

Governor Honors Roy Hampton At Marine Museum Dedication

Rector Accepts Call to Parish At Houston, Tex.

The Rev. William L. Martin, rector of St. Paul's Episcopal church, Beaufort, has accepted the call to become rector of St. Alban's church, Houston, Tex.

Mr. Martin has tendered his resignation to the vestry, effective Friday, Aug. 31. The rector, his wife, and two children, Sylvia and Billy, will move to Texas the first of September.

The Martins came to Beaufort in March 1948. Mr. Martin's former charge was Christ Church cathedral, Louisville, Ky. Prior to that time he was in the mission field in South Carolina, at Bonwell, Allendale, Blackville, and Denmark. He started the Episcopal church at Denmark.

During his ministry here 74 have been confirmed, 30 have associated with the church by letter of transfer, the St. Paul's Men's club was organized, programs for youth were emphasized and a boys' ball team organized. A new parish was completed late in 1950.

The church to which Mr. Martin is going is but a year old. During that time he reports that the congregation has built a brick church and parish house, the men of the church doing the construction work themselves.

"There are only 75 members, but the church is located in a growing section of Houston," commented the rector. "A lot of people may not understand my choice, but it's the type of thing I like."

The congregation has recently purchased a new home which will serve as a parsonage.

In the East Carolina diocese Mr. Martin is director of youth and a member of the bishop's executive council, department of Christian education.

Mr. Martin succeeded the Rev. William Daniels at St. Paul's.

Car Upsets Friday On Highway 24

A 1946 four-door sedan turned over three times at 7:30 Friday morning on highway 24 three miles from the highway 70 and 24 intersection, but no one was injured.

Driver of the car was M. G. Ayers, 364 Marine st., Mobile, Ala., riding with him was the brother of the owner of the car. Both were deaf mutes and each had one foot missing. The car owner was James Segers, 2804 Third Ave., Columbus, Ga.

According to H. G. Woolard, highway patrolman who investigated, Ayers was proceeding west at between 40 to 50 miles an hour, when one of two dogs riding in the back jumped to the front seat.

He looked to see what was going on and ran off the right shoulder of the road, proceeded 198 feet, crossed over to the left and continued 99 feet, then turned over three times within a distance of 38 feet. The car came to rest on its left side. Damage was estimated at \$700. No charges were preferred.

4-H Campers Win Numerous Awards at Fisher's Landing

Anita Copeland of Beaufort came home with five awards from 4-H camp which was held last week at Fishers' Landing near New Bern.

Anita won the best girl camper award, best handicraft award, 30-yard dash swim, furthest under water swim and the prize for staying under water longest.

Helen Carlton of Morehead City won the back stroke award, and Marie Crowe, also of Morehead City, won the housekeeping award.

Best boy camper was Leonard Parker of Newport RFD. Elmo Gaskill, jr., of Atlantic 4-H club won the back stroke award, Bobby Styron of Stacy won the award for swimming furthest under water, and Dewitt Page of Newport RFD won the boys' housekeeping citation.

Carteret ABC Officer Helps Destroy Two Stills

Marshall Ayscue, Carteret county ABC officer, assisted Craven county officers and federal officers Wednesday in destroying two stills in the Craven Corner section of Craven county.

One hundred thirty-eight gallons of whiskey were confiscated. Each still was of 200-gallon capacity. They were not in operation when officers arrived and no arrests were made.

The governor of North Carolina, Kerr Scott, in an address Sunday afternoon at the Hampton Marine museum dedication service, Camp Glenn, charged members of the Conservation and Development board to serve as faithfully and well as did the man in whose honor the museum is named.

"Roy Hampton wrought well as a citizen of his town, county, and state, and there is opportunity for every member of this board to do likewise," declared the governor as he spoke from the rostrum at the west entrance of the commercial fisheries building.

One hundred fifty persons gathered on the lawn in front of the building to hear Governor Scott and Sen. Carl Bailey, Plymouth, pay tribute to the late chairman of the board of conservation, W. Roy Hampton of Plymouth.

Next to the highway commission, Scott classified the Board of Conservation and Development the most important in the state.

"Work on this board takes tremendous patience, it requires a long time to accomplish things. All who have served here during the years have made great contributions and great sacrifices," he continued.

