# **Military** Police Meet at Beach

Mayor A. B. Cooper, **Cherry Point Deny 'Brawl Reports'** 

Members of the Atlantic Beach police department, Marine military policemen, shore patrolmen and several beach beer retailers attend ed a meeting at Atlantic Beach Monday night to outline and reaf-firm policies on law enforcement at the beach.

The meeting was called by Mayor A. B. Cooper and took place in the

mayor's office. The mayor said that the meeting was not called by military authorities or state beer inspectors as has been stated by several unreliable sources.

He reported that at the begin-ning of each summer season he calls a meeting of this type. He said the purpose is to obtain the cooperation of military policemen relative to military personnel who visit the beach.

The mayor remarked that their cooperation with the beach police force has always been good.

He added that there was an ur usually large number of Marines and sailors at the beach Saturday night due to the USS Soley being in port. Many of the sailors brought whisky with them and he said to prevent over-indulging in beer and whisky, beer sales at the Idle Hour Amusement Center were stopped at 9:45 p.m.

THE NEWS-TIMES queried the public information office at Cherry Point Marine Air Base yesterday relative to rumors that Marine au-thorities were distressed about the situation at Atlantic Beach.

Captain Evans, public informa-tion officer, said that he had had no report that Cherry Point authorities were dissatisfied with conditions at Atlantic Beach. After further checking, he reported that air base authorities knew nothing of any "unusual situation" at the beach Saturday night and were in no way "distressed about condi-tions" there.

**Child Remains** In Hospital

## **Otway Home Burns Yesterday Beaufort Firemen Go To Fire; Protect**

**Nearby Home** 

The five-room home of Mr. and Mrs. Donald Brooks, Otway, was destroyed by fire yesterday morn-ing. The fire was discovered by Charles Hancock who went to Con ie Gillikin's Service Station to give the alarm.

Mr. Gillikin phoned the Beaufort Fire Department at 9 a.m., then went to the scene of the fire. The home is located on the loop road which connects with the Har kers Island Road.

When he arrived, smoke was bil lowing out from everywhere, Mr. Gillikin said. Nothing in the home was saved.

Mrs. Brooks had left home about 20 minutes before the fire was dis-covered. Mr. Brooks, who works with the Atkinson Dredging Co., was also away. Two of their three children were in school, and a child who is no longer in school was away too, and the youngest child was with Mrs. Brooks.

Had the wind changed, the neigh-boring home owned by L. G. Thomas would have been endangered, observers said

Beaufort firemen put out the blaze and stood by to make sure that the flames didn't spread. Cause of the fire is unknown. Because of repair work being done on Highway 70, the fire truck had to get to Otway by way of

Highway 101, the Laurel Road and he Merrimon Road.
