County Basks In Warm Weather

The weather in Carteret County continues to be fair and warm. Th mercury hovered in the high 70's during the early part of the week reports Stamey Davis, weather ob server.

Highest temperature recorded from Monday to Wednesday was 80 on Tuesday. This, according to Mr. Davis, is the highest this year, but that temperature has been recorded on several occasions prior to this week.

Crusade Against Cancer

County Doctors Support

(Editor's Note: The following article comes from the Morehead City Hospital staff through the thereby lose the best opportunity to obtain a cure. public relations committee of the Carteret County Medical Society). The members of the Morehead

City Hospital Medical Staff and the doctors of Carteret County wish to call particular attention to the fact that the month of April is desig-nated "Cancer Month." It is during this time each year that the drive by the American Cancer So-ciety is launched throughout the entire United States for the collection of funds in the all-out drive to determine the cause and cure of the dread disease cancer.

The cancer drive has the full sponsorship and approval of all the Medical Associations throughout the country and its significance grows in importance each year as the death toll from cancer county doc-tors, like those elsewhere through-out the country, continue to see all too many cases where symptoms have been present for weeks and count medical advice. Not all of this is due to failure to recognize symptoms which indi-The cancer drive has the full