Water Resources
Looking to the future, the governor prophesied that the next great stride in bettering North Carolina will come with development of the state's water resources.

"Nothing has stimulated this state more than the road program," he declared, "and I may not live to see it, but the next great spur of growth will be along the line of better use of the state's waters." Governor Scott remarked that all

\$22.50 Stolen From Webb Home

An unknown person or persons pulled out a hook on the back door of the Harold Webb residence, 1900 Arendell st., Morehead City, Saturday between the hours of 3 and 5 p. m. and stole \$22.50. Fifteen dollars was taken from a bureau drawer in the bedroom, \$6 from a billfold in the kitchen, and \$1.50 from another drawer, police reported.

The only clue police have is a report of Harry Conway, a neighbor, who said he saw a large colored woman leaving the house that afternoon. The woman, according to the Conway boy, was wearing a gray and white dress.

Police Chief E. J. Willis and Officer Herbert Griffin took fingerprints of the west rear door next to the garage and other parts of the house.

Immunization Clinics End

The annual summer county-wide immunizations for typhoid, whooping cough, diphtheria and smallpox have been completed by the health department. There were eighteen clinics centers, scattered throughout the county, the nurses making three weekly visits to each center.

The response of the citizens was somewhat disappointing, according to the local health officer, Dr. N. Thomas Ennett, but he added that the response is always poor where there have been no recent cases of the diseases. The county has had one very mild case of typhoid this year, the patient being a small child at Broad Creek.

The total immunizations were typhoid, 229; diphtheria and whooping cough (combined vaccination), 12; smallpox, 5.

Vaccination clinics are held twice a week in the health department in Beaufort, Tuesday afternoons and Saturday mornings the year round. Vaccinations are given at the city hall in Morehead City every Thursday night from 6:30 to 7:30.

Faye McCain Hurt When Bike Hits Car Saturday

Faye McCain, daughter of Mr. and Mrs. Guion McCain, 1008 Fisher st., Morehead City, was taken to Dr. Milton B. Morey's office with bruises about the head and face at 12:30 p. m. Saturday, after her bicycle collided with a 1951 Chrysler club coupe driven by Ann Beale of Mount Airy.

Dr. Morey reported the bruises as minor. The accident occurred between 10th and 11th on Bridges st. when, said Miss Beale, the little girl ran into the side of her car which was traveling westward. The child was immediately taken to Dr. Morey's office by the driver of the car.

Mayor Dill Accepts Safety Plaque for Morehead City

On behalf of the town of Morehead City Mayor George W. Dill accepted a plaque honoring the town for having no traffic fatalities during 1950.

The plaque was presented to the mayor in ceremonies yesterday afternoon at the town hall in the presence of D. G. Bell, police commissioner, and E. J. Willis, chief of police.

Making the presentation was Z. E. Helms, chief of driver improvement service of the State Highway department and Tarvia Jones of the safety division. Morehead City is a member of the National Safety council, and one of 16 towns in the state to receive this award.

Seamon Appoints OPS Committee On Restaurants

J. L. (Tony) Seamon, Morehead City, president of the North Carolina Restaurant association, has named three restaurant owners to serve as an advisory committee to Eastern Carolina office of price stabilization.

Director J. G. Clark, OPS, in making the announcement of the committee appointments, said, "These men, outstanding in their field, will bring valuable advice to the Raleigh OPS which will enable us to better administer the restaurant regulation."

Serving on the committee will be Harvey Rape of Durham as chairman, J. W. Knowles of Rocky Mount and Jack Hodge of Wilson. The committee will serve as liaison between the restaurant industry and the Raleigh OPS. This committee was appointed at the request of the OPS in keeping with a policy of cooperating with the various industries affected by the price control program. The volunteer group will act in an advisory capacity on matters relating to the restaurant industry.

Seamon automatically became president of the North Carolina Restaurant association when the newly-elected President Tingle of Asheville accidentally was killed several months ago. Seamon was vice-president. He owns and operates the Sanitary Fish Market and Restaurant, Morehead City.

Nine Petitioners Appear Before Conservationists

Nine fishermen and representatives of the fishing industry appeared before the Board of Conservation and Development Friday morning at the fisheries hearing in the commercial fisheries building, Camp Glenn.

