## Harkers Island Group Goes Before Board of Education

Harkers Island appeared before the County Board of Education at its recent February meeting and asked the board to see that Harkers Island gets a new school. Spokesman for the group was George

The delegation was told that improvements for Harkers Island have been approved by the state and the money will be forthcoming when the additional twenty-five million dollars in state school bond

noney is released. The first half of fifty million has already been distributed but the state is holding the second half further development on

school integration.
Joe Zajac of Salter Path appear ed before the board and requested that indoor restrooms be installed in the Salter Path School. He said that the labor would be supplied if the board would supply the ma-terials. The board agreed.

The frame school building at Salter Path houses 32 pupils. Boiler Replaced

H. L. Joslyn, county superin-tendent of schools, said that the damaged boiler at Smyrna School has been replaced with a boiler that was in the Camp Glenn School.

Progress is being made on the installation of the new boiler at the Queen Street School. The boiler there played out about a month ago and since that time the rooms have been heated by oil

The board discussed the pressing need for more classroom space in Morehead City. The most logical solution at present, it seems, is to move the division line between pupils attending Morehead City Camp Glenn Schools from 24th Street to 22nd and add four more rooms to the Camp Glenn School. Since 1949, Mr. Joslyn comment-

ed, \$421,080.79 has been invested in new school construction in the Morehead City district. From the 1949 school appropriation, \$108,-216.39 was spent on the W. S. King School and additions to the white school. Two rooms have been added this year to W. S. King.

New Annex, School
Of the more than four hundred thousand investment, \$92,305.61 was used to build the Morehead City School sunex and \$205,434 was spent for the New Camp Glenn School.

Morehead City has had the big gest growth, but it has also re-ceived the largest school fund ap-propriations to take care of that wth." Mr. Joslyn said.

Mr. Joslyn announced that he will attend the American Associaof School Administrators regional meeting from Feb. 26 to March 2 at St. Louis, Mo.

### **Burglars Hit Three Business Places Yesterday**

Burglars left a trail of three break-ins at the beach and the western part of the county early yesterday morning. Entered were the Texaco Service Station at the Fort Macon and beach roads, At-lantic Beach, the Airport Grill, west of Morehead City, and Edgar Hibbs Soda Shop at Newport.

Sheriff Hugh Salter said the glass in the front door of the service station, operated by Jarvis Piner, was broken and about two to three dollars in cash was taken from the cash register. The register drawer was taken too.

At the Airport Grill the lock was broken on the front door. The cash register tray was taken (there was nothing in it), a watch beside the register and six cases of beer were stolen. Also a cigar box full of papers was taken.

At Hibbs Soda Shop only a small

amount of money in a pinball ma-chine was missed. The burglaries occurred between midnight Sunday and when the places were opened

yesterday morning.
Investigating the break-ins, besides the sheriff, are Deputy
Sheriffs Bobby Bell, M. M. Ayscue and Constable Bill Dugee, New-

### Congressional **Approval Clears Way for Railroad**

Southern's Proposal Now Goes Before ICC Where **Final Approval Expected** 

Washington - The Senate Arm ed Services Committee approved Friday Southern Railway's plan to extend its operation beyond Golds boro to the North Carolina coasta

Senate approval of the lease vir tually assures Southern of permis sion to take over the operation of the Atlantic and East Carolina

The proposal will now go before the interstate commerce commis sion for a hearing. The issue was placed with the ICC earlier, but the commission would not act til congressional approval had beer given to the proposal.

Approval came without a dissent

ing vote in the full committee after it was recommended by a subcommittee that heard the issue earlier in the week.

Under the Southern's program, it will operate the state-owned line connecting Goldsboro and More-head City, as well as the federally owned "spur" that connects that line with Camp Lejeune and runs from Jacksonville to Havelock.

To Be Published Committee hearings on the issue

heater in the bathroom destroyed the home of Mr. and Mrs. Marinus Snipes south of the dog track on the sound Sunday morning at 4:30.

Mr. and Mrs. Snipes were awak ened by smoke in their bedroo and they escaped the blazing inferno with very little of their be-longings besides the clothes that they put on.

#### Firemen Answer

Firemen from the Morehead City fire station responded to the alarm and though they couldn't save the Snipes' house, they sprayed water on the house to the west of the Snipes' to save it from being consumed by the flames.

