## Home Demonstration News

# Mrs. G. T. Spivey Will Take United Nations Tour

By **MARTHA BARNETT**  
Home Agent

Mrs. G. T. Spivey, Beaufort, will represent Carteret County in the 1954 United Nations Tour to Washington and New York, Oct. 4-9. Mrs. Spivey is a member of the Bettie Home Demonstration Club. Through sending a delegate on this tour, club members hope to gain more knowledge of the United Nations and International affairs.

Oct. 4-9 is an important week for Home Demonstration Club members in Carteret County. This week is Fair Week and offers homemakers a chance to exhibit their best work. Individual exhibits of garden products, fancy work, canning, sewing, flowers, crafts, and baked goods are always needed.

Home Demonstration Clubs are offered prizes for four educational booths. Any club wishing to enter a booth should discuss plans at their September club meeting.

State Fair, Oct. 19-23 is another opportunity for homemakers to exhibit their best canning, pickles, jam, jelly, cakes, dresses, needle work. Carteret County should be well represented with individual exhibits at this year. Substantial prizes are offered in all fields.

A day at State Fair offers an opportunity to see new and better ways of doing work, improving skills and increasing knowledge. It can also be a day of recreation and fun. Plan to send an exhibit and go this year to North Carolina State Fair, Raleigh, Oct. 19-23.

Many questions are asked about how to keep cut flowers as long as possible. Mr. John Harris, in charge of extension horticulture, gives the following list of nine suggestions. Perhaps club members will find some of these suggestions helpful.

- (1) Cut your flowers with a sharp knife in late afternoon.
- (2) Be sure your container in which you are to arrange the flowers is thoroughly scoured, even sterilized, because scum (bacteria) clog up the stems and cut down on water absorption.
- (3) Copper containers work good because they give off small amounts of copper which help keep down bacteria. Copper wire in other type containers will help in the same way.
- (4) Plants absorb most of their water through the cut end. Therefore it makes little difference with most flowers how deep the stem is in the water. Make a sloping cut so the water can enter the stems. Pin cushion type holders may stop up part of the stem and thus prevent some water absorption.
- (5) Don't allow leaves to stay in water. They soon decay and foul up the water.
- (6) The cutting of stems under water helps with some plants, others show no effect.
- (7) Most writers agree that dahlia, poinsettia, hollyhock, heliotrope and poppy keep better if cut end of stems are burned before placing in water.
- (8) Keep your flowers out of drafts and as cool as possible, especially when first cut.
- (9) All kinds of materials were recommended for putting in the water. I haven't space to list them all. The commercial preparations available from your florist usually contain several materials and should be satisfactory.

## English Play Titles Were Long, Says Prof

New Haven, Conn. (AP) — A Yale University lecturer told an audience that back in 1954, a play with this title (try it on today's theater marquee) was produced in England.

"The First Part of the Contentment Betwixt the Two Famous Houses of Yorke and Lancaster, with the Death of the Good Duke Humphrey; and the Banishment and Death of the Duke of Suffolke; and the Tragical End of the Proud Cardinal of Winchester, with the Notable Rebellion of Jack Cade; and the Duke of Yorke's First Claime Unto the Crowne."

Thomas B. Morris, extension poultry specialist, gives us the following September poultry reminders. Why not keep this list and check it as things are done. For home flock, the same principals apply.

- (1) Never house pullets with old hens. If possible, keep the old hens (if 50 per cent lay) now that egg prices are favorable.
- (2) Keep good records and know your flock. Record keeping

**Aged Newsmen Plans To Sell Weekly Paper**

Montfort, Wis. (AP)—Wanted: a buyer for a weekly newspaper that has been in continuous publication for 54 years. There's one catch — all the type for the Montfort Mail has to be set by hand just as Rufus D. Quick, 77, the editor, has done since 1900.

Quick said today that he was forced to suspend publication because of illness and now plans to sell the newspaper that serves this community of 550.
