41st YEAR, NO. 85.

TWO SECTIONS

Morehead City Commissioners Approve

Phone Company Explains **Proposed Rate Increase**

and Telegraph company and mem-bers of the board of directors of the Beaufort Chamber of Com-

the Beaufort Chamber of Com-merce, was to give Carolina T and T representatives an opportunity not like to raise rates any more to explain the company's position than consumers liked to have them in asking for telephone rate increase for Beaufort.

Student Hearing Held in Beaufort

school boys and girls were told by Beaufort Mayor L. W. Hassell at a special hearing in the Town Hall yesterday that they were welcome in Beaufort anytime, and the town hoped that they would come over, have a good time and enjoy them-selves.

The mayor told them also that in the future to please come without eggs or other matter which might prove offensive.

The hearing was the outcome of the incident which occurred in Beaufort Thursday night, Oct. 9, before the Beaufort-Morehead City football game. At that time, police reported that eggs were thrown at homes in Beaufort and air was let out of the tires of a car belonging to the Beaufart school princi-

pal, Bruce Tarkington.

A warrant signed by Beaufort Police Chief Carlton Garner had been issued but Mayor Hassell reports that he did not even read the warrant to the students because of their penitent attitude.

The hearing was attended by R

S. Eury, whose home was one the objects of the Morehead City students' mischief.

Morehead City high school principal G. T. Windell accompanied the students to the hearing. Four or the students to the hearing. Four or five girls were among the students present, although no girl's names had been listed on the warrant. The warrant charged the students with loud and boisterous rioting through the streets of Beaufort, damage to personal property by throwing eggs and other missiles— to wit, the home of Ralph Eudy

and the auto of Beaufort school principal Bruce Tarkington. The mayor told the Morehead City students that they could be tried for such an offense, but he said, "I am not going to try you." But he told them not to commit any such similar offenses in the

Present at the hearing was Dr.
D. J. Eure, chairman of the More-head City school board. Eure told the mayor that the action of the lents was very poor sportsmanship and was to be regretted. He ship and was to be regretted. He told him also that "We want to, in every way possible, cement a "friendly spirit between the two schools." "We regret this, it was rough and we are ashamed of it."

Eure said that the boys were shamed of their action, sorry that

With the Armed Forces

ashamed of their action, sorry that it happened, and felt that the hear-ing would in the long run promote better feeling between the two

Eudy told the students that he was sorry that the incident had occurred and sorry that, as a re-sult, the students had to be called to the hearing. He added that he hoped it would not happen again.

Chamber Plans **Dinner Meeting**

of the Carolina Telephone grateful for the opportunity to ex-

merce last Friday afternoon.

The meeting, at the request of to explain the reasons for the in-

pany could not operate unless : Attending the meeting to explain the company's request for increased rates were W. C. Darrow, general commercial manager from Tarboro, and A. E. Jones, chief ending the meeting to explain the company services and the company and it cannot operate unless a certain return set up under government regulation, was realized. Unless rates are raised, that return cannot be gained by his company and it cannot operate. He told the gineer of the company.

Darrow told the Chamber of that his company was a monopoly which is government regulated and company had petitioned the Utili-ties Commission for an increase of some \$1,500,000. But, he said, only \$625,000 of that would be money going directly to the company. The industry realizes. When inflation remainder requested would be paid strikes and costs to the company in taxes. The Utilities Commission has been asked to grant a hearing prices to meet those increased costs unless granted permission to do so.

Inflation Blamed

Darrow said that the new request for rate increases was a direct result of inflation which had sky-rocketed costs of the telephone company as well as a result of increased service in this area. In-creased taxes which must come from the consumer have also shot

up costs of telephone service. He told the board members that in 1947 his company had an investment of some \$62,000 in Beaufort. In 1952 \$210,500 was invested there, representing an increase of 254.6 per cent. The number of phones, he said, had been increased from 1655 to 2958. These figures, he indicated, represent an in-creased investment of only 84 per cent in phones, compared to the 254 per cent increase in money investment. This is a reflection of the increased cost of supplies during this period.

His company, according to Dar-row, wishes to still further in-crease service in this area, but an increase service in this area, but an increase in service calls for additional money. Money must be obtained from investors who can be guaranteed a fair return on that investment. That fair return can
