Driver Fined \$100 in Court

Dave Ward King, Morehead City, Found Guilty Of Reckless Driving

Dave King Ward, Mansfield Park, Morehead City, was found guilty of reckless driving in Beaufort Recorder's Court Tuesday.

Ward, charged with drunk driving, was arrested by Beaufort Police Officers W. C. Garner and Maxwell Wade May 17.

He was seen by the Snack Grill and followed into town by the officers and arrested on Turner street. Ward was weaving all over the road and had to be helped from his car to the patrol car and into the jail, according to the officers' testimony.

Attention to Ward was brought to the officers by Clarence Guthrie, Beaufort, who was almost struck by Ward's car.

Had Been to Harlowe Ward said that he had been to see his brother, Dan Ward, at Harlowe and while there did some work. He has chronic asthma, he said, and the work made him ill.

He said he had a "small drink of gin" to relieve his asthmatic attack, but it did no good so he attempted to drive to Beaufort to pick up his wife, he said. Just before entering Beaufort he suffered another attack that affected his driving, he said.

Judge Mason amended the warrant to reckless driving and passed judgment.

Willie Godette and Clayton Steele, charged with fighting and disturbing the peace and assaulting each other, were sentenced to 30 days on the streets, suspended on payment of \$25 and costs.

Both said the other started the fight, with Godette pulling a knife. Steele said he took it away from Godette. When Officer Wade arrived on the scene Godette was lying on the ground and Steele was just getting up, according to the officer's testimony.

TV Set Controversy Mrs. Virginia Murphy, Fulford street, Beaufort, charged with taking a television set from Thomas C. Woodard's after being told it was being held for the price of labor and replacement, said she'd give the set back.

Costs were imposed on the following: Dave W. Wray, Hollie Green, and Wilbur Joseph, charged with failing to stop for a stop sign; Joseph, improper muffler; Charlie Davis, North Harlowe, public drunkenness, and Elvie Elijah Jones, Merrimon, improper muffler.

Cases continued were Harold Lee Willis, drunk driving and public drunkenness; Lillian McDowell, Elwood Newman, and Ralph James Bold, failing to stop for a stop sign; Bold, speeding; and Moses Elisha Moore, improper muffler.

What's happened to the U. S. family in the "Electric Age"?

They use 3 times as much electricity-and pay less per kilowatt-hour for it

U. S. families have moved into the "electric age." A measure of their change—they are using 3 times as much electricity today as they used in 1939.

One reason is that electricity does more jobs for them. And the price is lower—the average family pays less per kilowatt-hour than in 1939. Another reason—there's more of it.

The electric light and power companies provide 3 times as much electricity as they did in 1939. They are building new power plants and dams and lines all over the country to keep well ahead of growing needs.

Carolina Power & Light Company has had an appropriate part in this expansion. In fact, this company is engaged in a \$200,000,000 building program that already has resulted in new generating plants, new substations, new lines and other facilities. This summer another new generating plant, near Wilmington—the largest on our system, will go into service.

In spite of this abundance, some people still propose that the federal government build electric projects even if it means waste, a bigger national debt and the threat of socialism.
