## **Arnold Borden** Gets \$100 Fine, **Loses License**

### Appeals to Higher Court **After Being Convicted** On All Five Charges

Arnold Borden was given a 90-day suspended sentence Monday in Morehead City recorder's court after his trial on five charges growing out of an automobile accident June 25 on Arendell street. Six persons were injured in the acci-

Judge George H. McNeill found Borden guilty of speeding in ex cess of 75 miles per hour, speed-ing in excess of 55 miles per hour, speeding in excess of 35 miles per hour, careless and reckless driving and assault with a deadly weapon.

Judge McNeill suspended the sentence on condition that Borden pay a fine of \$100 and costs and refrain from driving for a period of one year.

Borden's counsel, Claud Wheat ly of Beaufort, served notice of an appeal to the October term of superior court. Bond on the appeal was set at \$1,000.

Several witnesses testified that Borden was driving at a speed at least 75 miles per hour when he struck a car operated by Mrs. Rey nolds May of Greenville and knock ed it into a tree, a telephone pole

and a parked car.
Officers who investigated the ac cident testified to the amount of damage to the three cars involved in the accident and to the distance the cars were knocked by the force

Testifying in his own behalf, Borden said that he did not know what happened. He maintained that he remembers nothing about the ac-cident or the events immediately before it. He said that he did not know whether he suddenly blacked out or whether the spell came on

scious recollection was when he passed the Webb Memorial Presby-terian church about 14 blocks from the scene of the accident. He said that the next thing he remarks the second of the scious of the damage to tobacco in this county was caused by nem-that the next thing he remarks the scious of the that the next thing he remembers is when he woke up in the hospital several days after the seident. He said that he was not sure how many days later it was.

Borden also testified that he had not known the time of the accident until he heard a police officer testify to the time at the trial.

He said that it could be that he was conscious at the time of the accident and has since suffered retrograde amnesia. He said, however, that he did not know if that had happened. Mrs. May, who suffered multiple

fractures in the accident, is still undergoing treatment at the More-head City hospital. Her daughter, Mary, 11, who suffered a ruptured spleen, ruptured liver and frac-tured arm, was released from the hospital about three weeks ago. Mrs. May's mother, Mrs. Mae Garris, was released from the hos-

pital with her granddaughter. Louis May, 14, and Sue Parrish, 12, were treated and released after the accident.

Borden received lacerations the head and arms and chest in-juries. After treatment at the Morehead City hospital, he was taken to Memorial hospital, Chapel Hill, for further checkups. He was

## County Agent Reports Leaf Crop 'Pretty Good

R. M. Williams, county farm agent, says that he feels that the county's tobacco crop, this year has county's tobacco crop, this year has been pretty good especially when compared with the crops in Craven, Wayne, Lenoir and Johnson coun-ties. Much of the tobacco in those counties was ruined by the dry

Carteret county tobacco crops re overed from the hail which struck

Some of the farmers in the county have already sold tobacco on the Georgia markets and several reported good average prices. Most of the farmers, however, are waiting until next week when Eastern Belt markets open.

Mr. Williams says that annex every tobacco field in the county shows some sign of nematode damset a said that the damage under the influence of alcohol and the said that the damage the said run driving. Watson E. Mr. Williams says that almost would have been much worse if the hit and run driving. Watson E. drought here had been as bad as in Wyatt was fined \$100 and costs for ome other parts of the state.

He urged farmers to take steps now to guard against nematode damage next year. He suggests that, after the last pulling, farmers that, after the tast pulming, tarters cut down the stalks and plow out the roots, exposing them to the sun as soon as possible. He said that this will destroy many of the nematodes and nematode eggs. He said that the nematodes winter in the soil and decaying roots.

He says that one excellent way to eliminate them is to turn the roots out with a turning plow or middle buster and then drag them over with a section harrow or weed er a few days later to expose more roots to the sun. He says that after four or five days the field can be prepared for planting winter crops if desired.

## Waterspout Stages Brief Performance off Beach

Most Carteret countians have proximately 3 o'clock been feeling lately that the weather waterspout formed off was up to no good with thunder storms every night, unseasonal rains, and sudden changes.

The peculiarity of the weather almost became tragic for Atlantic Beach Tuesday afternoon at ap-

### **Beaufort Rotarians Hear Scout Official**

Mr. Howard told of the work being done with the various troops in the county and of the new troops which have been formed in

Charles Hassell, scoutmaster of one Beaufort troop, described the expansion of his troop and said that he now has 29 members and has applications from an additional

that he now has 29 members and has applications from an additional ten boys.

Mr. Hassell said that he would like a member of the club to volunteer to serve as assistant scoutmaster. He said that the size of the troop makes it impossible for one man to do all the work. He also mentioned the possibility that it might become necessary to form a second troop to take care of all the boys.

"Watersposts occur most frequently over the warm seas of the tropics, but they are not confined to the warmer tropical seasons, or even to low latitudes."

As for that last comment in the minent Britannica, those who saw the spout off the Carteret coast, neither tropic nor low in latitude, also mentioned the possibility that it might become necessary to form a second troop to take care of all the boys.

"Watersposts occur most frequently over the warm seas of the tropics, but they are not confined to the warmer tropical seasons, or even to low latitudes."

As for that last comment in the spout off the Carteret coast, neither tropic nor low in latitude, as assure the encyclopedia writer that he is right. What this will do for book sales is difficult to fore cast.

## **Completes Plans** For Coming Year For Migrating Florida Storm

**All Faculty Posts** Filled Except One, **Tarkington Reports** 

All faculty positions in the Beau-fort graded school for the next school year have been filled ex-cept one, B. E. Tarkington, prin-cipal, reported this week.

Mr. Tarkington said that all of the new teachers coming into the school meet qualifications which will assure the community of the continuance of the school's excellent instructional program.
The curriculum in the high

school has been expanded to include several new courses. These include civics, elements of general business, secretarial practice and advanced typing and Latin. New teachers coming into the

school are Miss Ruth Gibbs and Madeline Chadwick, first grade; Mrs. Virginia Andrews, sec ond grade: Miss Laura Gibbs, third grade; Miss Isabella O'Neal, fourth grade; Mrs. Shirley Babcock and Norman Chadwick, eighth grade and Kenneth Stargardt, tenth grade and coach.

In discussing the coming school year, Mr. Tarkington said the year shows 'promise of being one of accomplishment for the community in its work of improving our school." Mrs. Ben Jones is presi-dent of the school's Parent-Teacher association. Other officers are Mrs. Carlton Rose, vice-president, and Miss Gertrude Styron, secre-

tary.
Mr. Tarkington urged all parents of children in the school and parents of children in the school to join the
