TRANSPLANTING? THOUSANDS HAVE USED BLUE DEVIL SPRAY AND HAVE RECEIVED RESULTS, NOT ONLY IN CONTROLLING BLUE MOELD, BUT IN GROWING STRONGER PLANTS WITH BETTER ROOT SYSTEM.

WE ESPECIALLY URGE YOU TO START SPRAYING PLANTS WHILE THEY ARE SMALL SO THE LOWER LEAVES WHICH USUALLY ARE AFFECTED FIRST BY THE FUNGUS WILL BE KEPT IN GOOD CONDITION, AND ALSO TO RID YOUR BED OF FLEE BEETLES THAT DESTROY YOUR SMALL PLANTS.

FOR BEST RESULTS SPRAY EVERY 10 DAYS OR TWO WEEKS, KEEPING A CLOSE WATCH ON THE UNDERSIDE OF THE LOWER LEAVES. ABOUT TWO WEEKS BEFORE PLANTS ARE READY FOR FIELD BE SURE TO WATCH WEATHER CONDITIONS, AND THE MORNING FOLLOWING MUGGY OR FOGGY NIGHTS SPRAY PLANT BED THOROUGHLY. IT IS AT SUCH TIMES FUNGUS STARTS ON PLANTS AND SOME FEW DAYS BEFORE IT CAN BE DETECTED BY THE EYE.

Gentlemen:
This is to advise that I have personally used for the last two years, your tobacco Blue Devil Spray for what is known as the blue mold on young plants, and I can truthfully say that the results have been wonderful, both as to checking the disease and growing plants. I have also sold to numbers of my customers, and they tell me that they are satisfied after giving the Blue Devil a trial.
I am very truly,
F. M. LYNCH.

A Few Words From Georgia Growers:

Would like to say I have received good results from Blue Devil Spray in controlling Blue Mold on my tobacco beds and contribute same to saving my plants.

To Whom It May Concern:
This certifies that I have used Blue Devil Spray on my tobacco plant beds for two seasons, beginning treatment when the plants first come up and continuing until time to transplant. During these two seasons I have not been delayed in transplanting by Blue Mold, have had healthy, strong plants, and have obtained better than a 90% stand at the first setting, despite the fact one season was very dry. The plants grew off early and fast and I have made two of my best crops since beginning to use it. I am highly pleased with the results obtained and shall continue to use Blue Devil Spray.
JNO. D. WEAVER.

NOW, IF YOU HAVE MORE THAN ONE PLANT BED TRY BLUE DEVIL SPRAY ON ONE AND SEE THE DIFFERENCE IN YOUR PLANTS, NOT ONLY ON PLANT BEDS, BUT ALSO IN GROWING OFF OF PLANTS AFTER THEY HAVE BEEN TRANSPLANTED TO FIELD, AND REMEMBER THE TOBACCO PLANT THAT GETS STARTED IS THE ONE THAT MAKES THE TOBACCO AS IT MAKES IN A LIMITED NUMBER OF DAYS.

WE ONLY ASK FOR ONE TRIAL OF BLUE DEVIL SPRAY AND WE KNOW YOU WILL BE ONE THAT WILL CONTINUE TO USE IT.

THE AVERAGE COST OF SPRAYING A 100 YARD BED IS 25c. AS ONE PINT IN 8 GALLONS OF WATER WILL SPRAY 800 SQUARE YARDS.