Sen. S. Bunn Frink, Southport, presented the case of Southport shrimpers who requested that the \$1.50 tax per gross ton on trawls be levied on shrimpers. Frink said the Southport shrimpers were willing to pay \$10 per boat and 15-cent tax per hundred pounds on headed shrimp, but were not willing to pay the tax on the gross ton.

This tax, provided for in Sec. 113-105, has been law since 1933 but the tax never was collected. In revising the fisheries laws, the 1951 general assembly inadvertently repealed the \$10 tax per boat and the 15-cent shrimp tax, however law 165 stayed on the books.

Frink contended that a shrimp is not a trawl and therefore not taxable. He requested that if the board did not agree with him on that theory, that they interpret the law as referring only to the large "fish trawls."

The senator also requested that a reciprocity agreement be worked out with other states in regard to taxing of out-of-state shrimp boats. Supporting Frink's argument in speaking before the board were W. G. Wells and Louis Hardee, both of Southport.

E. S. Lupton of Pamlico county, asked that the board pass a regulation.

Beauty Pageant Contestants Will Leave Thursday

Miss America of 1950, Metropolitan Singer, Author Are Among Judges

Miss Lois Simpson and Miss Carroll Ann Willis, representing Morehead City and Beaufort, respectively, will leave Thursday morning for Burlington where they will enter the Miss North Carolina pageant.

They will be driven to the pageant city in a Nash automobile and accompanied by Mrs. Mattie Simpson, Miss Morehead City's mother, Miss Betty Lou Rice, and Ralph Gardner. The group will return Sunday.

Judges for the contest were announced Saturday. They are Miss Yolande Betbeze, Mobile, Ala.; Miss America of 1950, Norman Gordon and James Street of Chapel Hill; Mrs. Harriet Pressly, Raleigh; Dick Martin, Jr., and Howard Hylton, both of Danville, Va., and Bill Miller, Columbus, Ga.

Miss Betbeze was selected Miss America in Atlantic City, N. J., last September and will be in Burlington both days of the Miss North Carolina Pageant.

Cordon has had a distinguished career as a concert stage and Metropolitan Opera singer.

Street is known as one of America's better novelists.

A Raleigh mother, grandmother and the wife of the president of Peace college, Mrs. Pressly has had many years experience as a commentator on radio station WPTF, Raleigh.

Dick Martin, Jr., president of the Danville, Va., chamber of commerce and first president of the Virginia Jaycees, will also be one of the judges.

The immediate past president of the Georgia Junior Chamber of Commerce and recipient of an award as one of the outstanding Jaycee state presidents in America is Miller of Columbus, Ga., another judge. He is awards chairman of the United States Junior Chamber of Commerce.

Hylton is executive vice-president of the Danville, Va., Chamber of Commerce and vice-president of the Virginia Association of Commerce Executives.

Judging will be modeled after that of the Miss America pageant. Not only will the contestants be judged on their talent, poise, personality and other traits on the stage, but they also will be with the judges throughout both days in order that they can be judged on the characteristics felt desirable for the winner.

Official Describes Chamber Program

The United States chamber of commerce reflects the attitudes of all local groups, Duane Strawbridge, program advisor for the southeastern division of the United States chamber of commerce, told Morehead City Rotarians Thursday night.

Speaking on "National Affairs" in the First Baptist church Sunday school, Strawbridge, introduced by D. G. Bell, chamber of commerce president, gave a complete picture of chamber of commerce work. Every member except two were present to hear the talk, along with visitors C. N. Wade, Charlotte; Henry G. Edwards, Newport; Sylvester Green, Chapel Hill; Sterling Wooten, Goldsboro; Robert Bryson, Goldsboro; E. L. White, Wilmington; and Lindsay Morris, Winston-Salem, brother of Dr. John Morris.

President George H. McNeill announced that next week's Rotary meeting will be in the form of a fish fry at Thomas Lewis' Bogue sound residence.

Chamber of Commerce Members Hear Strawbridge

Duane Strawbridge, speaking to chamber of commerce members in the Beaufort town hall Friday night, urged them to let Congressmen know home sentiments on national and international affairs.

