Quick Change

Immortal Frontiersman

Fess Parker portrays the title role in Walt Disney's feature film of the life of the immortal frontiersman. The scenes depicted are: The siege of the Alamo (top left); the hero's homecoming (bottom left); Crockett in the U. S. Congress (upper right); and the charge of the Creek Warriors (bottom right). Film is in color by Technicolor, wide screen and is released by Buena Vista.

Tender Love Story

Romance—Kirk Douglas and Bella Darvi are the romantic couple in "The Racers." Their tender love story furnishes a vivid contrast to the speed and action of Hans Ruesch's novel about sports action of Hans Ruesch's novel about sports car racing from which "The Racers" was adapted. Douglas plays a champion race driver and Miss Darvi is a French ballerina, who forsakes her art to travel the race circuit with her man.

Chowan School of Printing Offers Five Scholarships

Murfreesboro, N. C.—One \$200 and four \$100 scholarships are available to high school graduates who desire to attend the Roy Parker School of Printing at Chowan College, according to Robert L. Grogan, Dean of Instruction.

Mr. Grogan said the scholarships were made possible through cash contributions of newspaper publishers of North Carolina. Students who are interested are requested to write Dean Grogan at the college.

Personal interviews and competitive tests will be held at the college on Thursday, July 14, beginning at 11:00 a.m.

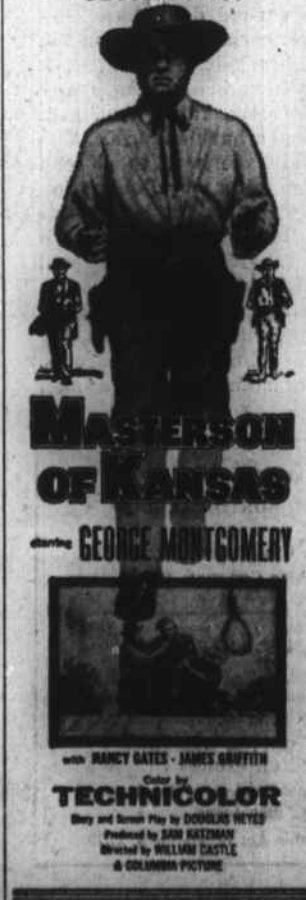

There is also available a \$200 work grant to a young man or woman with typing experience who has also had school or other newspaper writing experience. John McSweeney, director of the school of printing, announced. The student receiving this grant could major in either printing or Teletypesetter perforator courses.

Dean Grogan said applications for the scholarship tests will be accepted through July 7.

Sweet Wine Thing of Past

Paris, France (AP)—Champagne manufacturers say people don't seem to like sweet champagne any more. The more sugar syrup you add to champagne the easier it is to cover the natural acidity of the wine. Really dry champagne has to be better than the sweeter stuff.

Why the change in taste has come is not clear. Experts say it is true of all wines.

Before World War I, there was a market for champagne with as much as 15 per cent sugar syrup. Now it's rare for the French to export anything sweeter than 10 per cent.

The British and Americans have always preferred their champagne as dry as possible. Tastes differ widely and inexplicably with geography. In Venezuela, Scandinavia and Finland, they like it comparatively sweet. The Germans like it somewhat drier. South Africans drier still. The French themselves are taking theirs drier and drier.

Turtle Turns Car

St. Joseph, Mich. (AP)—A turtle bit his ankle, said Daniel Stamm, and that's why he ran into a Main Street safety island with his car. Stamm said the turtle, of the snapping species, got into his car somehow and latched onto his ankle just as he was turning a corner. He lost control and wound up with a dented fender and a ticket for reckless driving.
