Fisheries Commissioner Makes Six-Month Report at Raleigh

4-H Pig, Calf Chain Endorsed By Farm Bureau

Directors Name Five Delegates to State Convention chase for the department is an automobile to handle supplies for at Raleigh

The board of directors of the county Farm Bureau took a major forward step Thursday night when they decided to assist in establishing a 4-H pig and calf chain to enlarge the livestock program to enlarge the live in Carteret county.

Last year the Farm Bureau furnished N. C. 27 hybrid seed corn to eight 4-H club boys. Al Stinson, assistant county agent, reported yields as follows: Shelton Howard, 70 bu.; Bruce Howard, 52 bu.; Jack Farrior, 71.3 bu.; Douglas Cannon, 72 bu.; Charles Dudley, 52 bu.; Joe Howard, 48.3 bu.; and Terry Garner, 48.3 bu.

Five voting delegates to the State Farm Buresu convention Feb. 12 to 15 at Raleigh were ap-

pointed.
These delegates are Robert Laughton, Roy Garner, S. D. Edwards, Oscar Salter, and R. M. Williams, county agent.

The following resolutions were presented by the Farm Bureau fruit and vegetable committee: all Irish potato growers should be given an acreage allotment with "teeth" based on their eight year previous record held by P. M. A., previous record held by P. M. A.,
The present ruling which entitles
any farmer to grow 2.9 acres, be
done away with. Each farmer be
given an allottrent based on his
record from one acre up, even
though only one acre; Continue
support price at 90 per cent parity; Encourage Florida and South
Carolina to set up a marketing Carolina to set up a marketing

These resolutions will be sen to J. V. Whitfield, chairman of the state fruit and vegetable committee, for consideration before the State Resolutions committee at the Farm Bureau convention.

The directors requested that the state agriculture official news letter be sent to the officers and directors of the farm bureau as well as the NEWS-TIMES and the Carteret Broadcasting company.
They voted \$50 to the State

Farm Bureau Special Education fund. This fund, totaling \$35,000 was set up two years ago by the State Farm Bureau, Mr. Williams Davis and J. A. Newsome, and said, to supplement salaries of Davis in return has had an in-

Development which met yesterday

the office and patrol boats. Weather Unfavorable

The fisheries commissioner cited unfavorable weather as the cause for menhaden fishing, mullet and spot hauls being less than in the last six months of 1948. The menhaden were late in appearing in these waters and when they did show up, it was too rough to take them.

"Capt. Bonner Willis, one of ar best menhaden fishermen," Captain Nelson reports, "said he had enough menhaden in his net one time to load his boat twice, but had to turn them out be-cause it was so rough he could not bail them."

The calendar year of 1949 was, however, the best in the history of the menhaden industry, according to authorities.

Shrimp Production

During July 1 to Dec. 31, 1949 there were 6,623,111 pounds of shrimp produced as against 6,509. 111 pounds the same six months of year. (This weight is with heads on).

The commissioner pointed out that in recent years most of the shrimp have been taken on the inside rather than in the ocean as once was the practice.
