4-H Girls are reminded that the Carteret County Dress Revue will be held at the county courthouse May 6 at 7:30 p.m. Now is the time to start planning a dress to wear in this event. An outfit should be selected with the following in mind: (1) Select a fabric that has good color and design, good texture, is durable, in style and suitable for the pattern; (2) Select a suitable pattern that has good lines for the individual, suitable to the fabric, in style and not too difficult for the person constructing the dress.

Patience is needed to make a good dress. Each 4-H girl must make the dress she models. She should put special emphasis on hems, even waistlines, correctly fitted sleeves, zippers put in correctly, belt guard, collars even and correct, and waist correctly fitted.

There will be a Junior and Senior division in the dress revue. Senior girls are all girls in 4-H work over 14 years of age. Junior girls are girls below the age of 14. In order to represent the county in the State Dress Revue, a girl must be 14 years of age as of Jan. 1, 1954.

Any commercial pattern may be used. Dresses made in a home economics class are not eligible. A lined suit is not acceptable in the State Dress Revue, and will not be accepted in the County Dress Revue.

Now is the time to begin to plan and make your dress to wear May 6 in the dress revue.

In an effort to get more good family milk cows in Carteret County, 4-H Club boys and girls now have the opportunity to purchase a purebred dairy heifer for their projects. The county extension agents will assist in helping any person get a dairy calf. If you are interested, let the county agents know so they can advise with you in securing either a nice Jersey or Guernsey heifer.

Last year 14 members purchased heifers which were shown at the Coastal Junior Dairy Show in New Bern. The majority of these heifers received either blue or red ribbons and cash prizes. Four-H members getting calves this year will be given the opportunity to show their animals this fall in New Bern.

Kelly Williams of the Newport Senior Club who lives near Harlowe on the Mill Creek Road has a purebred Duroc Gilt about ready to pass on to a 4-H boy or girl. This gilt is from a litter of 11 pigs and should make a good brood sow.

The first 4-H boy or girl that has the feed and facilities to raise the pig gets it.

**People Forget To Sign Reports**

Raleigh—Absent mindedness is causing trouble for Thomas Creekmore and his staff in the Motor Vehicles Department's Financial Responsibility Section.

Here's why. Of the approximately 420 auto accident reports received daily some 5 per cent of them arrive unsigned.

Creekmore could offer no explanation for the oversights other than plain forgetfulness on the part of drivers involved. He reminded motorists the reports must be filled out in detail and signed before administrative machinery can process them.

At present the responsibility section is disposing of cases at the rate of about 165 per working day. Many have to be returned for correction, Creekmore commented. He also said about one third of the uninsured drivers involved in accidents were posting collateral or securing a release from liability in order to avoid having their license suspended.

In the northern hemisphere about 60 per cent of the earth's surface is under water and in the southern hemisphere, about 80 per cent.

**TO ELECTRICITY**

*and Enjoy the Difference!*

MRS. MARION C. HOLLAND of 1313 Park Ave., Goldsboro, says: "I think my Electric range is much cleaner than any other type of cooking, and also much easier because of constant heat. I can depend on my oven to cook my meal while I am at Church."

MRS. W. L. HOLLOWMAN of 1600 E. Elm St., Goldsboro, says: "After replacing my gas stove with an Electric Range, my electric bill increased only about a dollar a month. I now enjoy a fumeless kitchen which is cleaner and cooler."

This particular Difference is the modern way for you to get rid of flames, fumes, soot, grime and ashes, permanently! Switch to the clean comfort of matchless Electric Cooking . . . and enjoy the Difference!

More than half the families in our service area have learned from experience that it costs less to live electrically. They have found that when you cook, heat water, and perform other household chores with electricity, the total bill is less than when you perform these same tasks using various types of fuel. As you put electricity to work for you in more and more ways, the more you benefit through the advantages offered by the bottom steps of the rate.

Some of these families who live electrically, are your neighbors. You can take their word for it. Just ask them: "What's the Difference when you cook Electrically?" Two of their answers are here for you to read. They help prove this point . . . When you cook Electrically, there is a Difference—and you'll enjoy it!
