Lionel Barrymore Expected To Walk Again Soon; Actor Loses 30 Pounds

By Gene Handsaker

HOLLYWOOD — Lionel Barrymore, wheelchair-bound for years, expects to walk again in a matter of months. He has dieted away 30 pounds in the last few months, and this has enabled him to get around on crutches as a sea captain in "Down to the Sea in Ships." A friend of a friend of Lionel's tells me that a doctor has rigged the actor with an elastic belt to reinforce his right hip, injured long ago. And the doctor thinks Lionel can walk without crutches as soon as he loses more weight. But Lionel insists the hottest news about him is: "Contrary to expectations, I'm still around."

Richard Widmark has been invited to speak in chapel and to address drama classes of Lake Forest, Ill. College, where he once was a dramatics professor. He hopes to be able to accept in late November. What word of advice would he have for the undergrads? Sourly: "I have no word of advice."

I've been lucky, that's all." Kansas City's Betty Lynn, 21 and red-haired, is being told she's the screen's new Janet Gaynor. But she says she has mingled feelings

of inferiority and respect working with stars like Bette Davis in "June Bride" and Loretta Young in "Mother is a Freshman." Betty says humbly: "I need to learn so much about technique, angles, and camera." That's the spirit, honey.

On the "Tough Sketch" set, John Garfield and cronies were up to one of their little tricks. Producer Sam Spiegel busted in, summoned the director needed him in a ed from his office by word that hurry. He tapped on Director John Huston's portable office, then pushed the door open. Huston was nowhere around, but in his chair sat a plaster skeleton, its bony arm raising a lighted cigar to and from the grinning mouth. Smoke puffs blew out through the teeth.

Britain Puts New Jet On Public Exhibition

LANGLEY, Eng. — (AP) — Britain has put its newest jet fighter plane — said to be capable of flying faster and further than any comparable jet aircraft — through its first public exhibition. The plane, built for the navy by the Hawker Aircraft Co., has been flown at over 600 miles an hour. The government has not disclosed details of its speed or range.

Designed primarily as a carrier-borne fighter, the ship has folding wings. Its most revolutionary feature is that two air intakes for its single Rolls Royce engine are situated at the wing roots, a patent arrangement enabling the exhaust to be discharged from two positions in the trailing edge instead of from one central exhaust at the tail end of the fuselage. The device allows more room for built-in fuel tanks, thus providing greater range.

The average yearly rainfall in the United States equals 1300 cubic miles and weighs an approximate total of six trillion tons.

Prop and special-effects men at play.

Around here, searchlights in the night sky may mean a meat-market opening. When a Vine Street bank was premiered the other day, Lésie, one of the participating stars, deposited a bone. And when a redecorated Beverly Hills drugstore celebrated its opening a few nights ago, Ann Blyth, Lon McCallister, and Jeanne Cagney joined in the festivities amid the aspirins and talcum powder. Ah, Hollywood!

Chevrolet... Leader in Value

Your choice for QUALITY on all these counts

...at prices that are lower than those of any other car in its field!

Your No. 1 Choice for RIDING SMOOTHNESS

There's a very good reason why people agree that Chevrolet gives a much smoother, steadier, safer ride than other cars in its field. That reason is that Chevrolet alone has the original Unitized Knee-Action Ride, backed by more than 14 years' experience in building Knee-Action units. This feature is found elsewhere only in higher-priced cars.

Your No. 1 Choice for PERFORMANCE with ECONOMY

You will enjoy much finer performance with economy in Chevrolet. Its world's champion Valve-in-Head Thrift-Master engine holds all records for miles served, owners satisfied, and years tested and proved. And Valve-in-Head engine-design, like so many other Big-Car quality features, is an advantage that is found only in Chevrolet and higher-priced cars.

Your No. 1 Choice for ALL-ROUND SAFETY

You and your family will ride in safety, thanks to extra-strong Fisher Unitized Body-Construction—safety plate glass in windshield and windows—the unmatched road-steadiness of the Unitized Knee-Action Ride—and the greater stopping-power of Positive-Action Hydraulic Brakes—fourfold safety-protection exclusive to Chevrolet and more expensive cars!

Your No. 1 Choice for TASTEFUL BEAUTY

You know—and your friends know—that the emblem, *Body by Fisher*, is the hallmark of bodies that are better by far. Chevrolet's Bodies by Fisher reveal this finer quality inside and out—in every detail—including the hardware, the upholstery and all appointments. Naturally, these finer bodies are exclusive to Chevrolet and higher-priced cars.
