**Self-Employed Need Number**  
 Self-employed persons in a trade or business who came under social security for the first time on Jan. 1, 1951, should make sure that they have a social security card, according to N. A. Avera, manager of the Wilmington social security office. These persons will need a social security number at the time they file their first social security return, says Avera. This report will be filed in conjunction with income tax returns. The first such report from self-employed persons will be made in 1952 for the year 1951.  
 It is pointed out by Avera that under the terms of the amended social security act, federal old-age and survivors insurance is extended to most nonfarm and self-employed individuals who have incomes from trades or businesses which they operate either as sole owners or as partners.  
 Self-employed persons who have never had a social security account number card or who have lost their card are urged to secure one now

**NEW! Family Polio Policy**  
**3 YEARS' INSURANCE Pays \$5000**  
 Costs Only \$13 for Average Family  
 Polio is one of the most expensive of all diseases in costs of treatment. Unlike many illnesses, initial costs are but a small part of the total expenses. Recovery is a long drawn-out process. Sister Kenny treatments or similar muscle building processes usually take many months, or even years.  
 Here is a policy that will pay up to \$5,000 total to assure you of the best available treatment for each member of your family afflicted by this dread disease.  
 Policy term runs for three years, not just one or two years. In addition, if polio strikes, benefits are payable from the first day up to three years to give you ample time for treatment and recovery. Thus you could receive benefits well beyond the end of the policy term.  
**HOW TO GET THIS POLICY:**  
 Fill in and mail the application blank below today! Or, bring it in to us right away!
