Poland Places Accent On Rebuilding Warsaw

WARSAW — (AP) — The war-ravaged city of Warsaw has made so much progress in salvaging and rebuilding what the Ger-

mans demolished that accent in the future is to be placed upon "new building". Poles, working day and night, and often without the aid of machinery, have cleared hundreds of thousands of tons of debris and rubble from the city and rebuilt living places for the present-day population of 600,000. In 1939, a total of 1,289,000 Poles lived here.

Now, says Dr. Stefan Jedrychowski, vice-president of the Central Planning Board, the city is passing "from rebuilding to new building." Among the Warsaw investments planned for 1949 are new works representing 83.6 per cent of the total plan. Only 16.4 per cent is listed for rebuilding.