He stated that the duty of the legislative affairs committee of every chamber of commerce in the United States, of which there are 2,700, is to promote and foster local interest in national legislation.

Strawbridge, who is program director of the southeastern division of the chamber of commerce of the United States, spoke yesterday in Wilmington.

Morehead City Town Commissioners To Consider Sale of USO Building

Firefighters, Rain Bring End To Carteret's Forest Fires

County forest fires were brought under control late Saturday, E. M. Foreman, county fire warden, reported yesterday. Fire trenches had been dug around them, and with the help of a heavy storm Saturday afternoon ground fires were extinguished.

The burned areas were patrolled throughout the weekend to detect recurrences.

Both the Wildwood and Long Bay fires started Tuesday and continued to eat their way through brittle, dry forest and underbrush the rest of the week.

A small fire at Sea Level broke out Wednesday but was brought under control in several hours. That blaze started from a trash fire.

Saturday afternoon's thunder storm was the opening gun for a weekend of intermittent showers, gladly welcomed by Carteret county farmers. Rain fell late Sunday afternoon and more or less constantly yesterday.

Two tractor units from New Bern and Jacksonville were brought into the county to fight the fires. Also in use were the North Carolina Pulp company's tractor and plow. In addition to local firefighters there were two men from Jacksonville and a crew of five from New Bern.

150 Attend JC Fish Fry at Hut

One hundred fifty persons attended the Morehead City Jaycee-sponsored "Ole Timey Fish Fry" at the Legion Hut Wednesday. By 7 p. m. \$105 had been taken in, with an additional intake of \$25 anticipated upon return of all receipts.

The fish fry was so successful that Cook William Orton had to order an additional 25 pounds of bluefish. Jaycees, accordingly, will plan another fry in the near future.

At the Jaycee meeting at Hotel Fort Macon Monday James Wallace stated that Lois Simpson, Miss Morehead City, is being prepared for the approaching Miss North Carolina beauty pageant by Miss Mary Lou Paulsen.

Chairman Sam Hatcher announced that plans are being completed for the mosquito spraying project, and Howard Ferguson was named to the church traffic project in place of H. S. Gibbs, who is returning to active duty with the Army. Bernard Leary, football chairman, stated that Greenville has been added to the high school schedule, and that new football pants are on display at Leary's store.

Ferguson then entertained Jaycees with a talk on the Korean war from its start to the present time. Ferguson is a former Marine Corps pilot who flew combat missions in the Korean war.

Following the Korean war talk, P. H. Geer welcomed Oscar Ely and Robert Phipps as new members.

Walter Morris will have charge of the July 23 program.

Lions Give \$50 For Needy Family

Morehead City Lions club members voted to donate \$50 for a needy family at their meeting at Capt. Bill's restaurant Thursday.

Three Lions, J. G. Bennett, Lewis Wilson, and Frank Moran, indicated their willingness to attend the 25th anniversary of the Pikeville Lions club tomorrow.

Incoming President Oscar Allred's first job was to pass around committee selection circulars asking for suggestions. Members, accordingly, indicated their choice of committees. Allred will appoint the various committee chairmen.

Getting down to details, President Allred said that with the subtraction of dinner and program time from each business meeting, only 12 1/2 hours of actual business time remains for the whole year. Lion members should, therefore, make as much of their limited business time as possible at each meeting, he declared.

Dock Worker Injured

Archie Frazier, colored dock worker, was slightly injured Friday afternoon when he was caught in a net reel. He was treated at the John Way's office for chest and back abrasions.

Hospital Trustees Agree To Welfare Board Proposal

The Morehead City hospital board of trustees, in regular session Thursday night at the hospital, decided that they would accept the welfare department's proposal of \$5 per day payment for an unlimited number of days in charity patient cases.

The hospital had requested \$8 a day. The proposal accepted will be carried out on a trial basis.

In regard to other hospital matters, Hoyle Green, administrator, stated that the elevator installation at the hospital is expected to be complete in three to four weeks.

State to Devote Effort to Luring Defense Industry

The State Board of Conservation and Development, in special session Saturday at the commercial fisheries building, Camp Glenn, approved exertion of special effort to bring new industry to North Carolina by publicizing its areas of "accessible isolation."

