HELP KIDNEYS
To Get Rid of Acid and Poisonous Waste
Your kidneys help to keep you well by constantly filtering waste matter from the blood. If your kidneys are functionally deranged and fail to remove excess impurities, there may be poisoning of the whole system and body-wide distress.

Burning, scanty or too frequent urination may be a warning of some kidney or bladder disturbance.

You may suffer nagging backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness under the eyes—feet weak, nervous, all played out.

In such cases it is better to rely on a medicine that has won country-wide acclaim than on something less favorably known. Use Doan's Pills. A multitude of grateful people recommend Doan's. Ask your neighbor!
