

South Carolina Pays Costs in Extradition

Greenville, S. C. (AP)—Solicitor (State's attorney) James M. Mann complained about the high cost of extradition. He got a bill from Florida in the case of a prisoner returned here from that state. The cost: \$5 for the state of Florida and about \$19 for the sheriff who handled the case. When this state does the same for another state, there's no charge.

Newport 4-H Club won first place in the 4-H Division for booths at the County Fair. This booth featured Landscaping The Country Home. Mrs. John Kelly, 4-H leader and Mrs. Ruby Simmons, 4-H Adviser, helped plan and put up this booth. Faye Kelly, Shelton Howard, Ronnie Kelly and Jo Ann Kelly were 4-H members who helped with the booth. Morehead City won second place, red ribbon, with a booth showing the difference nitrogen makes when used on corn. Members of the 4-H Club planned and worked on this booth. Patsy Holt, Betty Morrison and John Gatlin were 4-H members working on this project. Mrs. Mary Olive Thomas, home agent, Jones County, and A. T. Jackson, county agent, Craven County, judged these booths. Irma Sue Cannon, Beaufort 4-H member, entered samples of her canning in the fair as an individual exhibit. This will count for credit on her 4-H food conservation project.

The girls' demonstration for 4-H Club meetings in October will be on hand ironing. The 4-H schedule for October is Tuesday, Oct. 12, Camp Glenn Jr. 4-H Club, 9-9:40 a.m.; Camp Glenn Intermediate 4-H Club, 9:45-10:30 a.m.; Morehead City Sr. 4-H Club, 1:30-2:15 p.m. Wednesday, Oct. 13—Newport Jr. 4-H Club, 9:15-10 a.m.; Newport Int. Club, 10-10:45 a.m.; Newport Sr. Club, 10:45-11:45 a.m. Thursday, Oct. 14—Atlantic Sr. Club, 9:35-10:15 a.m.; Atlantic Jr. Club, 10:20-11 a.m.; Atlantic Int. Club, 11:05-11:50 a.m. Harkers Island 4-H Clubs met on Friday, Oct. 8 and Smyrna Clubs on Monday, Oct. 11.

The boys in the 4-H Clubs are studying electricity this month. The girls are devoting their attention to improved ironing. No doubt these two subjects are as practical and interesting to school-age people as they can be. The boys are learning about the many things electricity can do on the farm and in the home. They are surprised to hear that electricity can do many things faster, cheaper and better than by hand alone. For instance a one-horsepower electric motor in one hour, for 3.6 cents can do as much work as the average man can do in a day for \$8. Electricity can pump 1000 gallons of water for 3 cents whereas it would cost \$8.33 to pump the same amount by hand. On the farm, it would cost 10 cents to shell 100 bushels of corn with electricity, but a man would charge

\$16.65 to do the same job by hand. Such terms as "40 watt light bulb," "Killowatt hours," and "completing the circuit," are being explained. A demonstration is given at each meeting, showing how to splice a lamp cord, how to install a drop cord, and how to make a trouble or service lamp. These ideas can be used by the members themselves at home. Today, all over North Carolina, a referendum deciding the future of the "Nickels-for-Know-How" program is being held. If you have not voted and it isn't too late, be sure to do so at once. The polling places are scattered throughout the county and are convenient for those eligible to vote. Anyone, regardless of age, who buys or uses feed or fertilizer can vote. "Nickels-for-Know-How" is a plan where 5 cents per ton of feed and fertilizer is paid by the person purchasing the feed or fertilizer, to the State Department of Agriculture in Raleigh for research and educational work to be done on many agricultural problems. The average farmer pays in about 30 cents per year, but he may receive information through the results of this money that can make him several hundred dollars in one year.

Motorist Stays Away from Town

Bells, Tex. (AP)—George Dugan still drives his Model T — But he hasn't driven in nearby Sherman since he ran a stop sign 18 years ago. That time he made a deal with a traffic cop. "Well, sir," he said, "just let me turn around and go back to Bells and I won't bother you any more." Dugan has kept his promise. Recently the Sherman police chief heard about it. He sent word to Dugan that the cop has long since retired and Dugan can drive his Model T in Sherman any time he wants. Dugan declined. He said he still doesn't want to go back on his word — and, besides, the Model T is getting too old to be cutting up in that city traffic. Elyria, Ohio (AP) — Poor aim cost the defendant \$35. That's the sum he was fined for disorderly conduct after Patrolman Harvey Hahn accused him of spitting in his face in anger over a traffic ticket. "I meant to hit the ground," said Goldstein.

Bobcat Turns Out to Be Marine's 'Enemy'

Tokyo (AP) — A U. S. Marine was routed by the "enemy" during recent maneuvers of the 3rd Marine Division on Mt. Fuji. Pfc. James A. Gilson, Warren, Pa., heard a noise while on guard. Fully expecting an "enemy patrol," he crept up to some bushes. A snarling, spitting bobcat was staring him in the face. Gilson retreated.
