THINK!

By DR. R. O. BARNUM
Morehead City, N. C.

Think for yourself and reason the proposition in your own mind. What is the logical result when the nerve supply is reduced to any particular organ of the body, or when these vital forces of health are unable to follow their normal channels due to interference?

Chiropractic adjustments not only restore health; they also build health. The old adage: "An ounce of prevention is worth a pound of cure," may be considered trite, but it is sound truth.

The Chiropractic principle briefly stated, is this: The cause of disease is in the person afflicted. Adjustments correct conditions that produce illness.

The function of every organ in the body is controlled through the brain, by mental impulses, which are transmitted over nerves. Any impingement or pinching of the delicate nerve fibers, interfering with the free flow of vital nerve forces causes impaired or abnormal function. This is disease. This nerve interference is produced by a vertebral subluxation.

The Chiropractor is trained to locate the point of nerve pressure, and by adjusting the subluxated vertebra, releases the pressure. Normal condition — HEALTH — is the result.

(One of a series of articles published in the public interest to explain and illustrate the practice of Chiropractic).

Girls Start Experimenting With Cosmetics During Teens

Thirteen, considered by many an unlucky number, is an important age for your daughter — it's probably the time she starts to use cosmetics.

Youth Research Institute reports little girls start "looking like mama" at age 8 by sampling available lipstick, perfumes and powders and that by the time they reach 13 "they have a pretty good idea what's what." After finding 86 per cent of all teen-agers use lipstick, the institute concludes:

"Parents today are unusually broadminded if the great range of teen-age cosmetic purchasing is to be taken as a criteria."

It is not only the older girls who chatter away at cosmetic counters and buy millions of dollars worth of makeup and fragrance. The young teens are close seconds.

Lipstick, most popular of all cosmetics, is used by 94 per cent of 16- to 19-year-olds, 78 per cent of 13-to-15-year-olds.

Two-Car Collision Causes \$95 Damage Saturday

Approximately \$95 damage was caused Saturday when a 1947 Chevrolet and a 1950 Oldsmobile collided at 10:25 a.m. on Arendell Street, between 8th and 9th Streets, Morehead City.

The Chevrolet, driven by Berry Sutton, Mansfield, was pulling around a line of traffic when the accident occurred. The Oldsmobile, driven by Sarah Ann Griffin, Morehead City, was traveling east on Arendell when the Chevrolet pulled out, police said.

Damage to the Chevrolet was estimated at \$35 and the Oldsmobile's damage at \$60.

Sgt. Carl Bunch investigated.

Correct Table Settings Pay

Giving your first dinner party? Or are you a well-conditioned hostess? Whichever you are, correct table settings are the best ways to show off your silver, food and social smartness.

Some basic rules about silverware: Knives, forks and spoons should be placed in the order of use, from the outside in toward the plate. Knives and spoons are, of course, always set on the right with the sharp edge of the knife turned toward the plate.

Smaller utensils often present a problem to the hostess. A butter knife has its place across the bread and butter plate. And the small cocktail or oyster fork is next to the soup spoon.

You know what to put on the table. But what should you leave off? At a formal dinner, dessert fork and spoon make their first appearance with the dessert plate—and not before. And when no knife is needed for the meal, keep it off the table. Only in such a case should the fork replace the knife in position on the table.

Napkins may be placed at the left of the setting or on the plate itself. Majority expert opinion holds the napkin fold should be away from the plate.

Summer brings a suggestion for serving iced tea. If a small service plate is put beneath the glass, it

will solve a diner's dilemma: what to do with the wet spoon. Water glass or goblet is placed just above the tip of the knife blade. The cup and saucer is set to the right of the plate.

Set off the mood of your dinner with the appropriate dishes, cloth and accessories. Candles, flowers or center-piece help give that Picture-book atmosphere to your dinner table.
