## Woman Grows Wild Flowers

Amherst, Mass. (AP)—Mrs. Ce-ville Pray's garden is made up of wild plants from seeds she gathered during 22 years within a radius of 20 miles of her home. As a true nature lover, she didn't dig up wild flowers.  
 She has 34 varieties of native plants from seeds collected from meadows, woods and bogs including trillium, bellwort, squirrel corn, foam flower, bishop's cap, columbine, and Jack-in-the-pulpit among many others.  
 Sowing seed on winter snow, she would get adult plants two years later. She has 14 kinds of ferns including one which produces fuzz used by humming birds in their nests and another which produces delicious, edible "fern bread."

First reports of an American Cancer Society study of some 187,000 men between 50 and 70 years old showed the death rate among regular cigarette smokers was 52 percent above the rate for men who never smoked.