Fire Chief Vernon Guthrie said the Snipes house was insured

Saturday Night Fire Firemen investigated a fire at the home of Lee Garner across from the race track Saturday night

at 10 p.m., but the flames had been extinguished by the time of their arrival. According to Mrs. Garner the

fire started in a rafter above the living room and she and a neighbor put it out. She said she didn't know how the rafter started

### **Truck Body Hits** John Eubanks, 74

John R. Eubanks, 74, of Bay Street, Morehead City, was seri-ously injured at 6 p.m. Thursday when he was struck by a truck on Highway 101 in Beaufort. Eubanks was reported in a fair condition in the Morehead City Hospital yester-

His right pelvis and facial bones were broken, he had cuts about the face, and numerous bruises.

The accident occurred at the in-tersection of Highway 101 and the airport road. The truck, a 1947 Dodge pick-up, was being driven by David C. Richardson, 604 Ann St., Beaufort.

State Highway Patrolman R. H. Brown said that Eubanks had parked his car at the side of the road about 6 inches over on the hard sur-Damage to the Oldsmobile was about 6 inches over on the hard surestimated at \$100 and damage to face. He had been visiting a rela-The Rev. Mr. Howard told Offi-road to get in his car on the right side, he walked into the side of the pick-up.

Richardson was travelling north on the highway at about 15 miles an hour. The protruding body of the truck struck Eubanks. Richardson said he never saw the man but stopped when he heard a

thump.

No charges were filed against Richardson.

### Government Sends Two Fisheries Statisticians to Carteret County

of the Interior is planning a pro-gram to improve methods of gathering statistical information on all phases of the commercial fish-

ters at the U. S. Fish and Wildlie Service Station at Beaufort and will cooperate in the undertaking with the Commercial Fisheries Division of the State Department of Conservation and Development and the Institute of Fisheries Research, both located at Morehead City.

Representative Bell said he had been advised of this matter by Ben E. Douglas, Director of the Ben E. Douglas, Director of the Department of Conservation and Development. To get the survey properly started, a meeting will be held in the commercial fisheries building at the section base Monday, Feb. 21 at 9:30 a.m.

C. Edward Petersen, assistant

C. Edward Petersen, assistant chief of the Statistical Divison of the U.S. Fish and Wildlife Service with headquarters at Washington, and Charles Stewart of Beaufort, who has been assigned as one of the two men to carry on the work

in this area, will be present.

Representative Bell said that
members of the General Assembly
from the 21 coastal counties have
been invited to attend as well as the fisherrmen from up and down the coast. Also present will be Mr. Douglas and other representatives of his department, and the mem-bers of the executive committee and staff of the Institute of Fisher-

United States Department vey, which is part of a general program for the South Atlantic states, with funds voted by Congress at the last session. Several months gathering statistical information on all phases of the commercial fisheries industry, it was announced yesterday by Rep. D. G. Bell of Morehead City.

In order to carry on this work, said Mr. Bell, the Fish and Wild-

Morehead City.

In order to carry on this work, said Mr. Bell, the Fish and Wildiffe Service of the Department will station two men in the Carteret County area who will devote the next several months to this work.

They will have their headquarters at the U. S. Fish and Wildiffe Service Station at Beaufort and will cooperate in the undertaking with the Commercial Fisheries Ditage.

It is the plan to gather statistics on the catch at various places and various times, to evaluate this information so as to aid the fishermen in their activities, and to protect the fisheries industry. The program would involve taking of statistics from the time the catch is taken, which would involve taking of statistics of district 2, but represented at a meeting and clambake Wednesday night, March 9, at Smyrna School. The association is composed of school committeemen, board of education members and school board personnel. Thirteen counties are in district 2, but representatives from the time the catch is taken, will be represented at a meeting and clambake Wednesday night, March 9, at Smyrna School. The association is composed of school committeemen, board of education members and school board personnel. Thirteen counties are in district 2, but representatives from the time the catch is taken. through the actual processing and retailing of the fish product. "Such a survey," said Mr. Bell,

"could prove extremely valuable to the fisheries industry. I am de-lighted that the work is being undertaken, for it may be the means of improving the status of the fishermen generally, by providing them with information from season to season regarding the possibility of this or that area under certain weather and temperature ditions. "Certainly it will be a means

developing a complete statistical program so that actual knowledge of the potentialities of the fisheries industry may be made available at all times as a guide to those inat all times as a guide to those in-terested in further development and in the setting up of processing plants at various localities."

errmen from up and down t. Also present will be Mr. and other representatives lepartment, and the memthe executive committee for the Institute of Fisherarch.

ell said that the federal ant would finance the sur-

personnel. Thirteen counties are in district 2, but representatives from only seven will convene at Smyrna. Those counties are Craven, Pamli-co, Jones, Lenoir, Carteret, Greene and Onslow.
