

Marines Get Invitation To Witness Ceremony

Cherry Point—During their current cruise of the Mediterranean, a number of personnel of Marine Fighter Squadron 122 were invited to witness a rare double canonization ceremony by Pope Pius XII. The Catholic church bestowed its highest honor, sainthood, on two nuns, Emile De Vialar and Maria Matzearello.

Following the ceremony, the Marines were guided on tours of St. Peter's Basilica, Vatican Museum, the Catacombs, old Roman Forums and the Colosseum. The fighter squadron is currently based aboard an air craft carrier, detached from its mother unit, the Second Marine Air Wing, Cherry Point.

To Show Calves
County 4-H boys are grooming their calves for showing at Wilmington Sept. 27 and 28, James Allgood, 4-H adviser, announced today.

The U.S.S.R. is an extensive fur producer and its rivers and seas are abundantly stocked with all types of fish.

Bible Lines

"Wailing and Gnashing of Teeth"
PREACHING to His disciples, Jesus said:
"The Kingdom of Heaven is like treasure hid in a field, which when a man has found, he hides, and for joy gets and sells all he has, and buys that field."
"Again, the Kingdom of Heaven is like a merchant seeking goodly pearls: Who, when he had found one pearl of great price, went and sold all that he had, and bought it."
"Again, the Kingdom of Heaven is like a net, cast into the sea. When it was full, they drew to shore, and sat down, and gathered the good into vessels, but cast the bad away. So shall it be at the end of the world: the angels shall come forth, and sever the wicked from among the just. And shall cast them into the furnace of fire: there shall be wailing and gnashing of teeth."
(Taken from St. Matthew, 13: 44-50.)

TODAY'S Meditation

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Nature Speaks of God

FRIDAY, AUGUST 3
"... the invisible things of him ... are clearly seen, being understood by the things that are made, even his eternal power and Godhead; ..." (Romans 1:20.) Read Psalm 103:1-13.
A group of Christian South Sea Islanders were one evening standing on a jetty. The sky was ablaze, and the sea a tide of burning light. These Christians were rejoicing in the sunset. Their joy had a double quality. They were seeing old things through new eyes. "We never noticed these sunsets," they said, "until Christ changed our hearts."
The awe of nature, from which ignorant hearts might well shrink, possesses grandeur when the heart glows with Christ's love. Only then do "the heavens declare the glory of God." Only then does nature speak the same language as our hearts.
If we are "hid with Christ in

God," we see in the majesty of mountains, sea, and storm, the mighty works wrought by none other than the almighty God. It is this same God, our heavenly Father, who holds us safely in His infinite love. Who of us can fathom His power and His love? God's might does not destroy our confidence in His love.

PRAYER
O God, we see Thy majestic greatness in all that Thou hast created. We give thanks to Thee for creating us in Thine own image. We thank Thee also for recreating us by Thy Son. May others see Thee in us, through the grace of our Christ. Amen.
THOUGHT FOR THE DAY
The God of might is also the loving Father.
A. Ernest Chancellor (Australia)

State Has 25 Industrial Buildings for Lease, Sale

Raleigh—A list of 25 industrial buildings available for lease or sale in North Carolina has been issued by the Division of Commerce and Industry of the Department of Conservation and Development. The buildings contain 4,139 to 109,000 square feet.
Paul Kelly, head of the division, said the new list supplements previous listings.
In addition, Kelly said, a large number of North Carolina communities and special groups have organized to finance construction costs of industrial buildings to meet the individual need of industrial prospects. These may be leased, he added, with option to purchase. Details are available from the Division of Commerce and Industry.

Road Program Nears Two-Thirds Completion July 1

Raleigh—Nearly two-thirds of Governor Scott's requested 12,000-mile paving goal on secondary roads under the \$200,000,000 bond program had been completed by July 1, Highway Chairman Henry W. Jordan reported today.
Cumulative figures from the 10 highway divisions show that 7,585 miles of farm-to-market roads have been hard-surfaced in North Carolina since Jan. 1, 1949. During the same period, 10,696 miles of roads have been stabilized for all-weather travel.
Chairman Jordan said the total mileage of paving on county roads represents 83 per cent completion of the secondary road building program provided by the bond issue.
At least 11 counties have passed their projected paving goals since the program got under way. They are Johnston, Wayne, Davidson, Harnett, Hoke, Moore, Robeson, Scotland, Anson, Montgomery and Richmond.
The mid-state sixth highway division, for which George S. Coble of Lexington is commissioner, continued to lead all other sections of the state in miles of road paved. The sixth reported 1,323 miles of secondary roads hard-surfaced through June 30. Next came the seventh division, under the direction of Commissioner M. Otis Poole of Candor, with 1,093 miles of paving completed.
Figures on county road paving in other divisions since the bond program started are: first division, 684 miles; second (includes Carteret), 709; third, 926; fourth, 964; fifth, 501; eighth, 450; ninth, 578; and tenth, 356 miles.
The figures do not include resurfacing. In the first six months of the year, total paving under the program increased from 5,811 miles to 7,585, a spurt of 1,774 miles.
Through June 30, the commission had made allotments for \$131,378, 193 of the \$200,000,000 bond issue, and actual expenditures on bond roads had totaled \$94,731,931.

Are You Wrapped Up In Your Possessions?

Ask Harry Hazard
Too many people forget their personal belongings and ignore the various ways in which they may be destroyed when planning their insurance.

Specialist Gives Advice on Canner

By RUTH CURRENT
If the canner has a rubber gasket, keep it clean and grease-free. If the rubber in a removable gasket shrinks, stretch it carefully between the fingers until it fits the rim. Some types of rubber gaskets may be turned upside down when they no longer give a perfect seal in the original position. If the gasket in use won't make a perfect seal, get a new one.

clean the ball and the socket into which it fits with silver polish. After the canning season is over, be sure the canner is clean before storing it. Wash the kettle in hot sudsy water and wipe off the lid with a soapy cloth, then with a clean, damp cloth. Dry thoroughly.
Smear the threads of screw locks or thumb nuts with a thin film of any salt-free oil to prevent rust. Place crumpled newspapers inside wrap the lid in paper. Put the kettle to absorb moisture, and on upside down so the air can get into the kettle and keep it sweet.
