The club decided to hold a cake and candy sale in the near future in order to earn the rest of the necessary funds for the Woman's club project. Mrs. Morton Davis, Mrs. Theodore Phillips and Mrs. W. H. Howerton will serve as the committee.

Mrs. Eure, Mrs. Johnson and Mrs. D. Cordova were appointed as a nominating committee. Mrs. Johnson reported that the town recreation commission will provide three months of recreation during the summer, with Charles Hester as director.

Mrs. Johnson gave a most interesting discussion on The Problem of Aging. In 1900, she said, one

could expect to live until he was 47 in the United States; today it is 67 for boys and 69 for girls. In the year 2000, it is estimated if the birth rate continues the same, there will be more old people than young.

This is true because of better food, medicine, and physical care, she explained. "Ten per cent of these older people have enough to live on, our problem is to provide work or activities for these older people as a means of security, as well as to provide interests and recreation to keep them from being lonely," remarked the speaker.

Mrs. Johnson concluded by giving suggestions for keeping a youthful spirit.

The hostesses, Mrs. Luther Hamilton and Mrs. A. H. McDonald served an iced drink and assorted cakes in the Easter motif.

Use plentiful honey for family meals. It's delicious spread on hot buttered toast for breakfast.

When you reflect on the varied nature of the prescriptions your pharmacist is equipped to fill—and all the times you have depended on his services—you realize how essential he is to your family's health.

And when you consider the timesaving convenience the drug store offers, no wonder today's busy parents rely on it for so many of their "growing" needs!

They like the pleasant, professional atmosphere of the store. And they like the pharmacist himself—a friendly, warm-hearted man of science, whose spirit of service is an American tradition.