For six months representatives will be stationed in New York and Washington. Charles S. Allen, Durham, chairman of the commerce and industry committee, recommended that members of the armed services be invited to hold one of their defense materials clinics in this state.

Coastal Plain company oil leases were extended 90 days and terms of a proposed lease to the National Lead company for lithium rights in coastal sounds were left to Director George R. Ross, State Geologist Jasper L. Stuckey, and the Mineral Resources committee, to be referred to the attorney general and council of state.

The new State Travel bureau under the State Advertising division was recognized as being important enough to be on a par with the State News bureau. During May there were 24,480 inquiries received by the bureau. State travel advertisements will be signed by that name to avoid the length of the full department's signature and to distinguish them from the commercial advertisements.

Advertising contracts with Bennett Advertising, Inc., of High Point were renewed for two years. By recommendation of Charles Parker, state advertising director and the advertising committee, the department of motor vehicles will be asked to have a North Carolina slogan on the 1953 automobile license plates. "Variety Vacationland" was tentatively chosen.

Formal approval was given to the Tryon's Palace commission acceptance of the \$1,000,000 bequest of the late Mrs. J. E. Latham of Greensboro for restoration of the first State Capital at New Bern.

Another resolution authorized acceptance of the deed to the James Iredell House at Edenton from the Edenton Tea Party Chapter DAR and the drafting of a contract for operation of the house by the James Iredell Historical Association.

Governor Kerr Scott was thanked in a special resolution for his aid in stressing industrial expansion throughout the State. The next meeting of the Board will be held Oct. 15-16 at Pinehurst.

The commercial fisheries committee will conduct a hearing at Manteo this morning. The entire board will attend the performance of The Lost Colony tonight and will view the site of Cape Hatteras state park on the return trip to Morehead City tomorrow.

Chairman of board committees, appointed Friday afternoon, are as follows: Staley A. Cook, Burlington, advertising; Charles S. Allen, Durham, commerce and industry; Mrs. Roland McClamroch, Chapel Hill, commercial fisheries; Walter J. Damtoft, Canton, forestry.

Aubrey L. Cavanaugh, Warsaw, water resources (inlets and coastal waterways has been combined with this committee); W. B. Austin, Jefferson, mineral resources; Dr. Sylvester Green, Chapel Hill, chairman of parks and the conservation congress.

The USS Camanche, a Sanborn and an LST were at Morehead City tomorrow, returning from participation in Marine maneuvers.

The Morehead City town board will be requested tonight to formally approve a decision to sell the former USO on Shepard st., Morehead City. The board will meet at 7:30 in the municipal building.

Mayor George W. Dill said yesterday that the town attorney has been requested to draw up a request for bids on the purchase price of the building itself and that the equipment inside will probably be sold at public auction.

The board has been considering sale of the building for the past year and the mayor said that at an "informal discussion" during the past week at the town hall it was agreed that first steps should be taken toward disposing of the property.

"Eating Cancer"

"That building is an eating cancer," the mayor declared. "It requires a night watchman, a janitor, and the whole thing is going to pieces. It's costing the town too much to keep up."

The annual maintenance figure is \$3,000 annually and it has been estimated that depreciation nears \$5,000 a year.

At a special meeting several weeks ago when the town authorized purchase of the second police prowl car, the mayor was requested to contact Marine officials at Cherry Point to determine whether the Marine corps would be interested in contributions to support of the building as a USO. It was also believed for a period of time that the federal government would reactivate USOs.

No Help Coming

With no evidence of support coming from those sources, town officials feel that Morehead City itself can no longer maintain the building.

The USO was built during the second world war at government expense. The property on which it stands was sold to the government at a token sum and at the conclusion of hostilities and curtailment of the USO program, the town, after extensive negotiations with the government, bought the property back.

Since that time the building has been used as a civic auditorium and for private parties as well as a town teenage recreation program. The town rapidly discovered that the construction was of the type to last, at best, six or seven years without extensive repair and maintenance.

There has been continuous strong feeling among townspeople against sale of the building, but town officials contend that the average person does not realize the hazardous condition of the structure. To prevent a further drain on town funds, the mayor believes that sale is the only solution.

