Man Flees Unhurt After Encounter with Train

Shelton, Neb. (AP) — Engineer John Hillebrendt, peering into the darkness from the cab of his engine, saw a man on the track ahead and then a body flying past. Hillebrendt stopped the train and with the help of some 100 passengers searched futilely for the body for half an hour.

The mystery was cleared up the next morning when Marcelino Agular told of his scrape with the train. The accident had cost him a damaged shoe and a good scare. He said the train struck him, but he fled when he found himself unhurt.

Old Hardware Store Finds Valuable Antiques

Charlotte, (AP) — A hardware store, established in 1899, was preparing to make its first move. Up from a musty basement corner came boxes of buggy whip sockets, wool carding combs, brass shaft tips, buggy singletrees and spoke shavers. (If you don't know what these are, ask your grandfather.)

They posed the question: What to do? Somebody suggested a sale. They sold like hotcakes! Souvenir hunters did the buying.

WON'T YOU LOOK OUR CARS OVER BEFORE YOU BUY THE NEXT ONE?

Buy in safety — buy your used car from Parker's Car Harbor — buy with confidence. A used car bought from a reliable dealer is a better investment than any new car. WHY? In the first place a used car does not take the normal 40% depreciation during the first year.

WHY does the new car depreciate 40%? The salesman's commission, the dealer's discounts, the federal tax which does not add to the real value of the new car, but are added in the price the purchaser pays.

These items are easily 40% of the list price. Obviously all used cars are not of equal value. Are you capable of finding that out for yourself?
