## Firemen to Put New Sub-Station At 28th Street

Morehead City firemen have decided to put the new sub-station at the south end of 28th Street. The bridge formerly crossed Bogue Sound at that point.

"The location is ideal," Chief Vernon Guthrie said, "because the paving is already there and it is in the center of the area we have to cover if we are to protect more fully that end of town."

The rear of the station would be on the sound and the front face north.

Plans and an architect's drawing for the station, furnished by Archie Royal Davis, Durham, have been received. The station has the appearance of a home. In the front is the section where fire trucks are kept and in the rear a dormitory for firemen, kitchen and furnace room.

The pitched roof structure will have unfinished living space on the second floor. "We will make that into rooms later," Chief Guthrie said.

Firemen are pleased with the building material donations they have received thus far. Firemen will provide the labor. Materials received thus far and the donors are as follows:

## New Schedule Arranged By Philippine President

Manila (AP) — Ever since President Ramon Magasaysay has been in office the Philippine people have taken him up on his invitation to come in and talk over their problems.

Through his open office door have swarmed more than 250 callers a day. Some days there has been little time for affairs of state.

So now he has a new schedule. No callers before 9 a.m. Senators, representatives and governors, who bring the biggest delegations, are limited to the mornings of Monday and Tuesday.

Delegations are limited to eight persons — and each will get just 10 minutes of his time.

## TELEVISION TIPS

By WAYNE BEASLEY Service Manager Economy Auto & Appliance Store Member N.E.I.

We have a brand new television technician at our house. He is Wayne, Jr., born Feb. 6, 1955. And he is really fouling up the works! He calls for as much attention as a dozen television receivers. I guess about ten different customers have asked, "How was television last night?" I just have to tell 'em, "I dunno."

For the past week and a half I have been chief cook and bottle washer, plus diaper changer. Someone is always asking me, "How do you keep from getting nervous while repairing a complicated TV set?" Shucks! I'll repair the television set anytime compared to changing the baby.
