

New A&P Store to Open

(Continued from Page 1, Section 1)

pre-packaging room, contains the best equipment available for the new type super market. It also has the benefit of experience and "know-how" that A&P has gained through its pioneer work in the food merchandising business, the A&P vice-president said.

"One of the many advantages of this new type meat department is that it makes the housewife's shopping much easier, quicker and more convenient. The self-service meats are wrapped in transparent packages with the weight and price plainly marked on each package, and the housewife can quickly choose what she wants from the open-face refrigerated cases.

"If the shopper wants a special cut or odd quantity of any merchandise," Mr. Bealer explained, "store personnel will be readily available to take the order and transmit it to the cutting room for prompt, personalized service."

At the left side of the store is the A&P coffee-dairy department,

with the side wall painted in a beautiful shade of green. In the front of the store the walls are painted with an attractive canary-yellow. These colored walls blend harmoniously with the new tile flooring and the attractive white gondolas that contain stacks and stacks of grocery items.

In addition to the 100 per cent self service produce department, meat department and A&P coffee-dairy department, there is a separate candy department, bakery department and a brand new department specializing in health aids such as toothpaste, toothbrushes, hair lotions, deodorants, etc.

In order to speed the flow of traffic through the store three check-out counters have been set up in the front of the building.

Mr. Bealer said the new store represents an investment of well over \$100,000. The building covers an area of 7,200 square feet. There is a parking area at the left and in the front of the store.

Mr. McDonald, the manager, was

born in Ridgeway, Pa., and has been with A&P for 25 years.

Mr. J. M. Mitchell is the assistant manager. Mr. Mitchell was born in Newport News, Va., and has been a Tea Company employee for 26 years.

Delbert C. Rhue is in charge of the coffee-dairy department. He is a native of Carteret County and has been with A&P for two years.

O. W. Nelson is the produce manager. Mr. Nelson was born in Charleston, S. C., and has been with the produce department of A&P for nearly five years.

R. J. Rogers is in charge of the meat department. He has had wide experience in the meat cutting business, and has been with the Tea Company for more than 14 years.

"North Carolina-grown and processed fruits, vegetables and other food products will be featured in our new store, as in our other stores, wherever possible," Mr. Bealer said.

"Actually, the new store is an additional industry for Morehead City, since it has added more than 20 persons to our local payroll," he pointed out.

Tune Up For Health

Foot Correction

Many people feel tired and worn out because they have bad feet. Foot defects can cause you a lot of pain and discomfort. Faulty posture, nervousness, headaches, back-aches, leg pains and corns are among possible results.

About 7 out of 10 Americans have such troubles.

An average body weighs about 160 pounds supported by feet which weigh about four pounds.

Heels-Raise Each of your feet has 26 bones held together by muscles, ligaments and tendons controlled by many nerves. There

are two arches in each foot, the longitudinal arch and the metatarsal arch. Every time you step there are 126 movements in your foot. Eight miles of walking a day is about par for Americans.

So you'd better take care of your feet. These exercises will help. Here's this week's:

Heels Raise
Stand with feet together hands on hips.
COUNT 1 — Raise heels from floor.
COUNT 2 — Return to starting position. Repeat counts 1 and 2 sixteen times.

Zoot Suits, Delinquency Are Related Says Judge

Atlantic City, N. J. — (AP) — County Judge George T. Naame says there's a connection between juvenile delinquency and wearing zoot suits.

"It must be more than just coincidence that a high average of juvenile offenders wear zoot suits with ankle-tight trouser cuffs, long flared coats with plunging lapels and king-sized ties and shirt collars."

Zaney apparel, he said, gives juveniles a false sense of courage and self importance that can lead to delinquency.
