"The number of problems confronting the farmer today are much greater than ever before. This is only a natural and expected occurrence as agriculture becomes more highly mechanized. The nickel contribution on each ton of feed and fertilizer if voted on favorably will be the farmer's effort to help himself get some of the answers to the questions that he is confronted with daily."

County Nears Bond Drive Goal

Since the beginning of the defense bond drive Sept. 3, \$77,849.25 worth of series E, F and G bonds have been purchased by individuals in Carteret county, Victor Wickizef, the county chairman, announced today.

The drive will continue through Nov. 13, Wickizef said, by which time it is hoped the county quota will be exceeded. The county E, F and G quota is \$85,000.00 and 91.5 per cent of the goal has been reached in six weeks of the ten weeks' drive.

Wickizef stated that "the purchaser of a defense bond does more than merely make an investment, important though that may be. He is helping in a very real way to fight inflation, to aid his country in building its military strength, to maintain economic stability — in fact, he is purchasing a share in the future of America."

In pointing out the principal purposes of the defense bond drive, Wickizef said "they are to maintain and increase the wide distribution of the public debt among as many of the American people as possible, to discourage inflationary spending at a time when inflationary pressures arising out of the defense program are strong, and to encourage the continued practice of thrift and savings among the American people."

Woman Says Bill Warren Should be in Washington

Bill Warren of the Sanitary Barber shop, Morehead City, this summer found a check worth several hundred dollars in Morehead City. Not being able to find the person to whom the check was made, he returned it to the bank.

Recently Warren received the following note from Lavinia Bye, the woman who had made out the check:

1300 Jackson Street
Wilmington, Delaware
Dear Mr. Warren:
The Newark Trust Company forwarded to me your note with check enclosed. I had mailed the check to my god-daughter whose husband is stationed at Cherry Point and, of course, I have no idea how it found its way to your shop.

Your consideration in forwarding it to the bank is appreciated. Men of your character and honesty are needed in Washington, but how alone you would be!

Thank you so much for your kindness and thoughtfulness.
Sincerely,
E. Lavinia Bye.

Rent Director Explains Ruling Under New Law

The federal rent control law provides that all rental accommodations in four counties in the Camp Lejeune-Cherry Point area must be registered at the rent office.

Units which already are under rent control need NOT be re-registered again, as maximum legal rentals have already been established, stated John Mason, Morehead City rent director, today.

However, rental units which up until now have not been under rent control must be registered with the Rent Office not later than Nov. 14. Units which are now being brought under control include new construction, apartments which resulted from conversion, hotels, motels, trailer camps, rooms in rooming houses and rooms in private homes. This means that with certain exceptions — such as farm tenant housing — all rental dwelling accommodations in the area are subject to rent control.

Rental units in Carteret county should be registered at the rent office in Morehead City, and units in Jones and Craven counties at New Bern. Jones county has never before had federal rent control and all rental dwelling units there will be registered for the first time.

Although the deadline for registering is Nov. 1, rent control officials have urged that all units be registered at the earliest moment. Registration forms are available at the appropriate rent office.

Rent control personnel will assist landlords in filling out the forms at the office, or they may be filled out later and mailed to the rent office. Three types of forms are used. One covers apartments and houses. Another is for rooming houses, motor courts, trailer camps, rooms rented in the landlord's own home and similar accommodations. The third is for hotels.

In registering property coming under rent control on Oct. 15, 1950, a landlord must show the rental charged on July 1, 1950, the base rental date for the Lejeune-Cherry Point area. Generally, the maximum rent for such accommodations will be the rent in effect on July 1, 1950.

However, if a landlord of housing See RENT, Page 2

John Memakis Speaks to Rotary

John Memakis said at Thursday night's Morehead City Rotary meeting that before he went to Greece last spring, he felt Marshall Plan aid to Europe was a great waste of money. After he got there, he continued, he realized that it was saving such countries as Greece from going into the Communist camp.

Memakis has been back in town since Aug. 29. At the meeting, held in the Sunday school rooms of the First Baptist church, Memakis told the members that to him America was still the best country on earth.

During the business meeting, the club announced that Rotarian units in Greenville and Kinston had sent letters stating their support of Morehead City's Stanley Woodland for district governor.

Guests were Claud Croft and Norman Benson of Durham, Gene Edwards of Wilmington, Ham Marks, former district governor, Murry Tolson of Ocracoke, and Dr. Spence of Melbourne, Fla.

One of the four men who escaped from a Newport prison camp road gang Oct. 8 remains at large today. Willis Moore, 18, who was serving three years and six months for assault, has not been recaptured.

The other three have been picked up by officers. David C. Barnes was apprehended in Pitt county two days after the break, Robert Chase was captured at Harlowe five days later, on Oct. 12, and Charlie Moore was picked up Sunday night, Oct. 21, at Bayboro by a highway patrolman stationed in Pamlico county.

Search Continues
W. R. Skinner, superintendent of the Newport prison camp, said authorities are continuing the search for 18-year-old Moore.

The four made good their escape three weeks ago while working on the Adams creek road eight miles from highway 101 near Long Creek. They disarmed a guard, stole a state highway truck, later a pick-up truck and then a car.

Classification Changed
Superintendent Skinner, in reporting yesterday that Moore was still a "free man" also announced that Newport prison camp was changed Saturday to an honor grade camp. Only honor grade prisoners will be kept there and there will be no more guards over road gangs.

As the result, one guard, Moses Smith, has been transferred to his home county, Greene. Guards will still be on duty about the camp, Superintendent Skinner explained. At present there are 61 prisoners at Newport.
