Committee Named To Plan Program and Finances For Festive Day On November 11

WARSAW, N. C., Oct. 3. — Ceremonies to be held in Warsaw in celebration of Armistice Day, November 11, will include a full day of festive celebration, it was announced this week. While plans for the day have not been fully completed, committees are now at work arranging the details of the program.

A committee composed of J. J. Jones and H. R. Cates is now busy locating the feature speaker for the occasion, with such celebrities as Governor R. Gregg Cherry, R. L. McMillan, John Burney, June Rose and Paul Younts suggested.

There will be a parade supervised by the committee composed of A. J. Jenkins, John Croom, Stacey Britt, R. E. Wall, Joe Wallace, Ed. Strickland, Jr., J. C. Thompson, Roosevelt Mercer and Paul Williams.

A football game or some form of afternoon entertainment is to be provided by a committee composed of J. P. Harman, Mr. Wheels and A. W. Draughon.

For entertainment of distinguished guests Hon. H. L. Stevens is chairman of the committee with A. J. Jenkins and R. D. Johnson assisting him.

**IN MEMORIAM**

A tribute of love and devotion to the memory of a beloved brother, F. C. Winford C. Brown who was killed in a jeep accident on Okinawa October 14, 1945. The month of October is here again.

*The saddest to me of all the year, For it was on the fourteenth day That my brother was called away.*

*Sad and sudden was the call Of one I loved and was dear to all This world is full of folks, 'tis true, But there was only one of you.*

*You had a smile for everyone, A heart as pure as gold; To those who knew and loved you Your memory will never grow old.*

J. V. Case of Rose Hill will be the guest minister. The public is cordially invited to attend all these services.

Metro will introduce to film fans several new characters, by means of one-rod Technicolor cartoons, Walter Kitty and Phil Flea. Walter will make his screen debut in "The Secret Life of Walter Kitty," while Phil will star in "A Flea Grows in Brooklyn." The studio is quick to point out, however, that they have nothing whatever to do with Sam Goldwyn's "The Secret Life of Walter Mitty," the Danny Kaye vehicle about to be released, or with Twentieth Century-Fox's "A Tree Grows in Brooklyn."

The Force that Supports the World's Biggest Bridge...

**OIL-PLATES Your Engine!**

In the great San Francisco-Oakland bridge, a tremendous tug-of-war goes on continuously between gravity and molecular attraction. Because the attractive force between the molecules in the cables balances gravity's down-pull the bridge stays up.

Through continuous experiment with the mighty forces of molecular attraction, Conoco scientists are able to produce new and better oils for America's motorists. For instance, by utilizing forces of molecular attraction, a special ingredient of Conoco N<sup>th</sup> motor oil is bonded to working surfaces of your engine, so that cylinder walls are OIL-PLATED.

And because molecular attraction holds Conoco OIL-PLATING up where it belongs...prevents it from all draining down to the crankcase, even overnight... you get these benefits:

- added protection when your engine starts up
- added protection from corrosive action
- added protection from wear that leads to fouling sludge and carbon
- added smooth, silent miles

That's why to OIL-PLATE now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Company
