### WHERE RHEUMATISM STRIKES... AND HOW TO DETECT IT!

Rheumatic and arthritic pain and inflammation can strike the joints in any of the indicated affected areas. (See arrows in chart above.) But these diseases have many forms and each form has varying symptoms. Rheumatoid arthritis is an infection of the joints which fill with fluid; the skin around them may be red, the joints themselves swollen and painful. Still another form is specific infectious arthritis. All these various forms of arthritis and rheumatism are accompanied by pain, very often swelling and loss of function of the joints. Hospital and clinical test patients undergoing IMDRIN therapy, some of whom had suffered hopelessly for as long as twenty years, were able to resume more happy, active living once the pain subsided and their confidence grew. In cases where the joints were swollen, IMDRIN, working internally, reduced swelling and eased pain rapidly. These patients, many of whom had given up hope, were able to once again resume comfortable living. It is true that response to IMDRIN varied occasionally and your own experience may or may not coincide with that of patients tested. But IMDRIN today is your greatest hope. IMDRIN with the new wonder-working ingredient, may give you the same blessed successful results. Get IMDRIN today!