Driver Faces Charge; One Hurt

Ralph John Gillikin, Williston, has been charged with driving a car without an operator's license, and Richard Warren Gillikin, route 1 Beaufort, was slightly injured as the result of a collision at 11:15 p. m. Saturday on the Harkers Island road.

According to Highway Patrolman J. W. Sykes, who investigated, Ralph was driving a 1934 coupe and Richard a 1948 sedan. Both were proceeding north on the Harkers Island road.

At the first curve Richard said he ran up behind Ralph's car but didn't see it. He attempted to turn out to avoid it but struck its rear left fender.

Richard's car skidded 300 feet and in the process the driver was thrown out. He suffered a slight back injury and skin abrasions on one arm. The car ended up in the front yard of a home while the coupe proceeded one half mile ahead on the road.

Damage to the coupe was estimated at \$50, to the sedan between \$500 and \$600. Ralph told the patrolman he was going 35 miles an hour and Richard said he was going 50.

Assisting Patrolman Sykes in the investigation was Patrolman W. E. Pickard.

Eastman Furniture Store To Open at 3 Tomorrow

Eastman Furniture company's new store at 7th and Arendell st., Morehead City, will open tomorrow afternoon at 3 o'clock with Mayor E. L. White of Wilmington and Mayor George W. Dill of Morehead City participating in the ceremonies.

The store will remain open throughout the afternoon and evening until 9 o'clock.

Carteret county's most modern structure, the Eastman building has been in course of construction since February.

State to Sell Two Patrol Boats

Fisheries Committee to Make Supplemental Report This Week

The commercial fisheries committee, in session Friday afternoon at the commercial fisheries building, Morehead City, requested the director of the Board of Conservation and Development to dispose of the state boats, Pamlico and Hatteras, as soon as possible, passed a resolution requesting Marine officials and Army engineers to refrain from extending bombing target areas in coastal waters, and directed that the commercial fisheries commissioner shall be appointed with full consideration of any recommendation made by the director of the Board of Conservation and Development.

The commercial fisheries commissioner post has remained vacant since the retirement of Capt. John Nelson.

The Pamlico will be sold because it has been found too expensive to operate, and the Hatteras is obsolete. Action to stall further enlargement of bombing areas was taken at the request of fishermen.

No Action Taken

No action was taken on the request of Southport shrimpers that shrimping boats not be classed as trawlers, but it was generally understood that it was the consensus among commercial fisheries committee members that shrimping vessels should be classed as trawlers and thus be subject to the tax of \$1.50 per gross ton except for small boats not documented in the

See PATROL BOATS, Page 2

Chamber to Plan Program for Year

The 1951-52 program of the Beaufort chamber of commerce will be discussed tonight at the annual chamber dinner meeting at 6:45 p. m. in the American Legion hut.

The guest speaker will be Gen. W. L. McKittrick, USMC, commanding general of the Second Marine Air Wing, Cherry Point. Among the invited guests are D. G. Bell, president of the Morehead City chamber of commerce and Mr. and Mrs. J. A. DuBois, Morehead City. DuBois is manager of the Morehead City chamber of commerce.

Officers for the coming year will be installed and Braxton Adair, president of the Beaufort chamber will report on the past year's activities.

Two hundred twenty ballots for chamber directors were mailed last week. The ballots carried 20 names. Ten directors will be elected and officers will be selected from that group.

Tonight's dinner will be served by members of the Order of Eastern Star, Beaufort chapter.

Lightning Damages Two Homes in Saturday Storm

Lightning damaged two homes in this area Saturday afternoon. A tin gutter was ripped loose from the home of Mr. and Mrs. John Lashley, 1213 Arendell st., Morehead City, and the chimney on the Steve Mason home, Ann st., Beaufort, was damaged.

Morehead City firemen rushed to the Lashley home at 1:45 p. m. during the height of the electrical storm. The badly scorched gutter was the only damage reported.

Bricks were knocked from the Mason chimney and the house was filled with smoke. Occupants of the home were badly frightened, but other than the fallen bricks, no damage was caused.

Allen Willis, Broad Creek, Faces Assault Charge

Allen Willis, Broad Creek, will be tried today in recorder's court on the charge of assault with a deadly weapon.
