with you on certain points relative to a Cancer Control Program by our local medical society.

The membership of our Society is so small (13 doctors in the whole county), it is hardly practical for us to set up a standard Cancer Clinic; however, the Society is interested in making its services available in cancer control.

Since many of our patients will be medically indigent, we are wondering if the cancer division of the State Board of Health can provide biopsy and x-ray examinations.

The Society feels that a lack of these facilities would invalidate any type of cancer control service we might set up.

If you can provide the biopsy and x-ray examinations I feel confident that our medical men would attempt a cancer control program.

I might add that the Society is 100% in favor of a cancer program and will contribute their services without compensation.

With best regards,  
Sincerely yours,  
C. S. Maxwell, M. D., President  
Carteret County Medical Society.

The club last year initiated a program to have a cancer detection clinic established in the county.

Miss Morris was appointed scrapbook and cheer chairman and Mrs. Florence Beam chairman of the Christmas card sale project. Mrs. Ladigole Lindsay, membership chairman, reported that the club membership numbers 23.

Mrs. Becky Smith reported on National Business Women's week activities. The club attended breakfast in a group Sunday morning at the Jefferson restaurant, Morehead City. Following breakfast, Mrs. C. L. Beam, who was in charge of the program, introduced Mrs. E. L. Davis of Beaufort. Mrs. Davis spoke on prayer.

Following the business meeting Mrs. Henderson presented a program on first aid.
