cently raised by the Wallace Lions who are sponsors of the local troop and conducted a drive to obtain money to construct a scout house for the Wallace troop.

The Tuscarora Council has made plans for enlarging its program in the next few years, so that the number of troops in Duplin County can be increased gradually from six to 16.

The Scout Committee pointed out that despite the fact that a recent "Scout Drive" has been held by the Lions the new drive is not a duplication and that the funds are urgently needed to support the local troop.

Thirty-one counties in North Carolina have less than two hospital beds per 1,000 population.

Upset Stomachs Yield Inches Of Gas And Bloat

"I was so full of gas I was afraid I'd burst. Sour, bitter substance rose up in my throat from my upset stomach after meals. I got INNER-AID, and it worked inches of gas and bloat from me. Waistline is way down now. Meals are a pleasure. I praise INNER-AID to the sky." This is an actual testimonial from a man living right here in Wallace.

INNER-AID is the new formula containing medicinal juices from 12 Great Herbs; these herbs cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering—Get Inner-Aid. Sold by All Drug Stores here in Duplin County. (A) Adv.

ing drive which has been carried on for the past several months. Duplin County Selective Service Office has been instructed to delay any further calls for induction until January, it was reported this week.

Review 4-F Men

However, the Duplin office has been ordered to review all men now classified 4-F and send the record files of practically all single 4-F men to the state office in Raleigh for further check.

It was urged by the clerk to the Duplin Local Board that all men between the ages of 19 and 30 who have married or have become fathers since registration should notify the Local Board at once or their records may be sent for state review and possible reclassification for induction.

President—

for the diet of the American public, particularly labor in heavy types of work to whom meat is an essential part of the diet.

Others labelled the move "political" in that it seemed that a supply of meat might hit markets shortly in advance of the off-

year elections early in November.

While some observers warned that the removal of government controls would mean the scrapping of the wage-price stabilization policy and would lead to extreme and disastrous inflation, most spokesmen, while agreeing that there was danger in the situation, felt that if the public acted in such a way as to hold prices to moderate gains the road to balanced prosperity would be smoother.

An itemized estimated of the total cost of the suggested site totalled \$59,906 of which the federal government would pay \$27,968 and the Town of Wallace would have to pay \$31,938.

The cost of the site was divided as follows: land, \$7,440; basements, \$500; clearing 45 acres, \$4,500; grubbing eight acres, \$800; grading, 53,000 cubic yards, \$21,200; drainage, \$2,700; turbing 34 acres, \$3,400; marking, \$1,600; parking apron, \$66,666; administration building, \$5,000; access road, \$400; engineering, \$2,500; utilities, \$700; and contingencies, \$2,500.

The entire tract as suggested would contain 93 acres, sufficient to provide adequate approaches and runways for good wind coverage. It is now owned by Earlie C. Sanderson, one of the local aviation enthusiasts.

The committee which made the study and report was made up of W. H. Rivenbark, C. H. Caudell, A. J. Cavanaugh, L. B. Cavanaugh, A. P. Sellers, R. S. Cavanaugh, Earlie C. Sanderson, T. J. Baker, and Roy Carter. The site has been approved and included in the federal airport plan. All that remains, according to a spokesman for the committee, is for the Town of Wallace to approve the site and secure the funds for the development of the airport.

Rank Offered To All Vets By Army

Capt. N. G. Cottle, commanding officer of the Army Recruiting Station, Wilmington, announced today an Army plan whereby certain specialists who received training and experience in the Army, Navy, Marine Corps or Coast Guard may re-enlist in the regular Army in grades in keeping with their prior active service in any of the Armed Forces.

The new regular Army urgently needs qualified men in some 427 specialties and thus former members of any of the Armed Forces who until now could only enlist in the regular Army in the grade of private will receive credit for their training and experience in any branch, providing they were honorably discharged, have served at least six months in a specialty needed and providing they enlist for a three year period.

For example, a petty officer

Stop Forest Fires Which Waste Timber

Servicemen are in desperate need of homes, yet this year's crop of forest and woods fires may again destroy enough timber to build 215,000 two-bedroom houses, County Forest Warden Ralph Miller said today. That is why "Protect his America" is the slogan of the nation-wide Forest Fire Prevention program which started October 7, he continued. This threat to the welfare of servicemen is no idle one, according to this official. The United States averaged more than 210,000 forest and woods fires in peacetime years—"more than 575 every day," he said. These fires burned over as many acres as there are in the whole of New York state. They denuded vital watersheds, caused floods, killed and crippled livestock and game. And they killed billions of little trees that should make more homes—and more jobs—for tomorrow, he added.

But there is a pay-off, according to officials who say this year's program is spear-headed by state foresters and directors of conservation in cooperation with the Forest Service of the U. S. Department of Agriculture. Nine out of every 10 forest, woods and range fires in the United States CAN be prevented, these officials say, because they are started by people who deliberately set them for spite or some fancied personal gain, or by people who are careless with matches, cigarettes and camp fires.

"Our record is better than this national one," County Warden Miller pointed out, but there is a real need, and a real opportunity for every one of us to help save forests for our servicemen—and homes and jobs for them—by remembering to (1) Hold your match till it's cold—then pinch it to make sure; (2) Crush out your cigarette, cigar, pipe ashes—then, when there's an ash tray use it; (3) Drown your campfire and warming fire—then stir and drown again; (4) If you must use fire, ask about a permit, burn only on still evenings, have help handy, kill every spark!

1st class in the Navy, who had held the job of registered pharmacist for 24 months or more, would be eligible for enlistment in the regular Army as a technical sergeant, his corresponding Army grade. Further details may be obtained from your Army Recruiting Station located in Wilmington at 203-5 P. O. Bldg.
